RHIZOPON[®]

AA #1 (0.1)

Plant Growth Regulator- Rooting Hormone

For Nursery or Greenhouse Use Only

USE TO PROMOTE ROOTING
OF PLANT CUTTINGS

For Rooting House, Foliage, Tropical

and Hardy Ornamental Plants;

Leaf, Greenwood and Softwood Cuttings

Ingredients:	
Active ingredients	0.1%
Indole-3-butyric acid	0.1%
Inert ingredients	99.9%
Total	100.0%

Exclusive USA Importer: Hortus USA Corp., NY NY 10011
Made in Holland, EPA Reg#63310-19. EPA Est#63310-HL-001
ster USA Distributor: V-J Growers Supply (800-327-5422)

Keep out of reach of children

Net Wt: 1 lb.

CAUTION

See additional precautionary statements on back panel.

Use Rhizopon AA to propagate new plants from cuttings. The new plants will have the same characteristics as the parent plant. Rhizopon AA treated cuttings will expect to produce uniform roots all around the basal end of the cuttings; the results are beautiful symmetric plants.

Rhizopon AA #1 is used on most home, tropical, green house and nursery plants including herbaceous and soft wood cuttings.

Typical plants propagated using Rhizopon #1 (0.1): African violet, ageratum, andromeda, azalea var., barberry, bayberry, beauty berry, begonia, blackberry, bluebeard, blueberry, bougainvillea, snake plant, broom, abelia, butterfly bush, candytuft, carnation, chrysanthemum, clerodendron, clockvine, coleus, crape myrtle, crassula, creeper, croton, currant, daphne, deutzia, dewberry, dovesree, dracena, dutchmanspipe, elder, firethorne, flowering cherry var., fontanesia, forsythia, fuchsia, gardenia, geranium, hazelnut, jasmine, jetbead, kerria, laburnocytisus, lantana, fly scales, linden, melastoma, mock orange, mulberry, orix, osage orange, pea shrub, penstemon, philodendron, phlox, poinsettia, poplar, pricklypear cactus, raspberry, rose, sage, snapdragon, snowberry, speedwell, spiraea, Norway spruce var., stevia, stewartia, St. Johnswort, sweetleaf, trumpet creeper, verbena, viburnum, waxmyrtle, weigelia, willow.

DIRECTIONS FOR USE

It is a Violation of Federal Law to Use This Product in a Manner Inconsistent With Labeling. For Any Requirements Specific to Your State or Tribe, Consult The Agency Responsible.

1. Take plant cuttings, usually 4-6 inch stem cuttings, from the current years growth. For woody cuttings usually wound by making a 3/4 inch notch at basal end.
 2. Dip the basal end of the cuttings 3/4-1 inch into the Rhizopon AA powder. Tap off excess powder.
 3. Plant the cuttings immediately in moist media. Avoid contact between the powder and foliage and other over ground parts of the stem.
 4. Take care of cuttings.
- Take off a small portion of the powder for your immediate use. Do not contaminate this stock container by returning used portion to this container. Dispose of used portion.

STORAGE AND DISPOSAL

Store in a cool dry place. Keep in original container. Wastes resulting from this product may be disposed of on site or at an approved waste disposal facility. Container disposal-triple rinse (or equivalent). Then offer for recycling, or reconditioning, or puncture and dispose of in a sanitary landfill, or incineration, or, if allowed by state and local authorities, by burning. If burned stay out of smoke.

PRECAUTIONARY STATEMENTS

Hazards to humans and domestic animals.

CAUTION

Causes moderate eye injury. Harmful if inhaled or absorbed through the skin. Avoid contact with skin, eyes, or clothing. Avoid breathing dust (vapor or spray mist). Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash before reuse.

STATEMENT OF PRACTICAL TREATMENT

If inhaled remove victim to fresh air. If not breathing give artificial respiration, preferably mouth to mouth. Get medical attention. If on skin wash with plenty of soap and water. If in eyes wash with plenty of water. Get medical attention if irritation persists.

ENVIRONMENTAL HAZARDS

Do not contaminate water when disposing of equipment wash waters. Do not apply directly to water, to areas where surface water is present or intertidal areas below the mean high water mark.

WARRANTY

It is warranted that this product conforms to the chemical description on the label thereof and is reasonably fit for purposes stated on such label only when used in accordance with the directions under normal use conditions. It is impossible to eliminate all risks inherently associated with the use of this product. Crop injury, ineffectiveness or other unintended consequences may result because of such factors as weather conditions, presence of other materials, or the manner of application all of which is beyond the control of Rhizopon b.v. or Hortus USA Corp. In no case shall Rhizopon or Hortus be liable for consequential, special or indirect damages resulting from the use or handling of this product. All risks shall be assumed by the buyer. Rhizopon or Hortus USA make no warranties of merchantability or fitness for a particular purpose nor other express or implied warranty except as stated above.

AGRICULTURAL USE REQUIREMENTS

Use this product in accordance with its labeling and with the Worker Protection Standard, 40 CFR 170. This Standard contains requirements for the protection of agricultural workers on farms, forests nurseries, and greenhouses, and handlers of agricultural pesticides. It contains requirements for training, decontamination, notification, and emergency assistance. It also contains specific instructions and exceptions pertaining to the statements in this labeling about personal protective equipment, restricted-entry intervals, and the notification of workers. The requirements in this box only apply to the uses of this product that are covered by the Workers Protection Standard (WPS).

Do not apply this product in a way that will contact workers either directly or through drift. Only protected handlers may be application. For any requirements specific to your State or agency responsible for pesticide regulation.

ENTRY RESTRICTIONS: Do not enter or allow worker entry during entry interval (REI). The restricted-entry interval for this product is:

* the specific number of hours or days (if any) listed elsewhere labeling as the reentry interval or entry restriction for the crop or more;

* 4 hours, if no specific number of hours or days is listed elsewhere labeling as the reentry interval or entry restriction for the crop. The restricted-entry for this product must be at least 4 hours.

NOTIFICATION INSTRUCTIONS: Follow the rules in the WPS (c) of the application. Exception: If the instructions about notification elsewhere on the product labeling require posting of treaters offering a choice), you must notify workers of the application orally AND by posting signs at entrances to treated areas, follow WPS.

PERSONAL PROTECTIVE EQUIPMENT (PPE) REQUIREMENTS

* Handler PPE: Pesticide handlers must wear the PPE listed on product labeling for applicators. If specific PPE is required on product label for specific tasks (such as mixing or loading), it is performing such tasks. In any case, any handler using this product must wear: long sleeved shirt, long pants, shoes, socks, and chemical resistant or waterproof gloves.

* EARLY ENTRY PPE: PPE required for early entry to treated areas under the Worker Protection Standard and that involves contact with treated areas, such as plants, soil, or water, is the same as elsewhere on this product label for applicators, except that the requirement is waived. In any case, the minimum PPE for any worker exposed to this product is no less than: coveralls, chemical resistant or waterproof gloves.

CONFLICTING INSTRUCTIONS: If the requirements of the instructions listed elsewhere on this product label, users must wear protective requirements. PERSONAL PROTECTIVE EQUIPMENT other handlers must wear: Long sleeved shirt, long pants, chemical-resistant or waterproof gloves.

USER SAFETY RECOMMENDATIONS: Users should Wash hands before drinking, chewing gum, using tobacco or using the toilet. Immediately if pesticide gets inside. Then wash thoroughly and change clothing.

Remove PPE immediately after handling this product. Wash before removing. As soon as possible, wash thoroughly and change clothing.

AGRICULTURAL USE REQUIREMENTS

Use this product in accordance with its labeling and with the Worker Protection Standard, 40 CFR 170. This Standard contains requirements for the protection of agricultural workers on farms, forests, nurseries, and greenhouses, and handlers of agricultural pesticides. It contains requirements for training, decontamination, notification, and emergency assistance. It also contains specific instructions and exceptions pertaining to the statements in this labeling about personal protective equipment, restricted-entry intervals, and the notification of workers. The requirements in this box only apply to the uses of this product that are covered by the Worker Protection Standard (WPS).

Do not apply this product in a way that will contact workers or other persons, either directly or through drift. Only protected handlers may be in the area during application. For any requirements specific to your State or Tribe, consult the agency responsible for pesticide regulation.

ENTRY RESTRICTIONS: Do not enter or allow worker entry during the restricted-entry interval (REI). The restricted-entry interval for this product is:

* the specific number of hours or days (if any) listed elsewhere on the product labeling as the reentry interval or entry restriction for the crop or site, if 4 hours or more;

* 4 hours, if no specific number of hours or days is listed elsewhere on the product labeling as the reentry interval or entry restriction for the crop or site;

The restricted-entry for this product must be at least 4 hours.

NOTIFICATION INSTRUCTIONS: Follow the rules in the WPS for notifying workers of the application. Exception if the instructions about notification (if any) listed elsewhere on the product labeling require posting of treated areas (rather than offering a choice), you must notify workers of the application by warning them orally AND by posting signs at entrances to treated areas, following the rules in the WPS.

PERSONAL PROTECTIVE EQUIPMENT (PPE) REQUIREMENTS:

* Handler PPE: Pesticide handlers must wear the PPE listed elsewhere on the product labeling for applicators. If specific PPE is required elsewhere on the product label for specific tasks (such as mixing or loading), it must be worn while performing such tasks. In any case, any handler using this product must wear no less than: long sleeved shirt, long pants, shoes, socks, and chemical-resistant or waterproof gloves.

* EARLY ENTRY PPE: PPE required for early entry to treated areas that is permitted under the Worker Protection Standard and that involves contact with anything that has been treated, such as plants, soil, or water, is the same PPE as required elsewhere on this product label for applicators, except that any respirator requirement is waived. In any case, the minimum PPE required for early entry worker exposed to this product is no less than: coveralls, shoes, socks, and chemical resistant or waterproof gloves.

CONFLICTING INSTRUCTIONS: If the requirements of the WPS conflict with instructions listed elsewhere on this product label, users must obey the more protective requirements. **PERSONAL PROTECTIVE EQUIPMENT:** Applicators and other handlers must wear: Long sleeved shirt, long pants, shoes, socks, and chemical-resistant or waterproof gloves.

USER SAFETY RECOMMENDATIONS: Users should -Wash hands before eating, drinking, chewing gum, using tobacco or using the toilet. -Remove clothing immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing.

-Remove PPE immediately after handling this product. Wash the outside of gloves before removing. As soon as possible, wash thoroughly and change into clean clothing.
