## GoalTender™

EPA Reg. No. 62719-447

### For Control of Weeds in Non-Cropland

(For Distribution and Use Only Within the State of California)

#### ATTENTION

- It is a violation of Federal law to use this product in a manner inconsistent with its labeling.
- This labeling must be in the possession of the user at the time of application.
- Read the label affixed to the container for GoalTender™ herbicide before applying. Carefully follow all precautionary statements and applicable use directions.
- Use of GoalTender according to this supplemental labeling is subject to all use precautions and limitations imposed by the label affixed to the container for GoalTender.

#### Directions for Use

##### NON-CROP USE

Non-food producing, non-cultivated agricultural or non-agricultural areas, such as highway and utility rights-of-way, industrial sites, tank farms, storage areas, airports, fencerows, and farmsteads

##### General Information

GoalTender is recommended for postemergence and preemergence control of listed broadleaf weeds in non-crop areas.

**Weeds Controlled Postemergence (weeds up to 4 inches high):** Apply 1 to 4 pints (0.5 to 2 lb active) of GoalTender per broadcast acre. The lower rate in the rate range is recommended for control of susceptible weeds in the early postemergence stage, less than 4 inches in height. The higher rate (2 lb active) should be used for weeds up to 12 inches in height. Applications to weeds beyond the 4-inch stage may result in partial control.

cheeseweed (malva)  
fiddleneck, coast  
filaree, broadleaf  
filaree, redstem  
groundsel, common  
henbit  
minerslettuce  
nettle, burning  
pigweed, redroot  
purslane, common  
redmaids  
shepherdspurse  
sowthistle, annual

**Weeds Controlled Preemergence:** Apply 2.5 to 4 pints (1.25 to 2 lb active) per broadcast acre.

- burclover
- cheeseweed (malva)
- fiddleneck, coast
- filaree, broadleaf
- filaree, redstem
- groundsel, common
- henbit
- knotweed, prostrate
- lambsquarters, common
- lettuce, prickly
- pigweed, redroot
- purslane, common
- redmaids
- rocket, london
- shepherdspurse
- sowthistle, annual

**Timing and Method of Application**

GoalTender should be applied in a minimum of 40 gallons of water per acre. Best preemergence results are achieved when spray is applied to a relatively weed free soil surface. The volume of water used should be increased as the weeds become taller and more dense. Use a low-pressure sprayer equipped with flat fan nozzles. Spray equipment should be calibrated carefully before each use.

**Tank Mixes With GoalTender**

**Important:** Read and observe all label directions before using. When tank mixing, read and carefully follow all applicable use directions, precautions, and limitations on the respective product labels. In interpreting all labels for the tank mixture, the most restrictive situations must apply.

**Dosage**

For preemergence control of susceptible grass and broadleaf weeds, a tank mixture of GoalTender with diuron (Karmex) or simazine can be applied. Apply at the recommended rates and growth stages to susceptible weed species in a manner described on the respective labels.

For postemergence control of susceptible grass and broadleaf weeds, a tank mixture with paraquat (Gramoxone) or glyphosate (Glyphomax) with GoalTender can be used. Apply at the recommended rates and growth stages to susceptible weed species in a manner described on the respective labels.

**Specific Use Restrictions**

In addition to the following, also observe General Use Restrictions listed on the label affixed to the container for GoalTender.

- Do not feed or allow animals to graze on any areas treated with GoalTender.

GOALTENDER (AI: OXYFLUORFEN)  
EPA REGISTRATION NUMBER: 62719-447  
NOTIFICATION OF MINOR SUPPLEMENTAL LABEL CHANGE PER PR NOTICE 98-10

Enclosed please find supplemental labeling for the notification action of GoalTender™ herbicide based on EPA-accepted copy of the main Sec 3 label dated February 16, 2005.

This notification is consistent with the provisions of PR Notice 98-10 and EPA regulations at 40 CFR 152.46, and no other changes have been made to the labeling or the confidential statement of formula of this product. I understand that it is a violation of 18 U.S.C. Sec. 1001 to willfully make any false statement to EPA. I further understand that if this notification is not consistent with the terms of PR Notice 98-10 and 40 CFR 152.46, this product may be in violation of FIFRA and I may be subject to enforcement action and penalties under sections 12 and 14 of FIFRA.

**Contents of Submission**

- Transmittal document (this letter)
- Application for Pesticide, EPA Form 8570-1
- Label entitled GoalTender (F2B/GoalTender/Sec 3 Supp Weed Control in Non-Cropland Notif/05-26-05) (2 Pages plus Registration Notes) (5 Copies)

If you require further information, please contact Cindy Loy, Regulatory Specialist at 317-337-4655 or Chris Hutchison, Registration Assistant for this product, at 317-337-4976.

Sincerely,

A handwritten signature in cursive script that reads "Cindy Loy for".
