Subject: Amendment to Add a Supplemental Label – Reduction in PHI for Bushberries (Subgroup 13-07B) except Lingonberry  
Product Name: Delegate WG Insecticide  
EPA Registration Number: 62719-541  
Application Date: November 30, 2017  
Decision Number: 536715

Dear Mr. Thomas:

The amended label referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide and Rodenticide Act, as amended, is acceptable. This approval is only for a supplemental label that is an addendum to the master label. This approval does not affect any conditions that were previously imposed on this registration. You continue to be subject to existing conditions on your registration and any deadlines connected with them.

This supplemental labeling contains some new and/or revised uses and/or directions which may be additional to the uses and/or directions found on the label on or attached to the container, but this supplemental labeling does not by itself constitute the complete set of use directions. The complete set of use directions is set forth on the container label as combined with this supplemental labeling.

A stamped copy of your labeling is enclosed for your records. You must submit one copy of the final printed labeling before you release the product for shipment with the new labeling.

Your release for shipment of the product constitutes acceptance of these conditions. If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6. If you have any questions, please contact Carlyn Petrella by phone at 703-347-0439, or via email at [petrella.carlyn@epa.gov](mailto:petrella.carlyn@epa.gov).

Sincerely,

A handwritten signature in black ink, appearing to read "Michael Walsh".

# Supplemental Labeling

Dow AgroSciences

Dow AgroSciences LLC 9330 Zionsville Road Indianapolis, IN 46268 -1054 USA

## Delegate® WG

EPA Reg. No. 62719-541

### Bushberries (Subgroup 13-07B<sup>1</sup>) except Lingonberry

<sup>1</sup>Aronia berry; blueberry, highbush; blueberry, lowbush; buffalo currant; Chilean guava; currant, black; currant, red; elderberry; European, barberry; gooseberry; cranberry, highbush; honeysuckle, edible; huckleberry; jostaberry; Juneberry; native currant; salal; sea buckthorn; cultivars, varieties, and/or hybrids of these.

This label expires and must not be distributed or used in accordance with this supplemental registration after August 11, 2020.

#### ATTENTION

- It is a violation of Federal law to use this product in a manner inconsistent with its labeling.
- This labeling must be in the possession of the user at the time of application.
- Read the label affixed to the container for Delegate® WG insecticide before applying. Carefully follow all precautionary statements and applicable use directions.
- Use of Delegate WG according to this supplemental labeling is subject to all use precautions and limitations imposed by the label affixed to the container for Delegate WG.

### Directions for Use

#### Pests and Application Rates:

| Pests                               | Delegate WG (oz/acre) |
|-------------------------------------|-----------------------|
| armyworms                           | 3 – 6                 |
| blueberry gall midge (suppression)  |                       |
| blueberry maggot (suppression)      |                       |
| cherry fruitworm                    |                       |
| cranberry fruitworm                 |                       |
| currant fruit fly (suppression)     |                       |
| European grapevine moth             |                       |
| fireworms                           |                       |
| gypsy moth                          |                       |
| leafrollers                         |                       |
| light brown apple moth              |                       |
| loopers                             |                       |
| spotted wing drosophila             |                       |
| thrips (suppression) <sup>1,2</sup> |                       |

<sup>1</sup>Suppression of thrips may be improved with the addition of an adjuvant to the spray mixture. See Use of Adjuvants section under Mixing Directions.

<sup>2</sup>See special use restrictions below for Fresno, Kern, and Tulare counties in California.

**Application Timing:** Treat when pests appear, targeting eggs at hatch or small larvae. Heavy infestations may require repeat applications, but follow resistance management guidelines. Consult your

Dow AgroSciences representative, extension service specialist, certified crop advisor or your state agricultural experiment station for any additional local use recommendations for your area.

**Application Rate:** The amount of Delegate WG applied per acre will depend upon plant size, volume of foliage present and pest pressure. Use a lower rate in the rate range for light infestations and/or small plants and a higher rate in the rate range for heavy infestations and/or larger plants.

**Resistance Management:** Do not make more than two consecutive applications of Group 5 insecticides (spinetoram and spinosad). If additional treatments are required after two consecutive applications of Group 5 insecticides, rotate to another class of effective insecticides for at least one application. Do not make more than three applications of Group 5 insecticides for thrips in a season. Only two applications are allowed per acre per year in Fresno, Kern, and Tulare counties in the state of California (See special use restrictions). Consult your Dow AgroSciences representative, extension specialist, certified crop advisor, or state agricultural experiment station for information on alternative effective products to use in your area.

**Restrictions:**

- **Preharvest Interval:** Do not apply within 3 days of harvest.
- Do not apply more than a total of 19.5 oz of Delegate WG (0.305 lb ai spinetoram) per acre per year.
- **Maximum Number of Applications:** Do not make more than six applications per calendar year. See Resistance Management and Special Use Restrictions regarding number of applications for specific pests and locations.
- **Minimum Treatment Interval:** Do not make applications less than 6 days apart.

**Special Use Restrictions for Preharvest Interval of one day:**

- **Preharvest Interval:** Do not apply within 1 day of harvest.
- Do not apply more than a total of 17.9 oz of Delegate WG (0.281 lb ai spinetoram) per acre per year.
- **Maximum Number of Applications:** Do not make more than three applications per calendar year. See Resistance Management regarding number of applications for specific pests. See Resistance Management and Special Use Restrictions regarding number of applications for specific pests and locations.
- **Minimum Treatment Interval:** Do not make application less than 6 days apart between the first and second applications. Do not make applications less than 12 days apart between the second applications and the third application. The third application is applied at 1 day of harvest.

**Special Use Restrictions for Fresno, Kern, and Tulare Counties in California**

- **Thrips (suppression) rate:** The Delegate WG use rate is 5 – 6 oz/acre. Do not apply less than 5 oz/acre.
- **Preharvest Interval:** Do not apply within 3 days of harvest.
- Do not apply more than a total of 12 oz of Delegate WG (0.188 lb ai spinetoram) per acre per year.
- **Maximum Number of Applications:** Do not make more than two applications per calendar year. See Resistance Management regarding number of applications for specific pests.
- **Minimum Treatment Interval:** Do not make application less than 6 days apart.
