

Spintech*

EPA Reg. No. 62719-297

Registration Notes:

Source label text based on EPA accepted text dated April 21, 1998 and Notification coded "T6P/Spintech/Notif/02-24-99."

Proposed changes by amendment:

1. Based upon the following acute tox studies and PR Notice 2001-1, revised First Aid section and Precautionary Statements:

Acute Toxicity Category by Route of Exposure:

Route of Exposure	Spintech*
Oral LD ₅₀	Cat IV
Dermal LD ₅₀	Cat IV
Inhalation	Cat IV
Ocular Irritation	Cat IV
Dermal Irritation	Cat IV
Dermal Sensitization	Non-Sensitizer

2. Removed signal word "Caution" because this product meets the criteria of tox category IV by all routes of exposure and is not required to bear a signal word (Federal Register, Vol. 66, No. 241, pp 64759-64768).
3. Revised Environmental Hazards section.
4. Revised Storage and Disposal section.
5. Referral statements to Warranty Disclaimer, Inherent Risks of Use and Limitation of Remedies were revised per EPA correspondence from Joanne I. Miller dated August 31, 2000 and Dow AgroSciences response to Donald R. Stubbs dated November 20, 2000.
6. Added Terms and Conditions of Use section.
7. Minor revisions throughout for clarity.

Spintech*

To be applied only by or under the supervision of commercial applicators responsible for pest control programs.

For control of drywood (*Kalotermitidae*) termites in structural timbers and wooden objects

Active Ingredient:

spinosad (a mixture of spinosyn A and spinosyn D)	0.5%
Inert Ingredients	99.5%
Total	100.0%

Contains 0.04 pounds of active ingredient per gallon.

U.S. Patent No. 5,362,634 and 5,496,931

Keep Out of Reach of Children

Precautionary Statements

Environmental Hazards

This product is toxic to aquatic invertebrates. Do not apply directly to water, to areas where surface water is present or to intertidal areas below the mean high water mark. Do not contaminate water when cleaning equipment or disposing of equipment washwaters.

Refer to label booklet for Directions for Use including Storage and Disposal.

Notice: Read the entire label. Use only according to label directions. **Before using this product, read Warranty Disclaimer, Inherent Risks of Use, and Limitation of Remedies at end of label booklet. If terms are unacceptable, return at once unopened.**

In case of emergency endangering health or the environment involving this product, call 1-800-992-5994. If you wish to obtain additional product information, visit our web site at www.dowagro.com.

Precautionary Statements

Environmental Hazards

This product is toxic to aquatic invertebrates. Do not apply directly to water, to areas where surface water is present or to intertidal areas below the mean high water mark. Do not contaminate water when cleaning equipment or disposing of equipment washwaters.

Directions for Use

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. Read all Directions for Use carefully before applying.

Storage and Disposal

Do not contaminate water, food, or feed by storage and disposal.

Pesticide Storage: Store in original container only. In case of leak or spill, use product immediately or dispose of product and damaged container as indicated below.

Pesticide Disposal: Wastes resulting from the use of this product may be disposed of on site according to label use directions or at an approved waste disposal facility.

Container Disposal: Do not rinse. Dispose of in a sanitary landfill, or incineration or, if allowed by state and local authorities, by burning. If burned, stay out of smoke.

General Information

Spintech* insect solution is to be used for localized remedial treatment of drywood (*Kalotermitidae*) termites.

Spintech is a ready to use suspension formulation (shake well before use). Spintech will not penetrate intact wood and, for effective control, must be applied directly into the termite gallery. Spintech is most efficacious when applied to areas where termite activity is greatest.

Application

Effective use of this product requires galleries to be located. Visual signs of infestation such as frass or pellets, blistered wood, emergence or "pellet kick-out" holes, and live insects can be used to locate nests and galleries within wood. Galleries may be located by tapping on the wood surface and listening for changes in sound to indicate changes in wood density.

Application Equipment: Shake the pouch containing Spintech well before applying. Apply Spintech using the Precise* injector. Do not use the Precise injector where electrical shock could occur.

Wood Injection: Drill small diameter holes of appropriate size for the injection tip to intersect termite galleries within infested wood. Drywood termite emergence or pellet kick-out holes connect directly to galleries and are indicators of potential sites to drill and inject Spintech. Care should be taken to avoid electrical wiring, plumbing, etc., when drilling. Do not drill completely through wood. Spacing of the holes will depend on the distribution of insect activity and galleries. Injection holes may be clustered in areas with insect activity as indicated by damage, live insects, or other indicators previously described. Injection holes on opposite sides of large (4" x 10" or larger) structural beams may be necessary to effectively penetrate galleries.

Follow recommendations for the Precise injector to avoid splashback when injecting Spintech. Apply up to 50 ml of Spintech using the Precise injector at each injection hole. Spintech must be injected directly into

the termite galleries. It is not necessary to inject Spintech until runoff is detected from other holes. For best results, holes should be plugged after treatment. Use inert materials such as a wooden dowel or a touch-up stick for wood surfaces to minimize the possible disturbance of termites from entry of fresh air into galleries.

Re-treatment guidelines: Reapply if insect activity within treated areas is detected 4 or more weeks following treatment. For best results in treating galleries, inject Spintech into new injection holes drilled between previous injection sites.

Terms and Conditions of Use

If terms of the following Warranty Disclaimer, Inherent Risks of Use, and Limitation of Remedies are not acceptable, return unopened package at once to the seller for a full refund of purchase price paid. Otherwise, use by the buyer or any other user constitutes acceptance of the terms under Warranty Disclaimer, Inherent Risks of Use and Limitations of Remedies.

Warranty Disclaimer

Dow AgroSciences warrants that this product conforms to the chemical description on the label and is reasonably fit for the purposes stated on the label when used in strict accordance with the directions, subject to the inherent risks set forth below. Dow AgroSciences MAKES NO OTHER EXPRESS OR IMPLIED WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE OR ANY OTHER EXPRESS OR IMPLIED WARRANTY.

Inherent Risks of Use

It is impossible to eliminate all risks associated with use of this product. Lack of performance or other unintended consequences may result because of such factors as use of the product contrary to label instructions (including conditions noted on the label, such as unfavorable temperatures, soil conditions, etc.), abnormal conditions (such as excessive rainfall, drought, tornadoes, hurricanes), presence of other materials, the manner of application, or other factors, all of which are beyond the control of Dow AgroSciences or the seller. All such risks shall be assumed by buyer.

Limitation of Remedies

The exclusive remedy for losses or damages resulting from this product (including claims based on contract, negligence, strict liability, or other legal theories), shall be limited to, at Dow AgroSciences' election, one of the following:

1. Refund of purchase price paid by buyer or user for product bought, or
2. Replacement of amount of product used.

Dow AgroSciences shall not be liable for losses or damages resulting from handling or use of this product unless Dow AgroSciences is promptly notified of such loss or damage in writing. In no case shall Dow AgroSciences be liable for incidental or consequential damages.

The terms of the Warranty Disclaimer, Inherent Risks of Use and this Limitation of Remedies cannot be varied by any written or verbal statements or agreements. No employee or sales agent of Dow AgroSciences or the seller is authorized to vary or exceed the terms of the terms of the Warranty Disclaimer or this Limitation of Remedies in any manner.
