**TREFLAN® 5 (EPA Reg No. 62719-118, formerly 1471-120)**

**(For Distribution and Use Only in Texas, Oklahoma and New Mexico)**

## Treflan 48 Hour Incorporation Delay

TREFLAN may be applied as a preplant incorporated treatment for weed control in registered crops. The incorporation delay for Treflan is extended from 24 to 48 hours when applied in the states of Texas, Oklahoma and New Mexico. If TREFLAN is applied to a warm wet soil surface or the wind velocity is 10 mph or greater, variable weed control may result if the first incorporation is delayed more than 24 hours.

Follow soil incorporation procedures recommended on the TREFLAN label. Where two incorporation passes are required, the first pass must be accomplished within 48 hours after application. The second incorporation pass may occur anytime before planting.

Refer to the TREFLAN 5 label for additional use directions precautions and limitations before use.
