401 "M" St., S.W.
Washington, D.C. 20460

EPA Reg. Number:
62719-304

Date of Issuance:
October 28,
1998

NOTICE OF PESTICIDE:

Registration
 Reregistration

(under FIFRA, as amended)

Term of Issuance: Unconditional

Name of Pesticide Product:

Conserve Fire Ant Bait

Name and Address of Registrant (include ZIP Code):

Robert F. Bischoff
Dow AgroSciences
9330 Zionsville Road
Indianapolis, IN 46268

Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered/reregistered under the Federal Insecticide, Fungicide and Rodenticide Act.

Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is unconditionally registered in accordance with FIFRA sec. 3(c)(5). Once a pesticide is registered, however, it is not regarded as permanently acceptable. Registration does not eliminate the need for continual reassessment of pesticides. If the Agency determines that, at any time, additional data are required to maintain in effect the existing registration, the Agency will require submission of such data under FIFRA section (3)(c)(2)(B).

Make the labeling changes listed below before you release the product for shipment:

- a. Revise the EPA Registration Number to read, "EPA Reg. No. 62719-304".

Signature of Approving Official:

b. Add the following to the Precautionary Statements:

Harmful if swallowed. Wash hands before eating, drinking, chewing gum, using tobacco or using the toilet. Wash thoroughly with soap and water after handling.

c. Add a Statement of Practical Treatment (or First Aid) section as follows:

IF SWALLOWED: Call a physician or Poison Control Center. Drink 1 or 2 glasses of water and induce vomiting by touching back of throat with finger. If person is unconscious, do not give anything by mouth and do not induce vomiting.

Or

IF SWALLOWED: Call a physician or Poison Control Center. Drink 1 or 2 glasses of water and induce vomiting by touching back of throat with finger, or if available by administering syrup of ipecac. If person is unconscious, do not give anything by mouth and do not induce vomiting.

Submit two copies of the revised final printed label for the record. A stamped copy of the label and copies of the reviews are enclosed for your records.

Sincerely yours,

Beth Edwards

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

AMOUNT TO USE
<ul style="list-style-type: none"> • Mounds: 4 Tbs for each mound[†] • Broadcast Application: 1/2 - 3/4 cup for each 1,000 sq ft

Tbs = Tablespoon

[†] For mounds greater than 15 inches in diameter use 6 Tbs per mound.

Do not use kitchen utensils for measuring. Keep measuring utensils with pest control products and away from children.

FOR BEST RESULTS	
HOW TO APPLY [optional illustration]	<ul style="list-style-type: none"> • Mounds: Sprinkle bait evenly over and around each mound in a 4-ft diameter circle. Apply gently to avoid disturbing ants. • Broadcast Application: Use a hand held or ground driven rotary broadcast spreader. [Editor's note: subregistrant can specify spreaders and settings.]
MOW [optional illustration /mower]	<ul style="list-style-type: none"> • Avoid mowing 1 day before and after application.
WATER/RAINFALL [optional illustration /hose]	<ul style="list-style-type: none"> • Do not water-in bait. • Do not water within 6 hours of a mound or 24 hours of a broadcast application. • If rain occurs within 6 hours of mound application or 24 hours of broadcast application, adequate foraging of the bait may not occur and retreatment may be necessary.
WHEN TO APPLY [optional illustration]	<ul style="list-style-type: none"> • Apply when ants are active (usually when temperatures are greater than 60° F). • The best time to apply is in the cooler morning and late evening when fire ant foraging is at its peak. • Mounds will usually be eliminated/destroyed in 3 to 14 days. Extremely large mounds may require a repeat application. • Make a broadcast application every other month during the warm months to keep fire ants from establishing/starting/forming new mounds.

HOW IT WORKS

Conserve* fire ant bait is attractive and deadly to fire ants. Fire ants quickly find/pick up this bait, take it back to the mound, and feed it to the entire colony including the queen(s). Ants start dying in 24-36 hours with mound/colony destruction in 3 to 14 days. Broadcast applications may take longer.

Fire ant colonies are started by newly mated queen(s) that fly into an area, burrow into the ground and begin laying eggs. Several flights are common during the summer, often shortly after rain. It takes several weeks for new mounds to appear. Combining mound and broadcast applications eliminates/destroys visible mounds and helps prevent new mounds from forming.

STORAGE AND DISPOSAL

STORAGE: Store in a cool dry place out of the reach of children and domestic animals. store in original container only.

DISPOSAL: Do not reuse container. Wrap container in newspaper and put in trash.

Warranty Disclaimer

Seller warrants that this product conforms to the chemical description on the label and is reasonably fit for the purposes stated on the label when used in strict accordance with the directions, subject to the inherent risks set forth below. SELLER MAKES NO OTHER EXPRESS OR IMPLIED WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE OR ANY OTHER EXPRESS OR IMPLIED WARRANTY.

Inherent Risks of Use

It is impossible to eliminate all risks associated with use of this product. Plant injury, lack of performance, or other unintended consequences may result because of such factors as use of the product contrary to label instructions (including conditions noted on the label, such as unfavorable temperature, soil conditions, etc.), abnormal conditions (such as excessive rainfall, drought, tornadoes, hurricanes), presence of other materials, the manner of application, or other factors, all of which are beyond the control of Seller. All such risks shall be assumed by Buyer.

Limitation of Remedies

The exclusive remedy for losses or damages resulting from this product (including claims based on contract, negligence, strict liability, or other legal theories), shall be limited to, at Seller's election, one of the following:

1. Refund of purchase price paid by buyer or user for product bought, or
2. Replacement of amount of product used.

Seller shall not be liable for losses or damages resulting from handling or use of this product unless Seller is promptly notified of such loss or damage in writing. In no case shall Seller be liable for consequential or incidental damages or losses.

The terms of the "Warranty Disclaimer" above and this "Limitation of Remedies" cannot be varied by any written or verbal statements or agreements. No employee or sales agent of the Seller or the seller is authorized to vary or exceed the terms of the "Warranty Disclaimer" or this "Limitation of Remedies" in any manner.
