Treflan Plus Atrazine Tank Mix for Weed Control in Corn

ATTENTION

- It is a violation of Federal law to use this product in a manner inconsistent with its labeling.
- This labeling must be in the possession of the user at the time of application.
- Read the label affixed to the container for Treflan before applying. Carefully follow all precautionary statements and applicable use directions.
- Use of Treflan according to this supplemental labeling is subject to all use precautions and limitations imposed by the label affixed to the container for Treflan.

Directions for Use

Treflan Plus Atrazine Tank Mix

Treflan may be applied in tank mix combination with atrazine plus an emulsifiable oil or oil concentrate when corn is from the 2-leaf stage of growth up to 12 inches tall and weeds are no more than 1 1/2 inches in height. A period of 24 to 48 hours is required to obtain atrazine postemergence activity after which the preemergence activity of the Treflan/atrazine combination may be activated by 0.5 inch or more of rainfall or overhead sprinkler irrigation or mechanical incorporation. **Note:** In Texas, the Treflan plus Atrazine tank mix may be applied only to coarse textured soils.

Incorporation Directions: Mechanical incorporation may be accomplished with one pass of a sweep-type cultivator or properly adjusted rolling cultivator. The sweep-type cultivator should have 3 to 5 sweeps per row middle and be operated at a speed that will provide vigorous soil mixing. Set middle sweeps so as to avoid exposing untreated soil. Adjust incorporation equipment so as to avoid mechanical injury to the crop.

Broadcast Application Rates/Acre:

Soil Texture	Treflan E.C. or Treflan M.T.F.	Treflan 5	Treflan 80DC
	(pints)	(pints)	(ounces)
Coarse†	1.0††	0.8	10
Medium	1.0 - 1.5	0.8 - 1.2	10 - 15
Fine	1.5 - 2.0	1.2 - 1.6	15 - 20

†In Texas, the Treflan plus Atrazine tank mix may be applied only to coarse textured soils.

††Apply 1.5 pints/acre of Treflan E.C. or M.T.F., 1.2 pints/acre of Treflan 5 or 15 oz of Treflan 80DC on coarse soils to control fall panicum, pigweed and Texas panicum.

Precautions

- Do not apply to sweet corn or corn grown for seed.
- Do not apply Treflan to corn as a preplant or preemergence treatment or crop injury may occur.
- Where corn is planted in a furrow, apply Treflan only after a cultivation to move soil into the row.
- Refer to the atrazine product label for application rates, additional use directions, precautions and limitations before use.
