Registration Division (H7505C)

Family MOSQUITO COILS

COIL BURNS 6-8 HOURS
IN STILL AIR

Family MOSQUITO COILS

Use outdoors on patios, porches and campsites. Keeps area free from mosquitoes for up to 8 hours in still air.

DIRECTIONS FOR USE

This product is in violation of Federal law to use this product in a manner inconsistent with its labeling. Coils burn 6-8 hours in still air. To use, break apart the two coils in the center between thumb and forefinger of each hand and separate the two coils. Gently press them apart. Hold one comma shaped end and shake lightly or gently pry to separate the coils. Insert the other coil into the comma shaped end of coil. Light the outer end of the coil and let burn for one hour approximately. If the coil does not burn, blow out the flame and allow the coil to smolder until extinguished. For shorter periods of use break the coil to desired length and place in notched cut out of holder. For best results, do not use in wind. Do not burn indoors.

STORAGE: Store in a dry place, preferably locked, inaccessible to children and pets and away from sources of heat or light.
DISPOSAL: Do not reuse empty container. **Used Coils:** Sweep ashes into trash. **Unused Coils:** Wrap in newspaper and discard.

PRECAUTIONARY STATEMENTS

Hazards to Humans & Domestic Animals

CAUTION: Avoid contact with eyes. Avoid contact with skin. Avoid contact with mucous membranes. Avoid contact with clothing. Avoid contact with food. Avoid contact with children and pets. Use and before eating or smoking. Cover any packages, and avoid contact with children and pets. Avoid contact with flammable objects, materials, or surfaces.

Statement of Practical Treatment

Inhaled: Wash nose and mouth with water. Apply artificial respiration if breathing is difficult. If necessary, use oxygen. If on skin: Wash with soap and water. Get medical attention if irritation persists. If in eyes: Flush eyes with water. If on clothing: Wash with water.

Physical or Chemical Hazards

None known.
