Trellan for Weed Control in Rapeseed (Canola)

ATTENTION

- It is a violation of Federal law to use this product in a manner inconsistent with its labeling.
- This labeling must be in the possession of the user at the time of application.
- Read the label affixed to the container for Trellan before applying. Carefully follow use precautions and applicable use directions.
- Use of Trellan according to this supplemental labeling is subject to all precautions and limitations imposed by the label affixed to the container for Trellan.

Directions For Use

Apply as a soil incorporated treatment in the spring or in late summer or early fall before planting. Follow soil preparation, application and incorporation directions on Trellan product labels.

Broadcast Application Rates per Acre:

Soil Texture	Trellan E.C. or Trellan M.T.F.	Trellan 5	Trellan 80DC	Trellan TR-10
	(pints)	(pints)	(ounces)	(pounds)
Coarse	1.0	0.8	10	5.0
Medium	1.5	1.2	15	7.5
Fine	2.0	1.6	20	10.0

Precautions

- Do not apply to rapeseed (canola) grown in the state of Alaska.
- Where applications are made in late summer or fall, plant as rotation crops in the season following application only those crops to which Trellan may be applied as a preplant incorporated treatment or crop injury may occur.
- Do not graze or harvest treated crop for livestock forage.
