Subject: Supplemental Label Amendment – Extending expiration date  
Product Name: Pathfinder II  
EPA Registration Number: 62719-176  
Application Date: July 24, 2014  
Decision Number: 493589

Dear Ms. Jones-Jefferson:

The amended supplemental label referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide and Rodenticide Act, as amended, is acceptable.

A stamped copy of your labeling is enclosed for your records. This labeling supersedes all previously accepted labeling. You must submit one copy of the final printed labeling before you release the product for shipment with the new labeling. In accordance with 40 CFR 152.130(c), you may distribute or sell this product under the previously approved labeling for 18 months from the date of this letter. After 18 months, you may only distribute or sell this product if it bears this new revised labeling or subsequently approved labeling. "To distribute or sell" is defined under FIFRA section 2(gg) and its implementing regulation at 40 CFR 152.3.

Your release for shipment of the product constitutes acceptance of these conditions. If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6(e). If you have any questions, please contact Shanta Adeb by phone at 703-347-0502, or via email at [adeeb.shanta@epa.gov](mailto:adeeb.shanta@epa.gov).

Sincerely,

A handwritten signature in black ink, appearing to read "Kable Bo Davis", written over a horizontal line.

## Pathfinder<sup>®</sup> II

EPA Reg. No. 62719-176

(For Use and Distribution in the States of Arizona, California, Hawaii and Nevada Only)

### Weed Control in Commercial and Residential Landscapes

#### ATTENTION

- It is a violation of Federal law to use this product in a manner inconsistent with its labeling.
- This labeling must be in the possession of the user at the time of application.
- Read the label affixed to the container for Pathfinder<sup>®</sup> II specialty herbicide before applying. Carefully follow all precautionary statements and applicable use directions.
- Use of Pathfinder II according to this supplemental labeling is subject to all use precautions and limitations imposed by the label affixed to the container for Pathfinder II.

#### Directions for Use

Refer to product label for Use Precautions and Restrictions and Application instructions.

Pathfinder II may be used as an individual plant treatment for the control of small brush, trees and woody plants in mixed commercial and residential landscapes. This treatment is intended for use on smooth-barked stems less than 4 inches in diameter.

For control of small trees and woody plants growing in and around landscaped or turfgrass areas, apply Pathfinder II as a cut stump or low volume basal bark treatment only. Spray to wet but not to runoff. Always keep spray pressure low and directed at close range toward the target plant.

#### Specific Use Precautions and Restrictions:

- Do not apply more than 10.7 gallons of Pathfinder II (8 lb ae of triclopyr) per acre per year.
- Do not use on or around edible food or food crops.
- Do not apply Pathfinder II to foliage or stems of desirable plants.
- Do not allow spray drift to contact desirable plants.
- Do not spray when wind is blowing toward desirable herbaceous ornamentals, flowers and gardens near enough to be injured.
- Do not apply this product in a way that will contact any person or pet, either directly or through drift. Keep people and pets out of the area during application.
- Avoid contact with eyes, skin, or clothing during and after application.
- Pathfinder II is a ready to use product. Do not mix Pathfinder II in water.
- Pathfinder II is formulated as a low volatile ester. However, the combination of spray contact with impervious surfaces, such as roads and rocks, and increasing ambient air temperatures, may result in an increase in the volatility potential for this herbicide, increasing a risk for injury to sensitive crops such as grapes, tomatoes, or other sensitive broadleaf plants.

**Note:** This pesticide is toxic to fish. Refer to the Environmental Hazards section of the product label attached to the product container for required protective measures.

**This supplemental label expires on August 1, 2016 and must not be used or distributed after this date.**
