NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.

A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.

Registration is in no way to be construed as an indorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This report is conditionally registered under the Act (7)(c) and (7)(d) and is subject to the following conditions:

1. The registrant shall file the registration label with the Administrator in accordance with the Act, section 3(c)(3) and section 4 under the same conditions as other registered pesticides, and have the label printed in the same manner as other registered pesticides. The registration label shall be filed with the Administrator and the respective State Review Agency and the active ingredient: dating level (7)(3)(D)-1A for 2000.

2. Show the labeling changes listed below before you release the product for shipment:

Spco-Pek 2000 label

- Add the Phrase: "E.P.A. Registration No. 63509-1"
- Change the first sentence of the Pesticide Disposal Section to read "Pesticide wastes are acutely hazardous".
- Obtain the wording of the statement "Pot life: 70 F is about 1 hour", and provide the standard by which this is determined.

ATTACHMENT IS APPLICABLE

SIGNATURE OF APPROVING OFFICIAL

DATE

- d. When referring to use of the hardner, use the full name "EpcO-Tek 2000 Epoxy Hardner".

EpcO-Tek 2000 Epoxy Hardner label

- a. Change the label reference statement to read "This product must be used in conjunction with EpcO-Tek 2000 (EPA Reg. No. 63569-1), an epoxy barrier coating".
- b. Include the EPA Establishment No. on the product label or the container.
- c. Under the Health Hazard Data section delete the instructions to induce vomiting.
- d. Explain the meaning of the statement "Pot life: 2 hrs. @ 77°F, 25°C", and provide the standard by which this is determined.

3. Submit five (5) copies of your final printed labeling before you release the product for shipment. Refer to the A-79 enclosure for a further description of final printed labeling.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.

Sincerely yours,

John H. Lee
Product Manager (31)
Antimicrobial Program Branch
Registration Division (H7504C)

DIRECTIONS FOR USE

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

[REDACTED]

SPILLS

Take up with absorbent material, avoid personal contact. Shovel waste into closed containers; dispose of in accordance with Federal, State and Local regulations. Flush contaminated area with water.

STORAGE & DISPOSAL

STORAGE: Keep container closed when not in use.

PESTICIDE DISPOSAL: Pesticide wastes are toxic. Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of Federal law. If wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance. Do not contaminate water, food, or feed by storage or disposal.

CONTAINER DISPOSAL: Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or incineration, or, if allowed by state and local authorities, by burning. If burned, stay out of smoke.

SURFACE PREPARATION: Marine surfaces to be bonded must be clean, dry, and free of oil and grease. Prime with 100% epoxy undercoat (EPCO-TEK 225 can be used).

APPLICATION: Tape off the waterline. Stir EPCO-TEK 2000 to "cake icing" consistency. Add EPCO-Tek 2000 hardener; 3 parts, by volume, of EPCO-TEK 2000 base is mixed with 1 part, by volume, EPCO-TEK hardener. Mix thoroughly using an agitating blade mixing device. Using a standard cup gun, spray EPCO-TEK 2000 within an 8 hour window after priming. Final thickness on the marine surface should be 0.017-0.020 inches. EPCO-TEK 2000 is activated by light sanding of the surface using 60-80 grit paper approximately 24-48 hours after application of EPCO-TEK 2000 formulation.
