Conserve* Professional Fire Ant Bait

EPA Reg. No. 62719-329

For Control or Suppression of Red Imported Fire Ant by Broadcast Application

ATTENTION

- It is a violation of Federal law to use this product in a manner inconsistent with its labeling.
- This labeling must be in the possession of the user at the time of application.
- Read the label affixed to the container for Conserve* Professional Fire Ant Bait before applying. Carefully follow all precautionary statements and applicable use directions.
- Use of Conserve Professional Fire Ant Bait according to this supplemental labeling is subject to all use precautions and limitations imposed by the label affixed to the container for Conserve Professional Fire Ant Bait.

Directions for Use

Refer to product label for General Use Precautions and Application Instructions.

Labeled Use Sites: This product may be applied in:

- Lawns and other turf areas, including sod farms
- Recreation areas, including golf courses, parks, playgrounds and playing fields
- Noncrop areas such as roadsides, rights of way, industrial areas, farmsteads, corrals and around animal housing facilities
- Ornamentals in landscapes and nurseries
- Rangeland and permanent pastures
- Greenhouses

Broadcast Application

Apply according to the rate table below. Distribute as evenly as possible over the infested area with a calibrated rotary-type hand-held, PTO, electric or ground driven spreader. Broadcast applications will control established mounds and new colonies that are just becoming established. Applications every two months during the warm part of the year when the ants are active will help keep invading queens from establishing new colonies. If rain occurs within 12 hours of application, adequate foraging may not have occurred and retreatment may be necessary.

Broadcast Application Rate (all labeled use sites including: noncrop areas such as roadsides, rights of way, industrial areas, farmsteads, corrals and around animal housing facilities, except rangeland and permanent pastures):

Cups per 1000 Sq. Ft.	Cups per 10,000 Sq. Ft.	Pounds per Acre
1/3-2/3 cups	3-6 cups	2.5-5 lb/acre

Use higher rates for heavier infestations, faster activity and greater overall control.
