Re: EPA #63838-14

To Whom it May Concern;

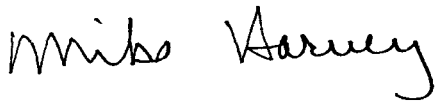

On June 11, 2011 this applicant received notice of a product registration transfer from Hydrate Chemical Co, EPA No 2686-10. Subsequently a label Notification should have been sent to the Agency in regards to changing the Storage and Disposal section of the label, per PR Notice 2007-4.

However, during the transition a copy of the Notification for the Storage and Disposal statement cannot be located in our files. So, as a safeguard to insure that we are in compliance, a new Notification is currently being submitted.

We are attaching form 8570-1 with Notification Certification statement and 3 copies of the label.

Thank you for your attention in this matter.

Sincerely,

Michael Harvey  
Regulatory Affairs.
