NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.

A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.

Registration is in no way to be construed as an indorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) section 3(c)(7)(A) provided that you:

1. Submit/cite all data required for registration/reregistration of your product under FIFRA section 3(c)(5) when the Agency requires all registrants of similar products to submit such data; and submit acceptable responses required for reregistration of your product under FIFRA section 4.
2. Make the labeling changes listed below before you release the product for shipment:
 - a. Revise the EPA Registration Number to read, "EPA Reg. No. 63123-1.
 - b. On the Front Panel, change the percent active from "98.64" to 98.6" and the percent inert from "1.36" to "1.4".
 - c. Change the signal word from "DANGER" to "WARNING".

- d. On the Left Panel, change the "Hazards to Humans and Domestic Animals" statement to:

WARNING: Causes substantial but temporary eye injury. Causes irritation to eyes, skin, and respiratory tract. Harmful if swallowed. Do not get in eyes, on skin, or on clothing. Avoid breathing dust or vapors. Use with adequate ventilation. Wash thoroughly with soap and water after handling.

- e. Move the "Physical or Chemical Hazards" section directly below the "Hazards to Humans and Domestic Animals" section.
- f. In your use directions, change "rats" to "Norway rats" and "mice" to "house mice".
3. Change your precautionary statements, if needed, after the Agency completes its review of acute toxicity data on your source product.
4. Submit one copy of your final printed labeling before you release the product for shipment. Refer to the A-79 enclosure for a further description of final printed labeling.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.

Robert A. Forrest
Product Manager (14)
Insecticide-Rodenticide Branch
Registration Division (H7504C)

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

USE RESTRICTIONS: FOR INDOOR USE ONLY. APPLY ONLY AS DIRECTED ON THE LABEL.

Varpel Rope may be used to temporarily repel rats (*Rattus norvegicus*) and mice (*Mus musculus*) from product-enclosed areas. This product may be used in warehouses, storerooms, garages, utility sheds, and other storage areas. Do not apply this product in gardens. Do not apply on grain used for food or feed; or on grain used for seed. Apply this product only as specified.

Testing of this product has indicated that it can be an effective temporary deterrent for commensal rodents, but specific responses will vary according to individual application conditions.

APPLICATION DIRECTIONS: Using gloved hands, apply Varpel Rope by enclosing the area to be protected within the rope and then cut the rope to desired length. Enclosures should be placed on the floor 12 to 18 inches away from item to be protected at its nearest point. Varpel Rope should be applied during times when rodents are most active (dusk to dawn) and removed during the day when normal daily activity typically keeps rodents in hiding. Return Varpel Rope to its original sealed container when not in use.

NOTICE: Buyer assumes all risks of use, storage and handling of this product not in strict accordance with its label directions.
