DIRECTION FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

USE RESTRICTIONS: FOR INDOOR USE ONLY. APPLY ONLY AS DIRECTED ON THE LABEL.

Varpel Rope may be used to temporarily repel Norway rats (*Rattus norvegicus*) and house mice (*Mus musculus*) from product-enclosed areas. This product may be used in warehouses, storerooms, garages, utility sheds, and other storage areas. Do not apply this product in gardens. Do not apply on grain used for food or feed; or on grain used for seed.

Testing of this product has indicated that it can be an effective temporary deterrent for commensal rodents, but specific responses will vary according to individual application conditions.

APPLICATION DIRECTIONS: Using gloved hands, apply Varpel Rope by enclosing the area to be protected within the rope and then cut the rope to desired length. Enclosures should be placed on the floor 12 to 18 inches away from item to be protected at its nearest point. Varpel Rope should be applied during times when rodents are most active (dusk to dawn) and removed during the day when normal daily activity typically keeps rodents in hiding. Return Varpel Rope to its original sealed container when not in use.

NOTICE: Buyer assumes all risks of use, storage and handling of this product not in strict accordance with its label directions.
