Turf Fertilizer - Contains Team* 1.25%

EPA Reg. No. 62719-152

Alternate Brand Name(s): Super Team 1.25%

Registration Notes:

Current label text based on EPA-accepted copy dated June 15, 1995, and notification dated 01-25-96.

Proposed Changes by Notification:

Several marketing and packaging-related claims used by supplemental distributors are being submitted in accordance with PR Notice 98-10 under "N. Other Revisions ... not described in Section A.-M. These claims are related to, or are consistent with: (1) package size (how much area the package will treat); (2) established label claims (e.g., crabgrass control); (3) turf fertilizer carrier (e.g., "Encourages quick spring greenup"); or (4) seller/customer relationships (e.g., "satisfaction guaranteed"). These changes are consistent with 40 CFR Part 156 and do not alter label language previously accepted by EPA.

The optional statements for use by supplemental distributors are as follows:

Prevents crabgrass & other unsightly weeds

and/or

Encourages quick spring greenup

and/or

Greens your lawn with extended feeding nitrogen

and/or

Covers up to 15,000 sq ft (100' X 150')

and/or

Covers up to 5,000 sq ft (100' X 50')

and/or

Prevents crabgrass before it starts

and/or

Made in the USA

and/or

[Supplemental Distributor's name] Satisfaction Guaranteed, see back for details.

Precautionary Statements

Hazards to Humans and Domestic Animals

Keep Out of Reach of Children

CAUTION

Harmful If Swallowed, Inhaled Or Absorbed Through The Skin

Avoid breathing dust and contact with skin, eyes or clothing. The granular formulation may cause skin sensitization reactions in certain individuals. Wear protective clothing such as coveralls or long-sleeved shirt and long pants, shoes and socks, and impermeable gloves when handling this product. Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash before reuse.

First Aid

If in eyes: Flush eyes with plenty of water. Call a physician if irritation persists.

If swallowed: Do not induce vomiting. Call physician or Poison Control Center. Drink promptly a large quantity of milk, egg white, gelatin solution, or if these are not available, large quantities of water. Avoid alcohol.

If on skin: Wash with plenty of soap and water. Get medical attention if irritation develops.

If inhaled: If breathing difficulty occurs, move individual to fresh air and get medical attention. If not breathing, provide cardiopulmonary resuscitation assistance (mouth-to-mouth) and get medical attention immediately.

Environmental Hazards

This pesticide is toxic to fish. Do not apply directly to water, to areas where surface water is present or to intertidal areas below the mean high water mark. Drift or runoff from treatment areas may be hazardous to aquatic organisms in neighboring aquatic sties. Do not contaminate water when disposing of equipment washwaters.

Directions for Use

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. Read all directions carefully before applying this product.

Storage and Disposal

Do not contaminate water, food or feed by storage or disposal.

Storage: Store in original container only. In case of leak or spill, contain material and dispose as waste.

Pesticide Disposal: Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

Container Disposal: Completely empty bag into application equipment. Then dispose of empty bag in a sanitary landfill or by incineration, or, if allowed by State and local authorities, by burning. If burned, stay out of smoke.

General Information

This turf fertilizer product contains Team*, a preemergence herbicide for application to established turfgrasses for the control of the winter annual grass: annual bluegrass (*Poa annua*); and summer annual grasses: smooth and hairy crabgrass, goosegrass (silver crabgrass or crowfootgrass), barnyardgrass (watergrass) and green and yellow foxtail. This product also provides partial control of prostrate spurge (*Euphorbia humistrata*), spotted spurge (*Euphorbia maculata*), creeping spurge (*Euphorbia serpens*), creeping woodsorrel (*Oxalis corniculata*) and yellow woodsorrel (*Oxalis stricta*).

Important Use Precautions

Not for use on turf being grown for sale or other commercial use as sod, or for commercial seed production, or for research purposes.

Reseeding: Do not reseed treated areas for minimum of 8 weeks after a single application of 160 pounds per acre or 12 to 16 weeks after a single application of 240 pounds per acre. For split applications, do not reseed treated areas for 8 to 10 weeks after the last 120 pounds per acre rate or 10 to 12 weeks after the last 160 pounds per acre rate.

Do not apply this product to golf course putting greens, dichondra, or newly sprigged areas of bermudagrass, St. Augustinegrass, centipedegrass, or zoysiagrass. Any cultural practices that disturb the soil, such as aerification or verticutting, should be done prior to application.

This Product is Recommended for Use on the Following Established Warm and Cool Season Perennial Turfgrass Species:

Established Cool Season Turfgrasses

- Bentgrass fairways
- Kentucky bluegrass
- Perennial ryegrass
- Fescues

Established Warm Season Turfgrasses

- Bahiagrass
- Bermudagrass
- Centipedegrass
- Tall fescue
- St. Augustinegrass
- Zoysiagrass

Application

This product should be applied one to two weeks prior to the anticipated germination of the target annual weeds. Apply using a properly calibrated granular fertilizer spreader which will uniformly distribute the product over the target area. Avoid skips and excessive overlaps as poor weed control or turfgrass injury may occur. Optimum weed control performance will be obtained if treated areas are irrigated soon after application. This product will not harm most nearby ornamentals.

In areas with extended growing seasons or where desired, a second application at the recommended rate can be made 8 to 10 weeks following the initial application on cool season turfgrasses and 10 to 12 weeks following the initial application on warm season turfgrasses.

Broadcast Application Rates:

	Cool Season Turfgrasses	Warm Season Turfgrasses
Summer Annual Grass Weeds (Spring Application)	120 to 240 lb/acre 2.75 to 5.5 lb/1000 sq ft	240 lb/acre 5.5 lb/1000 sq ft
Winter Annual Grass Weeds (Fall application)	120 to 160 lb/acre 2.75 to 3.6 lb/1000 sq ft	240 lb/acre 5.5 lb/1000 sq ft

Split Applications for Extended Control and Lawn Care Operator Programs:

As an alternative to single application programs, this product may also be applied in split applications. This program is desirable when the initial application is made well in advance of weed germination and where weed control is desired for a longer period of time.

Apply this product at 120 pounds plus 120 pounds per acre for Cool Season Turfgrasses and in the northern half of the Warm Season Turfgrass area of the U.S. or 160 pounds plus 160 pounds per acre in the southern half of the Warm Season Turfgrasses area of the U.S. The second application should be made 8 to 10 weeks following the 120 pounds per acre rate and 10 to 12 weeks following the 160 pounds per acre rate.

Spreader Settings

(Editors note: Subregistrant label may include a table of recommended spreader equipment and spreader settings for the fertilizer blend used.)

Warranty Disclaimer

Dow AgroSciences warrants that this product conforms to the chemical description on the label and is reasonably fit for the purposes stated on the label when used in strict accordance with the directions, subject to the inherent risks set forth below. Dow AgroSciences MAKES NO OTHER EXPRESS OR IMPLIED WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE OR ANY OTHER EXPRESS OR IMPLIED WARRANTY.

Inherent Risks of Use

It is impossible to eliminate all risks associated with use of this product. Plant injury, lack of performance, or other unintended consequences may result because of such factors as use of the product contrary to label instructions (including conditions noted on the label, such as unfavorable temperatures, soil conditions, etc.), abnormal conditions (such as excessive rainfall, drought, tornadoes, hurricanes), presence of other materials, the manner of application, or other factors, all of which are beyond the control of Dow AgroSciences or the seller. All such risks shall be assumed by buyer.

Limitation of Remedies

The exclusive remedy for losses or damages resulting from this product (including claims based on contract, negligence, strict liability, or other legal theories), shall be limited to, at Dow AgroSciences' election, one of the following:

- (1) Refund of purchase price paid by buyer or user for product bought, or
- (2) Replacement of amount of product used.

Dow AgroSciences shall not be liable for losses or damages resulting from handling or use of this product unless Dow AgroSciences is promptly notified of such loss or damage in writing. In no case shall Dow AgroSciences be liable for consequential or incidental damages or losses.

The terms of the Warranty Disclaimer above and this Limitation of Remedies cannot be varied by any written or verbal statements or agreements. No employee or sales agent of Dow AgroSciences or the seller is authorized to vary or exceed the terms of the Warranty Disclaimer or this Limitation of Remedies in any manner.
