Surmount™

EPA Reg. No. 62719-480

Control of Broadleaf Weeds and Woody Plants on CRP Acres

(For Distribution and Use Only within the States of Kansas, Oklahoma, New Mexico and Texas)

ATTENTION

- It is a violation of Federal law to use this product in a manner inconsistent with its labeling.
- This labeling must be in the possession of the user at the time of application.
- Read the label affixed to the container for Surmount™ herbicide before applying. Carefully follow all precautionary statements and applicable use directions.
- Use of Surmount according to this supplemental labeling is subject to all use precautions and limitations imposed by the label affixed to the container for Surmount.

Directions for Use

Specific Use Recommendations:

General: Refer to application rate for the specific application method and target weed or woody plant species to be controlled. For program lands such as CRP, consult program rules to determine whether grass or hay may be used. The more restrictive requirements of the program rules or this label must be followed. Use Surmount on CRP acres only after perennial grasses are well established (see precaution for newly seeded grasses in the product label for Surmount under "General Use Precautions").

Restrictions: When applying to CRP lands, follow all applicable state and federal regulations. Follow the most severe grazing restriction imposed by the pesticide label or by the USDA Acreage Conservation Reserve Program. After that time period, follow local (CRP) guidelines regarding cropping and haying restrictions. Do not use Surmount if damage or loss of existing legumes or other desirable broadleaf plants cannot be tolerated.
