Dear Ms McMahon

During a routine review of our records for EPA Registration 62719 84 an error was discovered in the header of a recently issued letter An alternate brand name was not requested for this product as part of the June 2 2011 and April 2 2012 IR 4 submissions The reference to an alternate brand name has been removed from the header

The attached revised September 27, 2012 letter is intended to replace the original letter, and will remain on file here as the final version. This replacement letter along with the stamped label will be uploaded to the Pesticide Product Label System (PPLS) and will be accessible to State regulatory partners and the general public I recommend that you also include the corrected September 27 2012 letter in your files along with this correspondence Please note that no action is required by you at this time

If you have any questions regarding this correction please contact Mike Walsh at 703 308 2972 or via email at walsh michael@epa gov

Sincerely
