United States Environmental Protection Agency Washington, DC 20460

Registration Amendment Other

OPP Identifier Number 286851

Application for Pesticide - Section I

1. Company/Product Number: Dow AgroSciences/62719-188
2. EPA Product Manager: Joanne I. Miller
3. Proposed Classification: None, Restricted
4. Company/Product (Name): Dow AgroSciences/SONALAN* HFP
5. Name and Address of Applicant: Dow AgroSciences LLC, 9330 Zionsville Road, Indianapolis, IN 46268
6. Expedited Review: In accordance with FIFRA Section 3(c)(3)(b)(i), my product is similar or identical in Composition and labeling to: EPA Reg. No., Product Name

Section - II

Amendment - Explain below. Resubmission in response to Agency letter dated. Notification - Explain below. Final printed labels in response to Agency letter dated. "Me Too" Application. Other- Explain below.

NOTIFICATION

MAR 18 2002

Explanation: Use additional page(s) if necessary. (For Section I and Section II.) Changed by Notification: Added use restrictions specific to the states of Montana and Wyoming from main product label to supplemental label

Section - III

1. Material This Product Will Be Packaged In: Child-Resistant Packaging, Unit Packaging, Water Soluble Packaging, 2. Type of Container: Metal, Plastic, Glass, Paper, Other (Specify)
3. Location of Net Contents Information: Label, Container
4. Size(s) Retail Container
5. Location of Label Directions: On Label, On Labeling accompanying product
6. Manner in Which Label is Affixed to Product: Lithograph, Paper glued, Stenciled, Other

Section - IV

1. Contact Point /Complete items directly below for identification of individual to be contacted, if necessary, to process this application: Name: Steve A. McMaster, Title: Regulatory Manager, Telephone No.: 317/337-4670
Certification: I certify that the statements I have made on this form and all attachments thereto are true, accurate and complete.
2. Signature: Steve A. McMaster, 3. Title: Regulatory Manager
4. Typed Name: Steve A. McMaster, Regulatory Manager, 5. Date: March 13, 2002
8. Date Application Received (Stamped)

Sonalan* HFP

EPA Reg. No. 62719-188

Weed Control in Safflower, Including Control of ALS Resistant Kochia

ATTENTION

- It is a violation of Federal law to use this product in a manner inconsistent with its labeling.
- This labeling must be in the possession of the user at the time of application.
- Read the label affixed to the container for Sonalan HFP before applying. Carefully follow all precautionary statements and applicable use directions.
- Use of Sonalan HFP according to this supplemental labeling is subject to all use precautions and limitations stated below or imposed by the label affixed to the container for Sonalan HFP.

Directions for Use

Apply Sonalan* HFP as a preplant incorporated treatment in the fall or in the spring prior to planting safflower. Refer to main product label for General Information, including mixing directions, application methods, soil incorporation, and application timing. In addition to weeds listed on the product label, Sonalan HFP is useful for control of ALS resistant kochia. Use the higher rate in rate range where difficult-to-control weeds or high weed populations are anticipated.

Broadcast Rates per Acre:

Soil Texture	Sonalan HFP (pt/acre)
Coarse	1 1/2 - 2
Medium	2 - 2 1/2
Fine	2 1/2 - 3

Precautions: To avoid crop injury, use the correct rate for the soil texture of the treatment area. Prolonged wet or cold soils, deep seed placement, soil crusting, or application overlaps may combine to cause slowed or reduced emergence.

Restrictions:

- Make only one application per crop season using ground broadcast equipment.
- Do not exceed 3.0 pt/acre per crop year.
- Do not allow grazing or harvest crop from treated soil for hay or silage.
- **In Montana and Wyoming:** Plant only rapeseed (canola), crambe, safflower or sunflower as rotational crops in the crop year following the crop treated with 3 pints per acre of Sonalan HFP. In addition to rapeseed (canola), crambe, safflower or sunflower, spring seeded barley grown under irrigated conditions can be planted in the crop year following the crop treated with a 2 pint per acre rate of Sonalan HFP. If one of these specified crops is not planted, the land should be left idle or fallow for the entire year following the crop treated with Sonalan HFP.
