BALAN® for the Inhibition of Plant Root Encroachment  
in the Following Areas:

Sewer Pipes	Sidewalks
Concrete/Asphalt Cracks	Landfills
Burial Vaults/Tombstones	Gas Pipe Lines
Waste Burial Sites	Roads
Bike/Golf Cart Paths	Utility Substations
Swimming Pools	Nonfood-crop Irrigation
Septic Fields	Systems
Tennis Courts	Curbs
Dams/Levees <sup>1</sup>	Building Foundations

End use products manufactured employing technology developed and patented (patent pending) by Battelle Memorial Institute should be used to inhibit plant root encroachment.

Products such as sewer pipe gaskets, extruded geotextile fabric or netting, crack filling material, or similar products for uses as indicated above, manufactured in organic polymeric carriers impregnated with BALAN and used according to the manufacturers instructions will inhibit root encroachment for extended periods of time.
