Application for Pesticide - Section I

1. Company/Product Number Dow AgroSciences/62719-322	2. EPA Product Manager James A. Tompkins	3. Proposed Classification <input type="checkbox"/> None <input type="checkbox"/> Restricted
4. Company/Product (Name) Dow AgroSciences/Accord* SP	PM# PM/25	
5. Name and Address of Applicant (Include ZIP Code) Dow AgroSciences LLC 9330 Zionsville Road Indianapolis, IN 46268 <input type="checkbox"/> Check if this is a new address	6. Expedited Review. In accordance with FIFRA Section 3(c)(3)(b)(i), my product is similar or identical in Composition and labeling to: EPA Reg. No. Product Name	

Section - II

<input type="checkbox"/> Amendment - Explain below.	<input type="checkbox"/> Final printed labels in response to Agency letter dated	NOTIFICATION JUN 27 2002 <i>OK by J Tompkins 7/6/02</i>
<input type="checkbox"/> Resubmission in response to Agency letter dated _____	<input type="checkbox"/> "Me Too" Application.	
<input checked="" type="checkbox"/> Notification - Explain below.	<input type="checkbox"/> Other- Explain below.	

Explanation: Use additional page(s) if necessary. (For Section I and Section II)
 Proposed Change by Notification:
 1. At the request of California DPR PM, Amy Yokayama, use site descriptions in this supplemental label were modified to match those on California accepted labeling for Roundup Pro (EPA Reg. No. 524-475)

Section - III

1. Material This Product Will Be Packaged In:				2. Type of Container	
Child-Resistant Packaging <input type="checkbox"/> Yes* <input type="checkbox"/> No *Certification must be submitted	Unit Packaging <input type="checkbox"/> Yes <input type="checkbox"/> No If "Yes" Unit Packaging wgt. No. per container	Water Soluble Packaging <input type="checkbox"/> Yes <input type="checkbox"/> No If "Yes" Package wgt No. per container	<input type="checkbox"/> Metal <input type="checkbox"/> Plastic <input type="checkbox"/> Glass <input type="checkbox"/> Paper <input type="checkbox"/> Other (Specify) _____		
3. Location of Net Contents Information <input type="checkbox"/> Label <input type="checkbox"/> Container		4. Size(s) Retail Container		5. Location of Label Directions <input type="checkbox"/> On Label <input type="checkbox"/> On Labeling accompanying product	
6. Manner in Which Label is Affixed to Product <input type="checkbox"/> Lithograph <input type="checkbox"/> Paper glued <input type="checkbox"/> Stenciled			<input type="checkbox"/> Other _____		

Section - IV

1. Contact Point /Complete items directly below for identification of individual to be contacted, if necessary, to process this application)					
Name Steve A. McMaster		Title Regulatory Manager		Telephone No. (Include Area Code) (317) 337-4670	
Certification I certify that the statements I have made on this form and all attachments thereto are true, accurate and complete. I acknowledge that any knowing false or misleading statement may be punishable by fine or imprisonment or both under applicable law.					8. Date Application Received <input checked="" type="checkbox"/> (Stamped)
2. Signature		3. Title Regulatory Manager		9. Date Application Received <input type="checkbox"/> (Stamped)	
4. Typed Name Steve A. McMaster		5. Date June 19, 2002

Supplemental Labeling

Dow AgroSciences LLC 9330 Zionsville Road Indianapolis, IN 46268-1054 USA

Accord® SP EPA Reg. No. 62719-322

For Aerial Application in California Only

ATTENTION

- It is a violation of Federal law to use this product in a manner inconsistent with its labeling.
- This labeling must be in the possession of the user at the time of application.
- Read the label affixed to the container for Accord® SP herbicide before applying. Carefully follow all precautionary statements and applicable use directions.
- Use of Accord SP according to this supplemental labeling is subject to all use precautions and limitations imposed by the label affixed to the container for Accord SP.

Directions for Use

Extreme care must be exercised to avoid contact of the spray with foliage, green stems, or fruit of desirable crops, plants, trees or other desirable vegetation, since severe damage or destruction may result.

When applied as directed and under the conditions described, this product controls annual and perennial weeds and woody brush and trees listed in the label booklet. See the Weeds Controlled section of the label booklet for rate recommendations.

Aerial applications of this product are allowed in the following situations:

- ~~Forestry site preparation~~ Prior to emergence or transplanting of labeled crops.
- Aid to burning for establishment and maintenance of fuel breaks
- Establishment of fire perimeters and back lines.
- Aid to prescribed burning
- Along fire roads
- Range conversion
- Habitat restoration and management
- Wildlife food plots

NOTIFICATION

JUN 27 2002

Aerial Applications

Apply 1 to 5 quarts of this product in 5 to 15 gallons of water per acre using aerial (helicopter only) equipment.

To broaden the spectrum of control, Garlon* 4 may be tank mixed with this product at the rate of 0.5 to 2 quarts per acre. For best results, the rate of Garlon 4 should not exceed 1/2 the rate of this product (e.g., 1 quart of Garlon 4 to 2 quarts of this product).

Do not apply directly to water, to areas where surface water is present or to intertidal areas below the mean high water mark. Do not contaminate water when disposing of equipment washwaters.

4/4

AVOID DRIFT: Do not apply when winds are gusty or under any other condition that will allow drift. Drift may cause damage to any vegetation contacted to which treatment is not intended. To prevent injury to adjacent desirable vegetation, appropriate buffer zones must be maintained.

Use the following guidelines when aerial applications are made near crops or desirable perennial vegetation after bud break and before total leaf drop, and/or near other desirable vegetation or annual crops:

1. Do not apply within 100 feet of all desirable vegetation or crop(s).
2. If wind up to 5 miles per hour is blowing toward desirable vegetation or crop(s), do not apply within 500 feet of the desirable vegetation or crop(s).
3. Winds blowing from 5 to 10 miles per hour toward desirable vegetation or crop(s) may require buffer zones in excess of 500 feet.
4. Do not apply when winds are in excess of 10 miles per hour or when inversion conditions exist.
5. **Apply by air only to non-residential areas.**

Coarse sprays are less likely to drift; therefore, do not use nozzles or nozzle configurations that dispense spray as fine spray droplets. Do not angle nozzles forward into the air-stream and do not increase spray volume by increasing nozzle pressure. Drift control additives may be used. When a drift control additive is used, read and carefully observe the cautionary statements and all other information appearing on the label of the additive.

Ensure uniform application: To avoid streaking, uneven, or overlapped application, use appropriate marking devices.

Prolonged exposure of this product to uncoated steel surfaces may result in corrosion and possible failure of the part. Landing gear is most susceptible. The maintenance of an organic coating (paint) which meets aerospace specification MIL-C-38413 may prevent corrosion. To prevent corrosion of exposed parts, thoroughly wash aircraft, especially landing gear, after each day of spraying to remove residues of this product accumulated during spraying or from spills.
