PastureGard™

EPA Reg. No. 62719-477

Control of Broadleaf Weeds and Woody Plants on CRP Acres and Roadsides

(For Distribution and Use Only in the States of Kansas, Missouri, Nebraska and Oklahoma)

ATTENTION

- It is a violation of Federal law to use this product in a manner inconsistent with its labeling.
- This label must be in the possession of the user at the time of pesticide application.
- Read the label affixed to the container for PastureGard™ herbicide before applying. Follow all applicable use directions and precautions on the EPA-registered label.
- Use of PastureGard according to this supplemental labeling is subject to all restrictions and limitations imposed by the label affixed to the product container.

Conservation Reserve Program (CRP) Acres

Specific Use Recommendations:

General: Follow applicable use directions for the target weed or woody plant species to be controlled. For program lands such as CRP, consult program rules to determine whether grass or hay may be used. The more restrictive requirements of the program rules or this label must be followed. Use PastureGard on CRP acres only after perennial grasses are well established (see precaution for newly seeded grasses in "Use Precautions and Restrictions" section).

Restrictions: When applying to CRP lands, follow all applicable state and federal regulations. Follow the most severe grazing restriction imposed by the pesticide label or by the USDA Acreage Conservation Reserve Program. After that time period, follow local (CRP) guidelines regarding cropping and haying restrictions. Do not use PastureGard if damage or loss of existing legumes or other desirable broadleaf plants cannot be tolerated.

CRP acres and non-crop areas such as roadsides, fence rows, non-irrigation ditch banks, and areas around farm buildings may be treated using application methods described in the product label.

All applicable use directions, precautions and limitations on the product label for PastureGard must be followed when applying this product to CRP acres and non-crop areas.
