**MCSI Methoprene-Based
Residual Flea Killer Spray****NOTICE OF PESTICIDE:**

☒ Registration
☐ Reregistration

(under FIFRA, as amended)

Name and Address of Registrant (include ZIP Code):

Management Contract Services, Inc.
P.O. Box 5209
Valdosta, GA 31603-5209

Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered/reregistered under the Federal Insecticide, Fungicide and Rodenticide Act. Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA sec. 3(c)(7)(A), provided that you:

1. Submit and/or cite all data required for registration/reregistration of your product under FIFRA sec. 3(c)(5) when the Agency requires all registrants of similar products to submit such data; and submit acceptable responses required for reregistration of your product under FIFRA section 4.
2. Please make the following changes to your label:
 - a. Add the following statement to the last paragraph of the Directions for Use section
"Also, treat your yard with a product registered for yard application."

Please submit two (2) copies of your final printed label for before your release the product for shipment. Please refer to the A-79 enclosure for a further description of final printed labeling. If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6(e). Your release for shipment of the product bearing amended labeling constitutes acceptance of these conditions. A stamped copy of the label is enclosed for your records. If you have any questions regarding this action, please contact Dr. William Sproat of my team at (703) 308-8587.

CAUTION**

Harmful if swallowed, absorbed through the skin, or inhaled. Causes moderate eye irritation. Avoid breathing vapor or spray mist. Avoid contact with skin, eyes, or clothing. Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash clothing before reuse.

PHYSICAL AND CHEMICAL HAZARDS

Flammable. Keep away from heat and open flame.

DIRECTIONS FOR USE

IT IS A VIOLATION OF FEDERAL LAW TO USE THIS PRODUCT IN A MANNER INCONSISTENT WITH ITS LABELING.

General Information:

MCSI Flea Killer Spray contains methoprene, an Insect Growth Regulator (IGR), and insecticide combination for indoor control of fleas and ticks. The spray gives protection against both adults and flea larvae. Methoprene works specifically on pre-adult fleas, preventing them from maturing into biting adults. Pyrethrins and permethrin, which efficacy is enhanced by a special synergist, kill adult fleas and ticks. MCSI Flea Killer Spray is especially developed for surface treatment. **Do not spray MCSI Flea Killer Spray directly onto pets.**

Application:

Cover or remove food, dishes, and food-containers. All food processing surfaces should be covered during treatment or thoroughly cleaned before using. Cover (and unplug) aquariums and remove birds and other pets before treatment. Vacuum thoroughly before spraying. A test application should be made to upholstery or drapery fabrics in an inconspicuous place before use.

Shake well before using. The container should be held about 30 cm (one foot) from the surface to be treated. Spray uniformly the entire floor and the walls up to 1 meter (approximately 3 feet) height. Apply uniformly with sweeping motion. Give special attention to cracks and crevices. Also treat carpets, rugs, tiles, furniture, under furniture cushions, pet bedding and places where pets like to rest. Only complete coverage will provide complete flea control, but avoid thoroughly wetting the area that needs treating. Avoid contact with treated surfaces until dry.

For best results, use MCSI Flea Killer Spray prior to the flea season and repeat treatment after half a year. In case the spray is washed off, repeat treatment.

Flea control on pets is important in prevention of introduction of adult fleas indoors. When using this product, and fleas are problems on pets, the pets should be treated with an effective registered flea control product to prevent the introduction of adult fleas indoors. **Do not spray MCSI Flea Killer Spray directly onto pets.**

STORAGE & DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

STORAGE: Store unused product in original container only in cool, dry area out of reach of children and animals.

PESTICIDE DISPOSAL: Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

CONTAINER DISPOSAL:

- If empty: Do not reuse this container. Place in trash or offer for recycling, if available.
- If partly filled: Call your local solid waste agency or 1-800-CLEANUP for disposal instructions. Never place unused product down any indoor or outdoor drain.

WARRANTY AND CONDITIONS OF SALE:

Seller makes no warranty, express or implied, concerning the use and handling of this product other than indicated on the label. Buyer assumes all risk of use and handling of this material when such use and handling are contrary to label instructions.
