Vista[®]

EPA Reg. No. 62719-308

Registration Notes:

· **Source section 3 supplemental labeling text** based on EPA-accepted copy of the main label dated June 10, 2005.

The use directions for prickly pear cactus on rangeland and permanent pastures on this supplemental label are taken directly from the EPA-accepted copy of the main label dated June 10, 2005.

Supplemental Labeling

Dow AgroSciences LLC 9330 Zionsville Road Indianapolis, IN 46268-1054 USA

Vista®

EPA Reg. No. 62719-308

For Control of Broadleaf Weeds including Prickly Pear Cactus in Rangeland and Permanent Grass Pastures

(For Distribution and Use in the States of Florida, New Mexico, Texas)

ATTENTION

- It is a violation of Federal law to use this product in a manner inconsistent with its labeling.
- This labeling must be in the possession of the user at the time of application.
- Read the label affixed to the container for Vista before applying. Carefully follow all precautionary statements and applicable use directions.
- Use of Vista according to this supplemental labeling is subject to all use precautions and limitations imposed by the label affixed to the product container.

Directions for Use

General: Broadcast apply Vista® herbicide as a single treatment or as sequential postemergence treatment using ground or aerial application equipment. Vista may be applied in tank mix combination with other foliar-applied herbicides labeled for use on rangeland and permanent pastures to control additional weeds and woody plants. Read and follow applicable use directions, precautions and limitations on each product label. Refer to the General Information section of this label for application instructions, including application timing, effect of temperature on herbicidal activity, application rate ranges, spray coverage, instructions for spot application and tank mixing.

Application Timing and Weeds Controlled or Suppressed: Apply as a broadcast treatment when weeds are actively growing, but prior to bud stage of weed growth. Use a total spray volume of 5 or more gallons per acre for ground broadcast or 3 or more gallons per acre by air. Only weeds emerged at the time of application will be controlled.

Tank Mixtures: For control of additional weeds and woody plants, Vista may be tank-mixed with either Remedy® herbicide or Tordon 22K herbicide at the indicated application rates.

| Products in Tank Mix | Application Rates | Additional Weeds/Brush Controlled | |
|----------------------|----------------------------------|-----------------------------------------------------------------------------|---------------------------------------------------------------|
| Vista + Remedy | 1/2 pt/acre + 9 fl oz/acre | buttercup, hairy croton dogbane, hemp kochia lespedeza, sericea | marshelder ragweeds sunflower thistle, musk vetch |
| Vista + Remedy | 2/3 pt/acre + 3/4 pt/acre | dandelion dock, curly dogfennel goldenrod | Horseweed/marestail ironweed lantana plantain |
| Vista + Remedy | 1 pt/acre + 1 pt/acre | blackberry rose, multiflora | tropical soda apple wax myrtle persimmon |

| | | | |
|---------------------|---------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------|
| Vista Tordon 22K | 2/3 pt/acre + 1/2 pt/acre | bindweed, field broomweed, annual buttercup, hairy cocklebur croton dogfennel goldenrod dogbane, hemp horsenettle horseweed | kochia lespedeza, sericea marshelder mullein ragweeds sneezeweed, bitter sunflower thistle, musk vetch |
| Vista Tordon 22K | 1 1/3 pt/acre + 1 pt/acre | blackberry locust plum, wild prickly pear cactus | rose, Cherokee rose, Macartney rose, multiflora sumac |

Spot Treatments

Spot treatments may be applied with a calibrated boom or with hand sprayers according to directions provided below.

Hand-Held Sprayers: Hand-held or backpack sprayers may be used for spot applications of Vista if care is taken to apply the spray uniformly and at a rate equivalent to a broadcast application. Application rates in the table are based on an area of 1,000 sq ft. The amount of Vista (fl oz or ml) in the table should be mixed with 1 gallon or more of water and applied to an area of 1,000 sq ft. To calculate the amount of product required for larger areas, multiply the table value (fl oz or ml) by the area to be treated in "thousands" of square feet, e.g., if the area to be treated is 3,500 sq ft, multiply the table value by 3.5 (Calculation: 3,500 ÷ 1,000 = 3.5). An area of 1000 sq ft is approximately 10.5 X 10.5 yards in size.

| Amount of Vista to Equal Specified Broadcast Rate (Mix with 1 Gallon or More of Water and Apply to 1,000 sq ft) | | | | |
|--------------------------------------------------------------------------------------------------------------------|-----------------------|------------------------|-----------------------|----------------------|
| 2/3 pt/acre | 1 pt/acre | 1 1/3 pt/acre | 2 pt/acre | 2 2/3 pt/acre |
| 0.25 fl oz (7.25 ml) | 0.37 fl oz (11 ml) | 0.5 fl oz (14.5 ml) | 0.74 fl oz (22 ml) | 1.0 fl oz (30 ml) |

† 1 fl oz = 29.6 (30) ml

Restrictions:

- **Grazing and harvest restrictions:** There are no grazing restrictions for livestock, including lactating or non-lactating dairy animals. Meat animals must be withdrawn from treated forage at least 2 days before slaughter. Do not harvest grass for hay or silage from treated areas within 7 days of application.
- **Plant-back restriction:** Only forage grasses, wheat, barley, oats, field corn, sweet corn and grain sorghum may be planted in treated fields within 120 days following application of Vista.
- **Vista may injure or kill legumes.** Do not apply if the injury to legumes cannot be tolerated. Legumes may be less sensitive to herbicide injury after plant growth is mature and seed has set.
- **Maximum Application Rate:** Do not apply more than 2 2/3 pints of Vista per acre per year.

VISTA (A.I. FLUROXYPYR)
EPA REGISTRATION NUMBER: 62719-308
NOTIFICATION OF MINOR LABEL CHANGE PER PR NOTICE 98-10

Enclosed please find labeling for the notification action of Vista® specialty herbicide. The following changes have been made by notification:

1. The use directions for prickly pear cactus on rangeland and permanent pastures on this supplemental label are taken directly from the EPA-accepted copy of the main label dated June 10, 2005.

This notification is consistent with the provisions of PR Notice 98-10 and EPA regulations at 40 CFR 152.46, and no other changes have been made to the labeling or the confidential statement of formula of this product. I understand that it is a violation of 18 U.S.C. Sec. 1001 to willfully make any false statement to EPA. I further understand that if this notification is not consistent with the terms of PR Notice 98-10 and 40 CFR 152.46, this product may be in violation of FIFRA and I may be subject to enforcement action and penalties under sections 12 and 14 of FIFRA.

Contents of Submission

- Transmittal document (this letter)
- Application for Pesticide, EPA Form 8570-1
- Label entitled Vista (B2A / Vista / Sec 3 Suppl Prickly Pear Notif 08-03-06)
(2 Pages plus Registration Notes) (5 Copies)

If you require further information, please contact Amy Hudson, Regulatory Specialist at (317) 337-3967 or Kim Williamson, Registration Assistant for this product, at (317) 337-4657.

Sincerely,

A handwritten signature in black ink that reads "Amy Hudson /fa".
