TOXIC SUBSTANCES

SUBJECT: Label Amendment Submission of 07/23/93 in Response to PR Notice 93-7
EPA Reg. No. 62719-178
GALLERY TURF FERTILIZER

Dear Registrant:

The labeling cited above and submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, successfully **REMOVES THE PRODUCT FROM THE SCOPE** of PR Notice 93-7 once the comments (if any) on the attached sheet are addressed. Other than the alterations (if any) listed on the attached sheet, no further alterations to the labeling are necessary to reflect the requirements of the Worker Protection Standard.

Since your amendment proposes to delete uses directly and/or to delete uses implicitly through the use of exclusionary statements, the Agency will publish in the Federal Register a notice of receipt of your amendment to delete uses, as required by section 6(f)(1) of FIFRA. The Agency will defer action for 90 days from the date of the Federal Register notice to give affected minor users an opportunity to try to persuade you to retain the uses(s). When the comment period has expired, the Agency will approve the amendment unless you have withdrawn it, and stamp the amended labeling "accepted." Your stamped-accepted labeling will then be sent to you.

As described in Supplement A of PR Notice 93-11 (self-verification option), you may sell and distribute product bearing the submitted labeling before you receive a copy of your stamped-accepted labeling. Note that your registration is not amended until the comment period required by section 6(f)(1) of FIFRA has expired and the Agency has approved the amendment. Therefore, you may withdraw your proposed amendment at any time during the comment period and until you receive your stamped-accepted labeling.

Sincerely,

James Tompkins, Deputy Chief
Registration Support Branch
Registration Division (7505W)

PRECAUTIONARY STATEMENTS

Keep Out of Reach of Children

Hazards to Humans and Domestic Animals

CAUTION

Causes eye irritation. Harmful if swallowed, inhaled or absorbed through the skin. Avoid breathing dust and contact with skin, eyes or clothing. Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash before reuse.

First Aid

If in eyes: Flush eyes with plenty of water. Get medical attention if irritation develops.

If swallowed: Do not induce vomiting. Call a physician or Poison Control Center. If available, administer activated charcoal (6-8 heaping teaspoonfuls) with a large quantity of water. Do not induce vomiting or give anything by mouth to an unconscious person. Immediately transport to a medical care facility and see a physician.

If inhaled: Remove individual to fresh air. Get medical attention if breathing difficulty occurs. If not breathing, give artificial respiration, preferably cardiopulmonary resuscitation and get medical attention immediately.

If on Skin: Wash with plenty of soap and water. Get medical attention if irritation develops.

Environmental Hazards

Do not apply directly to water or wetlands. Drift or inadvertent application to areas adjacent to treated turfgrasses may result in reduced germination or emergence of nontarget plants. Do not contaminate water when disposing of equipment washwaters.

DIRECTIONS FOR USE

Read all directions carefully before applying this product.

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

STORAGE AND DISPOSAL

Storage: Store in original container. Protect stored product from moisture. In case of leak or spill, contain material and dispose as waste.

Pesticide Disposal: Do not contaminate water, food or feed by storage or disposal. Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

Container Disposal: Completely empty bag into application equipment. Then dispose of empty bag in a sanitary landfill or by incineration, or, if allowed by State and local authorities, by burning. If burned, stay out of smoke.

Do not apply this product to sod farms or turfgrasses grown for seed, including plants or plant materials grown for sale or research purposes.

GENERAL INFORMATION

This turf fertilizer product contains GALLERY, a preemergence herbicide for control of certain broadleaf weeds and suppression of annual grasses in established turfgrasses. Apply in late summer to early fall, or in early spring, prior to emergence of target weeds.

GENERAL USE PRECAUTIONS

GALLERY Turf Fertilizer does not control established weeds. Existing weeds should be controlled with postemergence herbicides. To insure optimal fertilizer and herbicidal response, water treated areas as soon as possible after application. A single rainfall or sprinkler irrigation of 0.5 inch or more is required to activate this product.

Do not apply GALLERY Turf Fertilizer to non-turf areas such as flower beds or gardens. Do not allow "drift" from rotary-type applicators to reach such areas. GALLERY prevents seed emergence and may injure bedding plants.

Do not apply GALLERY Turf Fertilizer to dichondra.

Do not apply GALLERY Turf Fertilizer to golf course putting greens.

Users who wish to use GALLERY Turf Fertilizer on turfgrass species not recommended on this label may determine the suitability for such uses by treating a small area at a recommended rate. Prior to treating a larger area, the treatment should be observed for any sign of herbicidal injury for 30 to 60 days to determine if the treatment is safe to the target turf species. THE USER ASSUMES RESPONSIBILITY FOR ANY CROP DAMAGE OR OTHER LIABILITY RESULTING FROM USE OF GALLERY ON TURF SPECIES NOT RECOMMENDED ON THIS LABEL.

GALLERY TURF FERTILIZER IS RECOMMENDED FOR USE ON THE FOLLOWING TURFGRASS SPECIES.

Common Name	Scientific Name
ESTABLISHED COOL SEASON GRASSES.	
Bentgrass, colonial	Agrostis tenuis
Bentgrass, creeping	Agrostis stolonifera
Bluegrass, Kentucky	Poa pratensis
Fescue, chewings	Festuca rubra var. commutata
Fescue, creeping red	Festuca rubra
Fescue, sheep	Festuca ovina
Fescue, tall	Festuca arundinaceae
Ryegrass, perennial	Lolium perenne

ESTABLISHED WARM SEASON GRASSES	
Bahiagrass	Paspalum notatum var. Saurae parodi
Bermudagrass	Cynodon dactylon
Centipedegrass	Eremochloa ophiuroides
Fescue, tall	Festuca arundinaceae
St. Ausustinegrass	Stenotaphrum secundatum
Zoysiagrass	Zoysia japonica
Zoysiagrass	Zoysia tenuifolia

APPLICATION

EQUIPMENT AND APPLICATION TECHNIQUES

Apply GALLERY Turf Fertilizer using a drop or rotary-type spreader designed to apply granular fertilizer. Calibrate application equipment prior to use according to manufacturer's directions. Check frequently to be sure equipment is operating properly and distributing uniformly. Avoid use of spreaders that apply material in narrow concentrated bands. Avoid skips or overlaps as poor weed control or crop injury may occur. More uniform application may be achieved by spreading half of the required amount of product over the area and then applying the remaining half in swaths at right angles to the first. A splash board mounted below the release point of drop-type spreaders can improve the uniformity of product distribution.

BROADCAST APPLICATION RATES

Apply GALLERY Turf Fertilizer at a broadcast rate of 200 to 250 pounds per acre (4.6 to 5.7 pounds per 1000 square feet). A minimum rate of 200 pounds per acre is recommended for optimum results.

WEEDS CONTROLLED

Weeds controlled by GALLERY Turf Fertilizer applied prior to weed germination at 200 to 250 pounds per acre.

Common Name	Scientific Name
Burweed, lawn	Soliva pterosperma
Buttercup	Ranunculus spp.
Celery, wild	Apium leptophyllum
Chickweed, common	Stellaria media
Chickweed, mouseear	Cerastium vulgatum
Foolsparsley	Aethusa cynapium
Geranium, Carolina	Geranium carolinianum
Henbit	Lamium amplexicaule
Knotweed, prostrate	Polygonum aviculare
Mallow, little	Malva parviflora
Parsley - pier	Alchemilla arvensis
Pennywort, lawn	Hydrocotyle sibthorpioides
Pineappleweed	Matricaria matricarioides
Speedwell, thymeleaf	Veronica serpyllifolia
Spurge, prostrate	Euphorbia humistrata
Spurge, spotted	Euphorbia maculata
Spurry, corn	Spergula arvensis
Woodsorrel, creeping	Oxalis corniculata
Woodsorrel, yellow	Oxalis stricta

Weeds partially controlled by a single application; or, controlled by repeat applications of GALLERY Turf Fertilizer applied prior to weed germination at 200 to 250 pounds per acre.

Common Name	Scientific Name
Clover spp. (1)	Trifolium spp.
Clover, white (1)	Trifolium repens
Dandelion (1)	Taraxacum officinale
Medic, black	Medicago lupulina
Plantain, broadleaf	Plantago major
Plantain, buckhorn	Plantago lanceolata
Plantago, slender	Plantago elongata

1. From seed only

Weeds suppressed or partially controlled by GALLERY Turf Fertilizer applied prior to weed germination at 200 to 250 pounds per acre.

Common Name	Scientific Name
Bluegrass, annual	Poa annua
Crabgrass	Digitaria spp.
Ryegrass, annual (Italian)	Lolium multiflorum

DISCLAIMER OF WARRANTIES

DowElanco makes no warranties concerning this product or its use, which extend beyond the description of the label. All other warranties, expressed or implied, including but not limited to, and implied warranties of merchantability and fitness for a particular purpose, are disclaimed. All statements concerning this product apply only when used as directed. This disclaimer of warranties does not apply where prohibited by operation of law.

LIMITATION OF DAMAGES

The liability of DowElanco, whether in contract, warranty, tort, negligence, strict liability or otherwise, shall not exceed the amount of the purchase price of this product and under no circumstances shall DowElanco be liable for special, indirect or consequential damages. This limitation of damages does not apply where prohibited by operation of law.
