GLYPHOSATE 1.92% RTU (AI: GLYPHOSATE)  
EPA REGISTRATION NUMBER: 62719-481  
NOTIFICATION OF STORAGE AND DISPOSAL PER PR NOTICE 2001-6

Enclosed please find labeling for this notification action for Glyphosate 1.92% RTU, EPA Reg. No. 62719-481, based on EPA accepted labeling (Notice of Registration) dated September 18, 2002.

**Proposed Changes by Notification:**

1. Storage and Disposal: Revised statements per PR Notice 2001-6
2. Corrected dilution instructions for refilling container (The correct expression is as follows; edits as shown): "To Refill this Container: The sprayer containing Glyphosate 1.92% RTU may be reused by refilling it with a mixture of 1 tablespoon (1/2 fl oz) of Glyphosate 18% Concentrate per 1 pint of water"
3. Corrected Warranty statements on final printed labeling (Limitation of Remedies was missing from final printed label)

This notification is consistent with the provisions of PR Notice 98-10 and EPA regulations at 40 CFR 152.46, and no other changes have been made to the labeling or the confidential statement of formula of this product. I understand that it is a violation of 18 U.S.C. Sec. 1001 to willfully make any false statement to EPA. I further understand that if this notification is not consistent with the terms of PR Notice 98-10 and 40 CFR 152.46, this product may be in violation of FIFRA and I may be subject to enforcement action and penalties under sections 12 and 14 of FIFRA.

**Contents of Submission**

- Transmittal document (this letter)
- Application for Pesticide, EPA Form 8570-1 (OPP No. 295334)
- Label titled Glyphosate 1.92% RTU (E8A / Glyphosate 1.92% RTU / Notification With Edits / 01-07-03) (4Pages plus Registration Notes) (5 Copies)

## Directions for Use

---

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

### General Information

Glyphosate 1.92% RTU kills most broadleaf and grass weeds. This product may be used for non-selective weed control around patios, walkways, driveways and fences, in vegetable or flower gardens and around trees and shrubs and other landscaped areas. Applications to plant foliage are rainfast in approximately two hours and afterward will not be affected by rainfall or irrigation.

### How this Product Works

The active ingredient in this product is active against a substance found only in plants. It enters the plant through foliage and is translocated throughout the plant, killing both roots and top growth. This product is not active in soil and cannot move through the soil to damage desirable plants. Sprays not absorbed by plants are broken down into natural materials.

### What to Expect

Weeds may begin to wilt within a few hours, but complete kill may require 1 to 2 weeks. Small, rapidly growing weeds may be killed with a single application while older, mature weeds may require re-application. If re-application is necessary, wait until new growth appears.

### Important Use Precautions

Do not spray during windy conditions or allow the spray to contact desirable plants such as flowers, ground covers or lawn areas, as they will be severely damaged or killed. In situations where weeds and desirable plants are in close proximity, use a piece of cardboard or plastic to shield desirable plants from the spray. If a desirable plant is sprayed by mistake, immediately rinse the plant with water. Before sprays have dried, avoid inadvertent transfer of the spray solution from treated plants to desirable plants or tracking spray from treated areas onto lawns or other desirable vegetation.

### Application

#### For Best Results:

- Apply when weather is warm (above 60°F) and sunny to stimulate systemic movement from foliage to roots.
- To avoid spray drift to desirable vegetation, adjust spray nozzle to produce large droplets and spray when wind is calm.
- Spray foliage until thoroughly wet, but not past the point of runoff.
- Apply when weeds are small and actively growing, before seeds develop.

#### How to Apply:

- Adjust the spray nozzle to produce large droplets. Small droplets or mists are more likely to drift and cause damage to desirable plants.
- Spray the weeds until the leaves are thoroughly wet, but not past the point of runoff.
- If a desirable plant is nearby, a piece of cardboard or plastic should be used to shield the plant from the spray.

#### To Re-fill this Container:

The sprayer containing Glyphosate 1.92% RTU may be reused by re-filling it with a mixture of 4-2 tablespoons (4-2 fl oz) of Glyphosate 18% Concentrate per 1 pint-cup of water.

677

**Storage and Disposal**

**Storage:** Store in a cool dry place out of the reach of children and domestic animals. Store in original container only. Do not allow this product to freeze.

**Disposal:** ~~To dispose of partially used or empty container, wrap in several layers of newspaper and place in trash. In case of spillage or leak, soak up liquid with paper towels and discard in trash.~~  
 Do not reuse empty container, except in accordance with refilling instructions. In case of spillage or leak, soak up liquid with paper towels and discard in trash.

**If empty:** If container is not refilled according to label instructions, place in trash or offer for recycling if available.

**If partly filled:** Call your local solid waste disposal agency or 1-800-CLEANUP for disposal instructions. Never place unused product down any indoor or outdoor drain.

**Precautionary Statements**

**Hazards to Humans and Domestic Animals**

**CAUTION**

**Causes Moderate Eye Irritation**

**Avoid contact with eyes or clothing. Wash thoroughly with soap and water after handling.**

**Keep people and pets out of treated areas until sprays have dried.**

**First Aid**

**If in Eyes:** Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center for doctor for treatment advice.

Have the product container or label with you when calling a poison control center or doctor or going for treatment

**Environmental Hazards**

Do not apply directly to water. Do not contaminate water when disposing of equipment washwaters or rinsate.

**Terms and Conditions of Use**

If terms of the following Warranty Disclaimer, Inherent Risks of Use, and Limitation of Remedies are not acceptable, return unopened package at once to the seller for a full refund of purchase price paid. Otherwise, use by the buyer or any other user constitutes acceptance of the terms under Warranty Disclaimer, Inherent Risks of Use and Limitations of Remedies.

**Warranty Disclaimer**

Seller warrants that this product conforms to the chemical description on the label and is reasonably fit for the purposes stated on the label when used in strict accordance with the directions, subject to the inherent risks set forth below. Seller MAKES NO OTHER EXPRESS OR IMPLIED WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE OR ANY OTHER EXPRESS OR IMPLIED WARRANTY.

**Inherent Risks of Use**

It is impossible to eliminate all risks associated with use of this product. Plant injury, lack of performance, or other unintended consequences may result because of such factors as use of the product contrary to label instructions (including conditions noted on the label, such as unfavorable temperature, soil conditions, etc.), abnormal conditions (such as excessive rainfall, drought, tornadoes, hurricanes),
