U.S. ENVIRONMENTAL PROTECTION AGENCY
Office of Pesticide Programs
Registration Division (7505C)
401 "M" St., S.W.
Washington, D.C. 20460

EPA Reg. Number:
62719-
281

Date of issuance:
DEC 09 1996

NOTICE OF PESTICIDE:
 Registration
 Reregistration

Term of Issuance: **Until Reregistration**

Name of Pesticide Product:
Dursban NXS05

(under FIFRA, as amended)

Name and Address of Registrant (include ZIP Code):

**DowElanco
9330 Zionsville Road
Indianapolis, Indiana 46268-1054**

Notes: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered/reregistered under the Federal Insecticide, Fungicide and Rodenticide Act.

Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA sec. 3(c)(7)(A) provided that you:

1. Submit and/or cite all data required for registration/reregistration of your product under FIFRA sec. 3(c)(5) when the Agency requires all registrants of similar products to submit such data; and submit acceptable responses required for reregistration of your product under FIFRA section 4.
2. Make the following label changes:
 - a. Revise the EPA Registration Number to read, "EPA Reg. No. 62719-281."
 - b. In the list of marketing claims on pages 1-2, the first claim, "Controls numerous Pests in and Around the Home," must appear on the front panel of the label immediately beneath the product name.
 - c. In the list of marketing claims, delete "No xylene," "No volatile organic compounds," "No V.O.C.'s," "No aromatic solvents," "Break-through formula," "Technology break-through," "Replaces (supplemental distributor's other

brand name)" [although the claim may be used if the "other brand name" is for another chlorpyrifos product]; and, "Controls fire ants for more than 30 days."

(The claim "Controls fire ants for more than 30 days" implies control of imported fire ants. Effective control of this pest requires treatment of their mounds. Perimeter treatment may prevent an occasional forager from entering a building, but this is not perceived to be a significant problem with imported fire ants.

- d. In the list of marketing claims, revise "Keeps on killing roaches for up to 12 weeks/90 days" and "Kills roaches for up to 12 weeks/90 days" to "Keeps on killing roaches for up to 8 weeks" and "Kills roaches for up to 8 weeks." Revise "Lasts up to 90 days/12 weeks" and "Long Lasting - Up to 90 days/12 weeks" to "Lasts up to 8 weeks" and "Long Lasting - Up to 8 weeks."
 - e. On page 4, revise the precautionary statement to "Harmful if swallowed or absorbed through skin. Causes moderate eye irritation. Avoid contact with eyes, skin, or clothing. Wash thoroughly with soap and water after handling."
 - f. On page 4, in the First Aid section (Statement of Practical Treatment), you may delete directions for "IF INHALED."
3. Submit two copies of the revised final printed label for the record.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.

Sincerely yours,

DHE

Directions for Use

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

General Use Precautions:

- Do not apply sprays of this product in conduits, motor housings, junction and switch boxes or other electrical equipment because of possible shock hazard.
- Do not allow spray to contact food, feedstuffs, and water supplies.
- Thoroughly wash dishes and food handling utensils with soap and water if contacted by spray.
- Keep people or pets off treated surfaces until spray has dried.
- Remove pets and cover fish bowls (tanks) before spraying.

Indoors Pests

Spray Dursban* NXS05 insecticide to areas where ants, carpet beetles, centipedes, clover mites, cockroaches (including strains resistant to other insecticides), crickets, earwigs, firebrats, fleas, flour beetles, millipedes, silverfish, sowbugs, spiders and ticks are found or occur including corners; cracks and crevices in walls; along and behind baseboards; beneath and behind sinks, stoves, refrigerators and cabinets; around doors, windows, plumbing and other utility installations.

For control of fleas and ticks, vacuum infested area then spray infested areas, and other areas where these pests may be present. Do not treat pets or their bedding with this product. For best results, old bedding should be removed and cleaned or replaced. To control the source of flea infestation, pets inhabiting the treated premises should be treated with a product registered for application to pets.

Perimeter Pests

To prevent insect pests from entering structures, spray where pests are found including cracks and crevices, along sidewalks, patios, building foundation, around windows, screens, doors, light fixtures, utility installations or other areas pests may enter building. Pests controlled include ants, bees, beetles, clover mites, cockroaches, crickets, earwigs, fleas, flies, hornets, millipedes, mosquitoes, scorpions, silverfish, sowbugs, spiders, ticks, wasps, yellowjackets.

Ornamental Pests

Spray insect infested flowers, shrubs, evergreens, vines, and other ornamental plants to thoroughly wet foliage, branches, or trunks. Repeat applications can be made at 7 day intervals. Insect pests controlled include ants, aphids, armyworms, bagworms, beetles, boxelder bugs, borers, budworms, caterpillars, cutworms, fall webworms, grasshoppers, hornworms, lace bugs, leafhoppers, leafrollers, mealybugs, mites, moths, psyllids, tentmakers, thrips, spittlebugs, and whiteflies.

Note: Environmental factors can have effects on plant damage when plants have been treated with an insecticide. Dursban NXS05 has been tested on numerous ornamental plants without causing significant damage.

Trigger Sprayer Directions for Use

[Editor's Note: If this product is packaged and/or sold with a trigger sprayer, the Supplemental distributor may include "Trigger Sprayer Directions for Use"]

[Back Panel Precautionary Statements]

Precautionary Statements

Hazards to Humans and Domestic Animals

Keep Out Of Reach Of Children

CAUTION

May Be Harmful If Swallowed Or Absorbed Through The Skin.

Avoid contact with eyes, skin and clothing. Avoid breathing vapors or spray mist.
Keep away from food, feedstuffs and domestic water supplies. Wash thoroughly after handling.

First Aid

If Swallowed: Call a physician or Poison Control Center. Drink 1 or 2 glasses of water and induce vomiting by touching back of throat with finger. Do not induce vomiting or give anything by mouth to an unconscious person.

If on Skin: Wash with plenty of soap and water. Get medical attention if irritation develops.

If in Eyes: Flush eyes with plenty of water for 5 minutes. Get medical attention if irritation persists.

If inhaled: Remove to fresh air if symptoms of cholinesterase inhibition appear and get medical attention immediately.

Note to Physician: Chlorpyrifos is a cholinesterase inhibitor. Treat symptomatically. Atropine only by injection is an antidote.

Environmental Hazards

This pesticide is toxic to fish, birds, and other wildlife. Do not apply directly to water or to areas where surface water is present or to intertidal areas below the mean high water mark. Drift and runoff from

8/8

treated areas may be hazardous to aquatic organisms in adjacent sites. Do not contaminate water by cleaning of equipment or disposal of wastes.

Physical or Chemical Hazards
Do Not Use or Store Near Heat or Open Flame.

Storage and Disposal

Do not contaminate water, food or feed by storage or disposal.
Store in original container. Do not store below 32 °F.
Do not reuse empty container. Wrap container in paper and place in trash collection.
