# UNITED STÀTES ENVIRONMENTAL PROTECTIÒN AGENCY WASHINGTON, D.C. 20460

OFFICE OF PREVENTION, PESTICIDES AND TOXIC SUBSTANCES

NOV 1 1 2010

Mr. Jim Baxter Dow AgroSciences, LLC 9330 Zionsville Road Indianapolis, IN 46268-1054

Dear: Mr. Baxter:

The Agency is in receipt of your application for Pesticide Notification under Pesticide Registration Notice (PRN) 98-10 dated August 5, 2010 for the product Recruit® HD. The Registration Division (RD) has conducted a review of the request for its applicability under PRN 98-10 and finds that the action(s) requested fall within the scope of PRN 98-10. The Confidential Statement of Formulas (CSF) and/or label submitted with the application has been stamped "Notification" and will be placed in our records.

If you have any questions, please contact Melody Banks on 703 305-5413.

Sincerely,

Product Manager (13)

Insecticide Branch

Registration Division (7504P)

RECRUIT HD (A.I. NOVIFLUMURON)
EPA REGISTRATION NUMBER: 62719-608
NOTIFICATION OF MINOR LABEL CHANGE PER PR NOTICE 98-10

Enclosed please find supplemental labeling for the notification action of Recruit<sup>®</sup> HD termite bait. The following change has been made by notification:

1. Copied use directions for servicing Recruit HD from main label onto supplemental label. The servicing directions have changed. Copying the use directions for servicing Recruit HD onto a supplemental label enables the registered product produced prior to the product with the revised language added to be used. The supplemental label language is identical to the language stamped "approved" by EPA on the full section 3 label.

This notification is consistent with the provisions of PR Notice 98-10 and EPA regulations at 40 CFR 152.46, and no other changes have been made to the labeling or the confidential statement of formula of this product. I understand that it is a violation of 18 U.S.C. Sec. 1001 to willfully make any false statement to EPA. I further understand that if this notification is not consistent with the terms of PR Notice 98-10 and 40 CFR 152.46, this product may be in violation of FIFRA and I may be subject to enforcement action and penalties under sections 12 and 14 of FIFRA.

#### **Contents of Submission**

- Transmittal document (this letter)
- Application for Pesticide, EPA Form 8570-1
- Supplemental label entitled Recruit HD (M7A/Recruit HD/Sec 3 12-Mo Monitoring Notif/08-05-10) (1 Page plus Registration Notes) (1 Copy)

If you require further information, please contact Cindy Loy, Regulatory Specialist at (317) 337-4655.

Sincerely,

Jim Baxter Regulatory Leader (317) 337-4388 (317) 337-4649 (FAX)

# Recruit® HD

EPA Reg. No. 62719-608

# **Registration Notes:**

Source Section 3 supplemental labeling based on EPA accepted text of the main label dated April 16, 2010.

## Change by notification:

Copied use directions for servicing Recruit HD from main label onto supplemental label. The
servicing directions have changed. Copying the use directions for servicing Recruit HD onto a
supplemental label enables the registered product produced prior to the product with the revised
language added to be used. The supplemental label language is identical to the language stamped
"approved" by EPA on the full section 3 label.

Recruit® HD

NOTIFICATION NOV 1 1 2010

### Service of Recruit HD

#### **ATTENTION**

- It is a violation of Federal law to use this product in a manner inconsistent with its labeling.
- This labeling must be in the possession of the user at the time of application.
- Read the label booklet accompanying the container for Recruit<sup>®</sup> HD termite bait before applying.
   Carefully follow all precautionary statements and applicable use directions.
- Use of Recruit HD according to this supplemental labeling is subject to all use precautions and limitations imposed by the label booklet for Recruit HD.

#### **Directions for Use**

The purpose of the service phase is to detect the presence of subterranean termites or signs of termite activity in Recruit HD to monitor for termites, aid Recruit HD replacement, and to confirm colony elimination. This procedure does not attract termites from other locations.

Recruit HD is inspected manually for detection of termites, termite activity, or to identify the need to replace Recruit HD. If Recruit HD is more than 1/3 depleted, replace it with new Recruit HD. If possible, gently tap the termites from the used Recruit HD into the Sentricon station containing the new Recruit HD, being careful to not injure the termites. Introduce these termites after the new Recruit HD has been installed into the Sentricon station.

Sentricon stations containing Recruit HD must be inspected and serviced at intervals not exceeding twelve months unless unfavorable conditions exist. Do not allow more than fifteen months to elapse between inspections. Unfavorable conditions include frozen or water-saturated soil or normal seasonal decline in subterranean termite foraging activity that may temporarily disrupt feeding on Recruit HD. Seasonal effects on termite activity vary geographically, but feeding activity typically declines during periods when the local historical average daily temperature falls below 50°F. Inspection and servicing may be suspended during these periods; however, do not allow more than fifteen months to elapse between inspections. Refer to National Weather Service data or contact Dow AgroSciences for information regarding local historical average daily temperature.
