WideMatch™

EPA Reg. No. 62719-512

Conservation Reserve Program (CRP) Acreages - Permanent Grasses Only Non-Cropland: Including Fencerows, Farm Building Sites and Equipment Pathways

(For Distribution and Use In CO, KS, MI, MN, MT, ND, NE, OH, SD, WY)

ATTENTION

- It is a violation of Federal law to use this product in a manner inconsistent with its labeling.
- This labeling must be in the possession of the user at the time of application.
- Read the label affixed to the container for WideMatch™ herbicide before applying. Carefully follow all precautionary statements and applicable use directions.
- Use of WideMatch according to this supplemental labeling is subject to all use precautions and limitations imposed by the label affixed to the container for WideMatch.

Directions for Use

Application Timing: Apply as a broadcast postemergence treatment control of broadleaf weeds in established perennial grasses. Apply when weeds are actively growing, but before weeds are 8 inches tall or are vining. To obtain season-long control of perennial weeds such as Canada thistle, apply after the majority of the weed's basal leaves have emerged up to bud stage. Later applications may result in less consistent control.

Conditions of plant stress, such as drought, will increase potential for injury to grasses at all stages of growth. Do not apply to newly seeded areas grasses until well established. Perennial grasses are considered well established tillers and secondary roots have developed and growing vigorously.

Broadcast Application Rates:

(Numbers in parentheses (-) refer to footnotes following table.)

Weed Size or Species (1)	Application Rate (pt/acre)
Susceptible broadleaf weed seedlings less than 8 inches tall or vining (2)	1.33 – 2.66

1. See "Weeds Controlled or Suppressed" section for a complete listing of weeds controlled or suppressed.
2. Control of small kochia will be more consistent if kochia is at least 1 inch tall.

Tank Mixtures for Conservation Reserve Program (CRP) Acreages and Non-Cropland

WideMatch can also be tank mixed with 1/2 to 1 lb per acre of 2,4-D where target weeds are susceptible to 2,4-D. See "Tank Mixing Precautions" under "Mixing Instructions".

Precautions:

- **Rotation to Broadleaf Crops:** Do not plant broadleaf crops in treated areas until an adequately sensitive bioassay shows that no detectable clopyralid is present in the soil. (See Crop Rotation Intervals in the General Information section of the package label.)
- Do not use on CRP acreages or non-cropland that is underseeded with desirable legumes, clovers, or other sensitive broadleaf plants.

Restriction:

- Do not apply more than 5.33 pints of WideMatch per acre per use season on non-cropland areas or CRP acres.

EPA REGISTRATION NUMBER: 62719-512
NOTIFICATION OF MINOR LABEL CHANGE PER PR NOTICE 98-10

Enclosed please find labeling for the notification action of WideMatch™ herbicide. The following changes have been made by notification:

1. The use directions for CRP Conservation Reserve Program (CRP) Acreages - Permanent Grasses Only and Non-Cropland: Including Fencerows, Farm Building Sites and Equipment Pathways on this supplemental label are taken directly from the EPA-accepted copy of the main label dated May 6, 2005.

This notification is consistent with the provisions of PR Notice 98-10 and EPA regulations at 40 CFR 152.46, and no other changes have been made to the labeling or the confidential statement of formula of this product. I understand that it is a violation of 18 U.S.C. Sec. 1001 to willfully make any false statement to EPA. I further understand that if this notification is not consistent with the terms of PR Notice 98-10 and 40 CFR 152.46, this product may be in violation of FIFRA and I may be subject to enforcement action and penalties under sections 12 and 14 of FIFRA.

Contents of Submission
