Precautionary Statements

Hazards to Humans and Domestic Animals

Keep Out of Reach of Children

WARNING AVISO

Si usted no entiende la etiqueta, busque a alguien para que se la explique a usted en detalle. (If you do not understand the label, find someone to explain it to you in detail.)

Corrosive • Causes Irreversible Eye Damage • May Be Fatal If Swallowed • Harmful If Inhaled Or Absorbed Through Skin • Causes Eye Irritation

Do not get in eyes or on clothing. Do not get in eyes, on Avoid contact with skin, or on clothing. Avoid breathing dust and spray mist. Wear protective clothing (long-sleeved shirt and long pants, waterproof gloves, and shoes plus socks). Wear protective eyewear and a respiratory protection device (MSHA/NIOSH approved number TC-21C) when mixing and loading or working in a non-ventilated space. Wash thoroughly with soap and water after handling and before eating, drinking or smoking using tobacco. Remove contaminated clothing and wash before reuse. Keep away from food, feedstuffs, and water supplies.

First Aid

If in eyes: Hold eyelids open and flush with a steady, gentle stream of water for 15 minutes. Get medical attention.

If swallowed: Call a physician or Poison Control Center. Drink 1 or 2 glasses of water and induce vomiting by touching back of throat with finger. ~~Do not induce vomiting or give anything by mouth to an unconscious person. If person is unconscious, do not give anything by mouth and do not induce vomiting.~~

If on skin: Wash with plenty of soap and water. Get medical attention.

If in eyes: Flush with plenty of water for 5 minutes. Get medical attention if irritation persists.

If inhaled: Remove to fresh air if symptoms of cholinesterase inhibition appear and get medical attention immediately. Remove victim to fresh air. If not breathing, give artificial respiration, preferably mouth-to-mouth. Get medical attention.

Note to physician: Chlorpyrifos is a cholinesterase inhibitor. Treat symptomatically. If exposed, plasma and red blood cell cholinesterase tests may indicate significance of exposure (baseline data are useful). Atropine, only by injection, is the preferable antidote. Oximes, such as 2-PAM/protopam, may be therapeutic if used early; however, use only in conjunction with atropine. In case of severe acute poisoning, use antidote immediately after establishing an open airway and respiration.

Environmental Hazards

This pesticide is toxic to birds and wildlife, and extremely toxic to fish and aquatic organisms. Do not apply directly to water, to areas where surface water is present, or to intertidal area below the mean high water mark. Drift and runoff from treated areas may be hazardous to aquatic organisms in adjacent aquatic sites. Cover or incorporate spills. Do not contaminate water when disposing of equipment washwaters. This product is highly toxic to bees exposed to direct treatment or residues on blooming crops or weeds. Do not apply this product or allow it to drift to blooming crops or weeds if bees are visiting the treatment area.

Refer to label booklet for additional precautionary information and Directions for Use.

Notice: Read the entire label. Use only according to label directions. **Before buying or using this product, read "Warranty Disclaimer" and "Limitation of Remedies" inside label booklet.**

In case of emergency endangering health or the environment involving this product, call 1-800-992-5994. If you wish to obtain additional product information, visit our web site at www.dowagro.com.

Agricultural Chemical: Do not ship or store with food, feeds, drugs or clothing.

This product is highly toxic to bees exposed to direct treatment or residues on blooming crops or weeds. Do not apply this product or allow it to drift to blooming crops or weeds if bees are visiting the treatment area.

Directions for Use

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Read all Directions for Use carefully before applying.

Storage and Disposal

Do not contaminate water, food, or feed by storage or disposal.

Storage: Store unused packets in original container and out of reach of children, preferably in a locked storage area. Store in a cool, dry place and in such a manner as to prevent cross-contamination with other pesticides, fertilizers, food, or animal feed. Packets may become brittle when stored below 32°F. Handle carefully to avoid breakage. Exposure to moisture or excessively handling of water soluble packets may cause breakage.

Pesticide Disposal: Dispose of pesticide spray mixture only according with label use directions. Do not store diluted product.

Container Disposal: After all packets are used, dispose of carton in trash.

Handling Precautions for Insecticide Packets

Do not remove insecticide from outer protective package except for immediate use. Do not allow insecticide to come in contact with water prior to use. **Do not handle insecticide packet with wet hands or gloves.** Carefully reseal package containing unopened pouches after use and protect package from moisture.

General Information

For use with the Raid Sprayer or other pump up sprayers.

Note: Packets are water soluble. Store in a dry place.

Pets can pick-up fleas and ticks in outdoor areas around your home. Kill fleas before they get on your pet with Dursban 50WSP.

Dursban 50WSP kills fleas, ticks and many other crawling insects. It is specially formulated to be effective on soil, grass, concrete and other areas where fleas can hide.

Formula will not harm plants.

Kills fleas and ticks. Kills hatching flea eggs. Also kills:

ants
 box elder ants
 carpenter ants
 clover mites
 crickets
 earwigs
 elm leaf beetles (adults)
 firebrats
 flies
 hornets
 millipedes
 mosquitoes
 pillbugs
 silverfish
 sowbugs
 spiders
 springtails
 wasps
 yellowjackets

Preparation

Open the outer protective package and remove a pouch containing the inner insecticide packet. Open the pouch and place the unopened insecticide packet into RAID Sprayer. Add water to the "Fill line" on the RAID Sprayer. (When using other types of sprayers, mix one packet per 1 1/2 quarts of water.) **DO NOT OPEN INSECTICIDE PACKET. THE PACKET WILL DISSOLVE IN WATER.** Do not allow the insecticide packet to become wet before adding to the sprayer. Do not handle the insecticide packet with wet hands or gloves. Close sprayer and **SHAKE WELL** to dissolve packet. Pump sprayer 20-25 times. To spray, press lever on handle. Re-pump sprayer as needed during use. Shake sprayer periodically during use.

[Editor's Note: These directions are based on a packet weight of 8 grams, which will yield a concentrations of 0.25% active ingredient in 1.5 quarts of finished spray. Directions for dilution will vary depending on the packet size and sprayer volume but a final concentration of 0.25% active ingredient will be maintained.]

Application

Spray areas of yard where pets frequent such as shaded areas, under trees, inside and near dog houses or kennels, etc. Apply a uniform spray to these areas. Also spray where flea infested wildlife such as rabbits, raccoons, and opossums may frequent. Treat crawl spaces, sheds and woodpiles and other hiding spots where these animals frequent. Allow treated surfaces to dry before allowing pets to re-enter. For difficult to reach areas, adjust nozzle to stream and treat thoroughly.

Coverage: 1 1/2 quarts of diluted product will treat approximately 375 square feet.

[Editor's Note: This coverage would change accordingly depending on the packet size and sprayer volume.]

Clean-up: Use up entire content of sprayer. Open sprayer and rinse with clear water.

Warranty Disclaimer

Dow AgroSciences warrants that this product conforms to the chemical description on the label and is reasonably fit for the purposes stated on the label when used in strict accordance with the directions, subject to the inherent risks set forth below. Dow AgroSciences **MAKES NO OTHER EXPRESS OR IMPLIED WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE OR ANY OTHER EXPRESS OR IMPLIED WARRANTY.**

Inherent Risks of Use

It is impossible to eliminate all risks associated with use of this product. Plant injury, lack of performance, or other unintended consequences may result because of such factors as use of the product contrary to label instructions (including conditions noted on the label, such as unfavorable temperature, soil conditions, etc.), abnormal conditions (such as excessive rainfall, drought, tornadoes, hurricanes), presence of other materials, the manner of application, or other factors, all of which are beyond the control of Dow AgroSciences or the seller. All such risks shall be assumed by buyer.

Limitation of Remedies

The exclusive remedy for losses or damages resulting from this product (including claims based on contract, negligence, strict liability, or other legal theories), shall be limited to, at Dow AgroSciences' election, one of the following:

1. Refund of purchase price paid by buyer or user for product bought, or
2. Replacement of amount of product used

Dow AgroSciences shall not be liable for losses or damages resulting from handling or use of this product unless Dow AgroSciences is promptly notified of such loss or damage in writing. In no case shall Dow AgroSciences be liable for consequential or incidental damages or losses.

The terms of the "Warranty Disclaimer" above and this "Limitation of Remedies" cannot be varied by any written or verbal statements or agreements. No employee or sales agent of Dow AgroSciences or the seller is authorized to vary or exceed the terms of the "Warranty Disclaimer" or this "Limitation of Remedies" in any manner.
