SUBJECT: Applications for Pesticide Notification – Use Directions for Forests and Trees
Confirm@ 2F
EPA Reg. No. 62719-420
Applications Dated March 2, 2007

Dear Dr. Culy:

The Agency is in receipt of your Applications for Pesticide Notification under Pesticide Registration Notice (PRN) 98-10 for the products above. The Registration Division (RD) has conducted a review of these requests for their applicability under PRN 98-10 and finds that the actions requested fall within the scope of PRN 98-10. The labels submitted with the applications have been stamped "Notification" and will be placed in our records.

If you have any questions, please me directly at 703-305-6249 or Terri Stowe of my staff at 703-305-6117.

Sincerely,

A handwritten signature in black ink, appearing to read "Linda Arrington".

Because Confirm 2F must be ingested in order to be effective, it is essential that coverage is thorough and uniform. Higher carrier volumes and higher use rates are recommended for very large trees or dense stands and for heavy target pest infestations. A minimum of six hours drying time is required between the completion of application and the onset of precipitation to ensure optimum performance.

Ground Application: Hydraulic ground sprayers should be calibrated to deliver a minimum of 50 gallons per acre. For mist blowers or air blast sprayers, use a minimum of 10 gallons per acre.

Aerial Application: Make applications in a minimum of 1 gallon per acre. Higher carrier volumes are recommended when environmental conditions are less than ideal for aerial applications.

Spray Adjuvants: The addition of agricultural adjuvants to Confirm 2F sprays will improve initial spray deposits, redistribution and weatherability. Place Confirm 2F into suspension prior to adding an adjuvant to the spray mixture. Read and carefully observe the precautionary statements and all other information appearing on all product labels prior to spray preparation.

Note: This product is toxic to aquatic invertebrates. Refer to the Environmental Hazards section of the product label attached to the product container for required protective measures.
