OFFICE OF PREVENTION, PESTICIDES AND TOXIC SUBSTANCES

Mr. Niamh McMahon Product Registration Dow AgroScience LLC 9330 Zionsville Road Indianapolis, IN 46268 JUL 10 2009

SUBJECT:

Application for Pesticide Notification (PRN 98-10)

Request Directions for Use (Comply Florida State Requirements)

EPA Reg. No.62719-586

Application Dated May 29, 2009

## Dear Registrant:

The Agency is in receipt of your Application for Pesticide Notification under Pesticide Registration Notice (PRN) 98-10 dated 05/29/09 for the above product. The Registration Division (RD) has conducted a review of this request for its applicability under PRN 98-10 and finds that the action(s) requested fall within the scope of PRN 98-10. The label submitted with the application has been stamped "Notification" and will be placed in our records.

If you have any questions, please call me directly at 703-305-6249 or Owen F. Beeder of my staff at 703-308-8899.

Sincerely,

Linda Arrington

VISTA XRT (FLUROXYPYR)
EPA REGISTRATION NUMBER: 62719-586
NOTIFICATION OF MINOR LABEL CHANGE PER PR NOTICE 98-10

Enclosed please find labeling for the notification action of Vista® XRT herbicide based on EPA accepted copy dated December 10, 2007. Following are changes by notification:

1. The use directions for prickly pear cactus on rangeland and permanent pastures on this supplemental label are taken directly from the EPA accepted main label dated December 10, 2007.

This notification is consistent with the provisions of PR Notice 98-10 and EPA regulations at 40 CFR 152.46, and no other changes have been made to the labeling or the confidential statement of formula of this product. I understand that it is a violation of 18 U.S.C. Sec. 1001 to willfully make any false statement to EPA. I further understand that if this notification is not consistent with the terms of PR Notice 98-10 and 40 CFR 152.46, this product may be in violation of FIFRA and I may be subject to enforcement action and penalties under sections 12 and 14 of FIFRA.

#### **Contents of Submission**

- Transmittal document (this letter)
- Application for Pesticide, EPA Form 8570-1
- Label entitled Vista XRT (B2A / Vista XRT / Notif / FL / 05-29-09)
   (2 Pages plus Registration Notes) (5 Copies)

# Supplemental Labeling

Dow AgroSciences LLC

9330 Zionsville Road

Indianapolis, IN 46268-1054 USA

## Vista<sup>®</sup> XRT

EPA Reg. No. 62719-586

# For Control of Broadleaf Weeds including Prickly Pear Cactus in Rangeland and Permanent Grass Pastures

(For Distribution and Use in the State of Florida)

## **ATTENTION**

- It is a violation of Federal law to use this product in a manner inconsistent with its labeling.
- This labeling must be in the possession of the user at the time of application.
- Read the label affixed to the container for Vista<sup>®</sup> XRT herbicide before applying. Carefully follow all
  precautionary statements and applicable use directions.
- Use of Vista XRT according to this supplemental labeling is subject to all use precautions and limitations imposed by the label affixed to the product container.

## **Directions for Use**

**General:** Broadcast apply Vista XRT® herbicide as a single treatment or as sequential postemergence treatment using ground or aerial application equipment. Vista XRT may be applied in tank mix combination with other foliar-applied herbicides labeled for use on rangeland and permanent pastures to control additional weeds and woody plants. Read and follow applicable use directions, precautions and limitations on each product label. Refer to the General Information section of this label for application instructions, including application timing, effect of temperature on herbicidal activity, application rate ranges, spray coverage, instructions for spot application and tank mixing.

**Application Timing and Weeds Controlled or Suppressed:** Apply as a broadcast treatment when weeds are actively growing, but prior to bud stage of weed growth. Use a total spray volume of 5 or more gallons per acre for ground broadcast or 3 or more gallons per acre by air. Only weeds emerged at the time of application will be controlled.

**Tank Mixtures:** For control of additional weeds and woody plants, Vista XRT may be tank-mixed with Remedy<sup>®</sup> herbicide at the indicated application rates.

Products in Tank Mix	Application Rates	Additional Weeds/Brush Controlled			
Vista XRT	4 fl oz/acre +	buttercup, hairy	marshelder ragweeds		
Remedy	9 fl oz/acre	dogbane, hemp kochia lespedeza, sericea	sunflower thistle, musk vetch		
Vista XRT	6 fl oz/acre +	dandelion dock, curly	Horseweed/marestail		
Remedy	3/4 pt/acre	dogfennel goldenrod	lantana plantain		
Vista XRT	9 fl oz/acre +	blackberry rose, multiflora	tropical soda apple wax myrtle		
Remedy	1 pt/acre		persimmon		

## **Spot Treatments**

Spot treatments may be applied with a calibrated boom or with hand sprayers according to directions provided below.

**Hand-Held Sprayers:** Hand-held or backpack sprayers may be used for spot applications of Vista XRT if care is taken to apply the spray uniformly and at a rate equivalent to a broadcast application. Application rates in the table are based an area of 1,000 sq ft. The amount of Vista XRT (fl oz or ml) in the table should be mixed with 1 gallon or more of water and applied to an area of 1,000 sq ft. To calculate the amount of product required for larger areas, multiply the table value (fl oz or ml) by the area to be treated in "thousands" of square feet, e.g., if the area to be treated is 3,500 sq ft, multiply the table value by 3.5 (Calculation:  $3,500 \div 1,000 = 3.5$ ). An area of 1000 sq ft is approximately 10.5 X 10.5 yards in size.

Amount of Vista XRT to Equal Specified Broadcast Rate (Mix with 1 Gallon or More of Water and Apply to 1,000 sq ft)								
6 fl oz/acre	9 fl oz/acre	12 fl oz/acre	17 fl oz/acre	22 fl oz/acre				
0.14 fl oz	0.21 fl oz	0.28 fl oz	0.4 fl oz	0.56 fl oz				
(4.1 ml)	( 6.2 ml)	(8.3 ml)	(11.7 ml)	(16.5 ml)				

1 fl oz = 29.6 (30) ml

### Restrictions:

- Grazing and harvest restrictions: There are no grazing restrictions for livestock, including lactating
  or non-lactating dairy animals. Meat animals must be withdrawn from treated forage at least 2 days
  before slaughter. Do not harvest grass for hay or silage from treated areas within 7 days of
  application.
- Plant-back restriction: Only forage grasses, wheat, barley, oats, field corn, sweet corn and grain sorghum may be planted in treated fields within 120 days following application of Vista XRT.
- Vista XRT may injure or kill legumes: Do not apply if the injury to legumes cannot be tolerated. Legumes may be less sensitive to herbicide injury after plant growth is mature and seed has set.
- Maximum Application Rate: Do not apply more than 22 fl oz of Vista XRT per acre per year.
