P4A/Turf Fert. Contains Team 0.92%/Notif./11-06-95 file: t151N95n.doc

Turf Fertilizer - Contains Team* 0.92%

EPA Reg. No. 62719-151

Final Printed Labeling: Label text based on EPA-accepted copy dated June 15, 1995.

Amendments EPA-Accepted 06/15/95:

- 1) Change signal word from "WARNING" to "CAUTION" and revised Precautionary Statements to reflect reduced injury potential to eyes.
- Harmonized "If Inhaled" statements to read the same among various "Turf Fertilizer Contains Team" products containing 0.92%, 1.15%, and 1.25% active ingredient.
- 3) Corrected errors in spelling and punctuation and replaced reference to "DowElanco Turf Fertilizer containing Team" with "this product".

Other Corrections:

- 1. Substituted "First Aid" for "Statement of Practical Treatment" in Precautionary Statements section.
- 2. General Information (08/31/95): Corrected name for creeping spurge to read Euphorbia serpens.rather than Euphorbia maculata.

Other (By Notification on 11/06/95):

1. Rate range in table revised to be consistent with rate recommendations in label text as follows (added text underlined and deleted text denoted by strike-through):

	Cool Season Turfgrasses	Warm Season Turfgrasses
Summer Annual Grass Weeds	<u>163-217</u> to 326 lb/acre (<u>3.75-5.0</u> to 7.5 lb/1000 sq ft)	326 lb/acre (7.5 lb/1000 sq ft)
Winter Annual Grass Weeds	217 lb/acre	326 lb/acre

Precautionary Statements

Hazards to Humans and Domestic Animals

Keep Out of Reach of Children

CAUTION

Harmful If Swallowed, Inhaled Or Absorbed Through The Skin

Avoid breathing dust and contact with skin, eyes or clothing. The granular formulation may cause skin sensitization reactions in certain individuals. Wear protective clothing such as coveralls or long-sleeved shirt and long pants, shoes and socks, and impermeable gloves when handling this product. Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash before reuse.

First Aid

If in eyes: Flush eyes with plenty of water. Call a physician if irritation persists.

If swallowed: Do not induce vomiting. Call physician or Poison Control Center. Drink promptly a large quantity of milk, egg white, gelatin solution, or if these are not available, large quantities of water. Avoid alcohol.

If on skin: Wash with plenty of soap and water. Get medical attention if irritation develops.

If inhaled: If breathing difficulty occurs, move individual to fresh air and get medical attention. If not breathing, provide cardiopulmonary resuscitation assistance (mouth-to-mouth) and get medical attention immediately.

Environmental Hazards

This pesticide is toxic to fish. Do not apply directly to water, to areas where surface water is present or to intertidal areas below the mean high water mark. Drift or runoff from treatment areas may be hazardous to aquatic organisms in neighboring aquatic sties. Do not contaminate water when disposing of equipment washwaters.

Directions for Use

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. Read all directions carefully before applying this product.

Storage and Disposal

Do not contaminate water, food or feed by storage or disposal.

Storage: Store in original container only. In case of leak or spill, contain material and dispose as waste. Pesticide Disposal: Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

Container Disposal: Completely empty bag into application equipment. Then dispose of empty bag in a sanitary landfill or by incineration, or, if allowed by State and local authorities, by burning. If burned, stay out of smoke.

General Information

This turf fertilizer product contains Team*, a preemergence herbicide for application to established turfgrasses for the control of the winter annual grass: annual bluegrass (Poa annua); and summer annual grasses: smooth and hairy crabgrass, goosegrass (silver crabgrass or crowfootgrass), barnyardgrass (watergrass) and green and yellow foxtail. This product also provides partial control of prostrate spurge (Euphorbia humistrata), spotted spurge (Euphorbia maculata), creeping spurge (Euphorbia serpens), creeping woodsorrel (Oxalis corniculata) and yellow woodsorrel (Oxalis stricta).

Important Use Precautions

Not for use on turf being grown for sale or other commercial use as sod, or for commercial seed production, or for research purposes.

Reseeding: Do not reseed treated areas for minimum of 8 weeks after a single application of 217 pounds per acre or 12 to 16 weeks after a single application of 326 pounds per acre. For split applications, do not reseed treated areas for 8 to 10 weeks after the last 163 pounds per acre rate or 10 to 12 weeks after the last 217 pounds per acre rate.

Do not apply this product to golf course putting greens, dichondra, or newly sprigged areas of bermudagrass, St. Augustinegrass, centipedegrass, or zoysiagrass. Any cultural practices that disturb the soil, such as aerification or verticutting, should be done prior to application.

This Product is Recommended for Use on the Following Established Warm and Cool Season Perennial Turfgrass Species:

Established Cool Season Turfgrasses

Bentgrass fairways Kentucky bluegrass Perennial ryegrass Fescues Established Warm Season Turfgrasses

Bahiagrass
Bermudagrass
Centipedegrass
Tall fescue
St. Augustinegrass

St. Augustinegrass Zoysiagrass

Application

This product should be applied one to two weeks prior to the anticipated germination of the target annual weeds. Apply using a properly calibrated granular fertilizer spreader which will uniformly distribute the product over the target area. Avoid skips and excessive overlaps as poor weed control or turfgrass injury may occur. Optimum weed control performance will be obtained if treated areas are irrigated soon after application. This product will not harm most nearby ornamentals.

In areas with extended growing seasons or where desired, a second application at the recommended rate can be made 8 to 10 weeks following the initial application on cool season turfgrasses and 10 to 12 weeks following the initial application on warm season turfgrasses.

Broadcast Application Rates:

Cool Season Turfgrasses		Warm Season Turfgrasses	
Summer Annual Grass Weeds	163 to 326 lb/acre (3.75 to 7.5 lb/1000 sq ft)	326 lb/acre (7.5 lb/1000 sq ft)	
Winter Annual Grass Weeds	217 lb/acre	326 lb/acre	

Split Applications for Extended Control and Lawn Care Operator Programs:

As an alternative to single application programs, this product may also be applied in spiic applications. This program is desirable when the initial application is made well in advance of weed germination and where weed control is desired for a longer period of time.
