Surflan* 75W - Water Soluble Package (EPA Reg. No. 62719-110)

Special Precautions for Use of Surflan 75W

ATTENTION

- It is a violation of Federal law to use this product in a manner inconsistent with its labeling.
- This labeling must be in the possession of the user at the time of application.
- Read the label affixed to the container for Surflan 75W before applying. Carefully follow all precautionary statements and applicable use directions.
- Use of Surflan 75W according to this supplemental labeling is subject to all use precautions and limitations imposed by the label affixed to the container for Surflan 75W.

Use on Ornamental Plant Species Not Listed in the Surflan Label

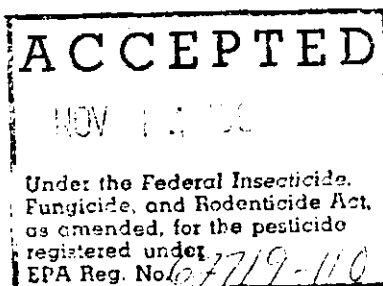

Users who wish to use Surflan 75W on ornamental plant species not listed on this label may determine suitability for such uses by making a trial application at recommended rates to a small number of plants. Prior to additional use of Surflan 75W on the target plant species, the trial treatment should be observed while actively growing for signs of herbicidal injury (reduced growth rate or stunting) for a minimum of 3 months.

Note: The user assumes responsibility for any crop damage or other liability resulting from use of Surflan 75W on plant species not listed on this label.

Use precautions for Ornamental and Fruit Tree Nurseries, Forest Nurseries and Christmas Tree Plantations

The following use precautions, applicable to ornamental nurseries, forest nurseries and Christmas tree plantations, have been added to the Surflan 75W label to avoid potential plant injury:

- Apply Surflan 75W only to established plantings. Established plants are defined as those that have been transplanted into their growing location for a sufficient period of time to allow the soil to be firmly settled around the roots from packing and rainfall or irrigation.
- Do not use Surflan 75W on either nursery seedbeds or on forest and Christmas tree transplant/liner beds.
- Do not apply Surflan 75W to Douglas fir (*Pseudotsuga menziesii*).
