P.O. Box 5126, Valdosta, GA 31603-5126

Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Biopesticides and Pollution Prevention Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered/reregistered under the Federal Insecticide, Fungicide and Rodenticide Act.

Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This registration does not eliminate the need for continual reassessment of the pesticide. If EPA determines at any time, that additional data are required to maintain in effect an existing registration, the Agency will require submission of such data under section 3(c)(2)(B) of FIFRA.

This product is registered in accordance with FIFRA section 3(c)(5) and is subject to the following conditions:

1. Make the following modification to your label dated March 23, 2003 :

Change the EPA File Sym. No. 63823-UL to EPA Reg. No.63823-45.

2. Submit three (3) copies of the final printed labeling before you release the product for shipment.

A stamped copy of the label is enclosed for your records

MCSI METHOPRENE ANT KILLER BAIT

-2-

**PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS
CAUTION**

Harmful if swallowed. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, or using tobacco.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

FOR CONTROL OF PHARAOH ANTS**General Information**

MCSI METHOPRENE ANT KILLER BAIT is an insect growth regulator (IGR). When foraging ant workers take bait into the mound to feed the queen and brood, methoprene kills larvae, disrupts egg development and metamorphosis, and prevent egg production by the queen.

Pharaoh ants lay their nests in hidden places (mainly in kitchens and bathrooms), in wall cracks, and along pipes and sockets. A single nest may consist of several thousand workers and, unlike other ant species, several queens. If a single queen and any workers survive the treatment, the population will be able to reproduce. Where there are many ants present, it is recommended to reduce the number of migratory workers by using a traditional insecticide spray two (2) weeks before the application of MCSI METHOPRENE ANT KILLER BAIT. Following the use of the bait, a final treatment with a traditional insecticide spray can kill the few remaining workers. NOTE: DO NOT APPLY ANY OTHER INSECTICIDE FORMULATION WHILE USING THE BAIT.

Bait Application

To open the entrances of the bait station, cut off top of packaging along the dotted line as indicated. From the bottom of the bait station, tear off the sticker-protecting foil and stick the bait station near frequently used routes of foraging ants. To avoid spilling the bait, position the bait station with its entrances facing upwards or sideways as indicated by the arrow. Following placement of the bait, you may observe more ants than before due to the bait's attraction. If there is a large population of ants and/or the bait station becomes empty or damaged (e.g., gets drenched), replace it with a new bait station. It is recommended to leave the bait at the same place for a period of 3 months, even if the ants disappear from the premises much earlier.

WARRANTY AND CONDITIONS OF SALE

To the fullest extent permitted by law, seller makes no warranty, express or implied, concerning the use and handling of this product other than indicated on the label. Buyer assumes all risk of use and handling of this material when such use and handling are contrary to label instruction.
