

U.S. ENVIRONMENTAL PROTECTION AGENCY

Office of Pesticide Programs  
Antimicrobials Division (7510P)  
1200 Pennsylvania Ave., N.W.  
Washington, D.C. 20460

EPA Reg. Number:

63838-33

Date of Issuance:

7/13/2022

NOTICE OF PESTICIDE:

Registration  
 Reregistration  
(under FIFRA, as amended)

Term of Issuance:

Unconditional

Name of Pesticide Product:

DryCide

Name and Address of Registrant (include ZIP Code):

EnviroTech Chemical Services, Inc.  
500 Winmoore Way  
Modesto, CA 95358

**Note:** Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Antimicrobials Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered under the Federal Insecticide, Fungicide and Rodenticide Act.

Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is unconditionally registered in accordance with FIFRA section 3(c)(5) provided that you:

1. Submit and/or cite all data required for registration/reregistration/registration review of your product when the Agency requires all registrants of similar products to submit such data.
2. Make the following label changes before you release the product for shipment:
  - Revise the EPA Registration Number to read, "EPA Reg. No. 63838-33."
3. The data requirements for storage stability and corrosion characteristics (Guidelines 830.6317 and 830.6320) are not satisfied. A one-year study is required to satisfy these data requirements. You have 18 months from the date of registration to provide these data.

Signature of Approving Official:

*Jacqueline Hardy*  
Jacqueline Hardy, Chief  
Regulatory Management Branch 2  
Antimicrobials Division (7510P)

Date:

7/13/2022

4. Submit one copy of the revised final printed label for the record before you release the product for shipment.

Because you have opted to add statements pertaining to emerging viral pathogens to your label as described in the August 19, 2016, Guidance to Registrants: Process For Making Claims Against Emerging Viral Pathogens Not On EPA-Registered Disinfectant Labels (“Guidance”), [https://www.epa.gov/sites/production/files/2016-09/documents/emerging\\_viral\\_pathogen\\_program\\_guidance\\_final\\_8\\_19\\_16\\_001\\_0.pdf](https://www.epa.gov/sites/production/files/2016-09/documents/emerging_viral_pathogen_program_guidance_final_8_19_16_001_0.pdf), you are subject to the following additional terms of registration:

1. You may make statements pertaining to emerging viral pathogens only through the following communications outlets: technical literature distributed exclusively to health care facilities, physicians, nurses and public health officials, "1-800" consumer information services, social media sites and company websites (non-label related). These statements shall not appear on marketed (final print) product labels.
2. Your statements pertaining to emerging viral pathogens must adhere to the format approved on the Agency-accepted master label.
3. You may make statements pertaining to emerging viral pathogens only upon a disease outbreak that meets all the following criteria:
  - a. The causative organism must be a virus that causes an infectious disease that has appeared in a human or animal population in the U.S. for the first time, or that may have existed previously but is rapidly increasing in incidence or geographic range.
    - i. For human disease, the outbreak is listed in one of the following Centers for Disease Control (CDC) publications:
      - A. CDC Current Outbreak List for “U.S. Based Outbreaks” ([www.cdc.gov/outbreaks](http://www.cdc.gov/outbreaks)),
      - B. CDC Current Outbreak List for “Outbreaks Affecting International Travelers” with an “Alert” or “Advisory” classification ([www.cdc.gov/outbreaks](http://www.cdc.gov/outbreaks)) (also released through the CDC’s Health Alert Network (HAN) notification process)
      - C. Healthcare-Associated Infections (HAIs) Outbreaks and Patient Notifications page ([www.cdc.gov/hai/outbreaks](http://www.cdc.gov/hai/outbreaks))
    - ii. For animal disease, the outbreak is identified as an infectious disease outbreak in animals within the U.S. on the World Organization for Animal Health (OIE) Weekly Disease Information page ([www.oie.int/wahis\\_2/public/wahid.php/Diseaseinformation/WI](http://www.oie.int/wahis_2/public/wahid.php/Diseaseinformation/WI)).
      - A. The CDC or OIE has identified the taxonomy, including the viral family and/or species, of the pathogen and provides notice to the public of the identity of the emerging virus that is responsible for an infectious disease outbreak. Based on the taxonomy of the outbreak pathogen identified by the CDC or OEI, the pathogen's viral subgroup is enveloped.

- B. The virus can be transmitted via environmental surfaces (non-vector transmission), and environmental surface disinfection has been recommended by the CDC, OIE or EPA to control the spread of the pathogen.
4. You may begin communicating statements pertaining to emerging viral pathogens only upon CDC or OIE's publication per term 3.a. of an outbreak of an emerging viral pathogen meeting all of the criteria of term 3. You must cease and remove all such non-label communications intended for consumers no later than 24 months after the original publication of the outbreak per term 3.a., unless the Agency issue written guidance to the contrary due to continued public health concerns. The emerging pathogen claim language may remain on the master label.
  5. Terms from points 1 through 4 above shall become immediately void and ineffective if registration for use against Rotavirus is suspended or cancelled or no longer meets the criteria for a disinfectant claim (see EPA Product Performance Test Guideline 810.2200). In addition, terms B.1 through B.4 above shall become immediately void and ineffective upon your receipt of evidence of ineffectiveness against any pathogen in a less-resistant Spaulding category.

Should you wish to add/retain a reference to the company's website on your label, then please be aware that the website becomes labeling under the Federal Insecticide Fungicide and Rodenticide Act and is subject to review by the Agency. If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) list examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA's Office of Enforcement and Compliance.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6. Your release for shipment of the product constitutes acceptance of these conditions. A stamped copy of the label is enclosed for your records. Please also note that the record for this product currently contains the following CSFs:

- Basic Confidential Statement of Formula dated 08/03/2021

If you have any questions, please contact Lorena Rivas by phone at (703) 305-5027, or via email at [rivas.lorena@epa.gov](mailto:rivas.lorena@epa.gov)

Ver 3.3 July 2022

**{FRONT/BACK PANEL CLAIMS- MAY BE USED AS BULLET POINTS OR IN PARAGRAPH  
FORMAT}**

**{General Claims}**

- An effective [non-food contact surface] - and/or- [food contact surface] cleaner for use in the [kitchen] and/or [bathroom] - and/or- [bedroom] -and/or- [other household areas]
- Breath easy
- Cleans and deodorizes
- Cleans and removes stains from washable floors
- Cleans everyday kitchen messes like [dirt] [grease] and [food stains]
- Cleans tough messes
- Clear Formula
- Colorless
- Daily [kitchen] -and/or- [bathroom] cleaner
- Deep Cleaning
- Deodorizes [deodorizer]
- Deodorizes -or- Eliminates food odors [left behind on kitchen surfaces] [after cooking]
- Deodorizes pet areas including pet beds - and/or- cages -and/or- kennels -and/or- cat litter boxes
- Deodorizes [washable] hard, nonporous surfaces
- Dries quickly
- Dye Free [and Fragrance Free]
- Fast action [kitchen] and/or [bathroom] cleaner
- Fast drying
- Cleaner, fresher [kitchen] -and/or- [bathroom]
- Gluten free
- [Great] for everyday use [in the kitchen] [in the bathroom]
- Ideal for Low Moisture -and/or- Water Sensitive [Environments] [Equipment] [Areas]
- Kitchen cleaning made easy
- Leaves your -or- my home smelling clean - or- fresh
- [Leaves] no residue
- Leaves surfaces [shiny] [clean]
- Made in the USA
- No measuring
- No mixing
- Non-abrasive formula
- Nut free
- Odor free
- Prevents odors -and/or- [dirt] [soap scum] [build up]
- Quick drying
- Recyclable [bottle] [container]
- Removes -and/or- cleans everyday kitchen messes
- Removes [pet stains] -and/or- Eliminates odors
- Removes -and/or- cleans [the following]
  - [cooking] oils
  - Blood
  - Body oils
  - Coffee
  - Dirt
  - Fecal matter
  - Food [residues] [soils]
  - Grease
  - Laboratory stains
  - Mold stains
  - Other soils -and/or- stains
  - Rust
  - Tea
  - Urine
- Special [kitchen] and/or [bathroom] cleaning formula
- [This product is approved] for use [in] [on] **[pick any use site/surface from List 2]**
- Tough on soap scum
- Trigger Spray
- Versatile
- What it takes to get the job done
- Works on a wide range of [household] [kitchen] [bathroom] [bedroom] surfaces
- Worry free around [food] [pets] [kids] [food preparation surfaces]

### {Antimicrobial Claims}

- An effective [non-food] -and/or- [food contact] surface [cleaner] -and/or- [sanitizer] for use in the kitchen -and/or- [bathroom] [bedroom] -and/or- **[any use site listed under List 2]**
- An institutional –and-or- industrial –and-or- household sanitizer for previously cleaned, non-porous food contact surfaces in dairies –and-or- wineries –and-or- breweries –and-or- food and beverage plants –and-or- food processing/packing plants -and-or- poultry egg facilities –and-or- kitchens –and-or- bathrooms
- Antibacterial [Formula]
- Antimicrobial [Formula]
- Cleaner and disinfectant in one
- Cleans -and/or- Sanitizes hard, non-porous [washable] kitchen -and/or- household - and/or- fixtures [throughout the home] – and/or- [meat facilities] –and-or- [poultry facilities] **[any surface listed under List 2]** surfaces
- Cleans –and-or- Sanitizes hard, non-porous surfaces of kitchens –and/or- [meat facilities] –and-or- [poultry facilities] -and/or- **[any use site listed under List 2]**
- Cleans –and-or- Sanitizes hard, non-porous surfaces of conveyors and equipment for meat facilities –and-or- poultry facilities – and-or- [seafood facilities] –and-or- [fruit processing facilities] –and-or- [nut processing facilities] –and-or- [vegetable processing facilities]
- An effective hard, non-porous food contact surface sanitizer for use in the kitchen –and-or- [restaurants] –and-or- [meat facilities] – and-or- [poultry facilities] –and-or- [seafood facilities] –and-or- [fruit processing facilities] –and-or- [nut processing facilities] –and-or- [vegetable processing facilities] **[any use site listed under List 2]**
- Reduce[s] the spread of germs<sup>†</sup> on hard, non-porous surfaces
- Effective against: **[pick any pathogen from List 1]**
- Effective soft surface sanitizer as a spot treatment [in 40 seconds] [on] **[any soft surface listed under List 4]**
- Eliminates odors caused by bacteria [and non-fresh food]
- Sanitizer for hard non-porous -and/or- soft non-food contact surfaces.
- Kills [99.9%] of **[pick any pathogen from List 1]**
- Kills [99.9%] of **the virus that causes COVID-19 [in enter contact time from List 1]**
- Kills 99.999% of [bacteria] [on food-contact surfaces] **[pick from Food-Contact Sanitization pathogens under List 1]**
- Kill[s] germs [whenever] [wherever] you need it on hard, non-porous surfaces
- Kills odor causing bacteria in kitchens - and/or- bathroom
- Kill[s] -and/or- eliminate[s] -and/or- disinfect[s] -and/or- destroy[s] -and/or- remove[s] 99.9% of [the] [bacteria -and/or- viruses\*] [and other germs<sup>†</sup>] -or- germs<sup>†</sup> found in -or- on [the] **[any surface or use site listed under List 2]**
- Kill[s] -and/or- eliminate[s] -and/or- disinfect[s] -and/or- destroy[s] -and/or- remove[s] 99.9% of **[pick from Disinfection pathogens and viruses\* in List 1]** found in -or- on [the] **[any surface or use site listed under List 2]**
- Kills what you can't see: **[pick any virus from List 1]**
- Leaves surfaces [sanitary] [disinfected] [sanitized]
- Multi-surface [disinfectant]-and/or [sanitizer] on hard, non-porous
- [Sanitizer] -and/or- [Disinfectant] -and/or [Deodorizer]
- This product can be used in Federally inspected Meat –and-or- Poultry –and/or- Seafood –and-or- Fruit Processing –and/or- Nut Processing –and-or- Vegetable Processing Facilities as a sanitizer
- [Removes] [Eliminates] odors by killing odor-causing bacteria on [soft surfaces] [fabrics] [in 40 seconds] [on] **[any soft surface listed under List 4]**
- This product is a sanitizer for hard and nonporous, non-food contact area surfaces according to the method for Sanitizers – Non-Food Contact Surfaces, [in 10 seconds] against: **[pick from Non-Food-Contact Hard Surface Sanitization pathogens under List 1]**
- This product is a spot treatment sanitizer for soft, non-food contact area surfaces according to the method for Sanitizers – Non-Food Contact Surfaces [in 40 seconds] against: **[pick from Non-Food-Contact Soft Surface Sanitization pathogens under List 1]**

- Soft surface spot treatment sanitizer [for use on] **[any soft surface listed under List 2]**
- This product is an effective spot treatment sanitizer against the gram negative and gram positive organisms as a : **[pick from Non-Food-Contact Soft Surface Sanitization pathogens under List 1]**
- This product is a sanitizer for hard, nonporous, food contact area surfaces according to the method for Sanitizers – Food Contact Sanitizer Test for Previously Cleaned Food-Contact Surfaces, [in 60 seconds] against: **[pick from Food-Contact Sanitization pathogens under List 1]**
- An effective disinfectant for use in the kitchen -and/or- [bathroom] [bedroom] [other household areas]
- Disinfectant for [homes] -and/or- **[any use site listed under List 2]**
- Disinfects **[any surface or use site listed under Use List 2]** [this season] [this flu season]

## EMERGING VIRAL PATHOGENS

This product qualifies for emerging viral pathogen claims per the EPA’s “Guidance to Registrants: Process for Making Claims Against Emerging Viral Pathogens not on EPA-Registered Disinfectant Labels” when used in accordance with the appropriate use directions indicated below.

This product meets the criteria to make claims against certain emerging viral pathogens from the following viral categories:

- Enveloped viruses
- Large Non-Enveloped Viruses

Statements shall adhere to the following format:

***[Product name]*** has demonstrated effectiveness against viruses similar to ***[name of emerging virus]*** on ***hard, non-porous surfaces***. Therefore, ***[product name]*** can be used against ***[name of emerging virus]*** when used in accordance with the directions for use against ***[name of supporting virus(es)]*** on ***[hard porous/non-porous surfaces]***. Refer to the ***[CDC or OIE]*** website at ***[pathogen-specific website address]*** for additional information.

***[Name of illness/outbreak]*** is caused by ***[name of emerging virus]***. ***[Product name]*** kills similar viruses and can therefore be used against ***[name of emerging virus]*** when used in accordance with the directions for use against ***[name of supporting virus(es)]*** on ***[hard, porous/non-porous surfaces]***. Refer to the ***[CDC or OIE]*** website at ***[pathogen-specific website address]*** for additional information.

<i>For an emerging viral pathogen that is a/an...</i>	<i>...follow the directions for use for the following organisms on the label:</i>
Enveloped virus	Human Rhinovirus type 37 ATCC VR-1147
Large, non-enveloped virus	Human Rhinovirus type 37 ATCC VR-1147

{Note to the reviewer: The statements shall be made only through the following communications outlets: technical literature distributed exclusively to veterinarians, health care facilities, physicians, nurses and public health officials, “1-800” consumer information services, social media sites and company websites (non-label related). **These statements shall not appear on marketed (final print) product labels.**}

<b>List 1: Test Organisms Reference List</b>		
<b>Non-Food Contact Sanitization Pathogens (Hard Surface)</b>		
<b>Bacteria</b>	<b>Strain/ATCC No.</b>	<b>Contact Time</b>
<i>Staphylococcus aureus</i> bacteria [Staph]	ATCC 6538	10 seconds
<i>Klebsiella pneumoniae</i> bacteria	ATCC 13048	10 seconds
<b>Non-Food Contact Sanitization Pathogens (Soft Surface)</b>		
<i>Staphylococcus aureus</i> bacteria [Staph]	ATCC 6538	40 seconds
<i>Klebsiella aerogenes</i> bacteria	ATCC 13048	40 seconds
<b>Food Contact Sanitization Pathogens</b>		
<i>Staphylococcus aureus</i> bacteria [Staph]	ATCC 6538	60 seconds
<i>Escherichia coli</i> bacteria [ <i>E. coli</i> ]	ATCC 11229	60 seconds
<i>Escherichia coli</i> O157:H7 bacteria [ <i>E. coli</i> O157:H7]	ATCC 35150	60 seconds
<i>Salmonella enterica</i> bacteria	ATCC 10708	60 seconds
<i>Listeria monocytogenes</i> bacteria	ATCC 19117	60 seconds
<b>†Hard, Nonporous Surface Disinfection Pathogens</b>		
<b>Bacteria</b>	<b>Strain/ATCC No.</b>	<b>Contact Time</b>
<i>Salmonella enterica</i> bacteria	ATCC 10708	3 minutes
<i>Staphylococcus aureus</i> bacteria [Staph]	ATCC 6538	3 minutes
<i>Pseudomonas aeruginosa</i> bacteria	ATCC 15442	3 minutes
<i>Listeria monocytogenes</i> bacteria	ATCC 19117	60 seconds
<b>Fungi</b>		
<i>Trichophyton interdigitale</i> [Common cause of athletes foot]	ATCC 9533	60 seconds
<b>*†Viruses</b>		
Rhinovirus Type 37 [The Common Cold]	ATCC VR-1147, Strain 151-1	60 seconds
Influenza A virus [H1N1]	ATCC VR-1469, Strain A/PR/8/34	30 seconds
Human Coronavirus	ATCC VR-740, Strain 229E	30 seconds
Human Rotavirus	ATCC VR-2018, Strain WA	30 seconds
SARS-Related Coronavirus 2 -or- SARS-CoV-2 -or- COVID-19 virus	BEI Resources NR-52281, Strain Isolate	30 seconds
Avian Influenza A (H7N9) virus	CDC # 2013759189, Strain wildtype A/Anhui/1/2013	30 seconds

## List 2: USE SITES/SURFACES

- Acute care institutions
- Airplane[s] [hard, non-porous surfaces cabins]
- Airports
- Ambulance equipment/ hard, non-porous surfaces
- Ambulances
- Anesthesia rooms
- [Animal] [pet] [water] bowls
- [Animal] cages
- Animal care facilities
- Animal hard, non-porous equipment
- Animal hospitals
- Animal labs
- Animal life sciences
- Appliance exterior[s] [surfaces]
- Art galleries
- Automobile hard, non-porous interiors
- Automobiles
- Baby bottles -and/or- spoons -and/or- dishes
- Banks
- Barber/beauty shops
- Barges
- Bars
- Basements
- Bathroom[s] hard, non-porous [counter tops]
- [Bathroom] [Kitchen] faucet[s] [handles]
- Bathroom [hard, non-porous surfaces]
- Bathroom -or- locker room facilities
- Bathtubs
- Bed pans
- Bed frames
- Bed railings
- Bedrooms
- Benches
- Beverage plant
- Bicycle shops
- Blinds
- Blood banks
- Boats
- Bookstores
- Bowling alleys
- Breakrooms
- Breeding and grooming establishments
- Breweries
- Brush belts
- Brushes
- Buckets
- Buses
- Butcher shops
- Cabinet handles
- Cabinets-or- cupboards
- Cafeteria trays
- Cafeteria hard, non-porous surfaces
- Campers
- Campground hard, non-porous surfaces
- Car interior hard, non-porous surfaces
- Carts
- Casing -and/or- Shell – Eggs
- CAT scan room hard, non-porous surfaces
- CAT scans
- Cell phones
- Chairs
- Changing tables -or- areas
- Chemotherapy hoods
- Childcare center[s] hard, non-porous surfaces
- Children's rooms
- [Children's] toys
- Church hard, non-porous surfaces
- Clinic hard, non-porous surfaces
- Clippers
- Closets
- Coated mattress[es]
- Coated pillows
- Coffee machines -or- pots
- Combs
- Commercial buildings
- Computer keyboards
- Control panels
- Convenience stores
- Correctional facilities
- Countertops -or- counters
- CPR training mannequins
- Cribs
- ~~Cutting tools~~
- Dairy hard, non-porous surfaces
- Day care centers
- Day care snack areas
- Deli slicers
- Delivery trucks
- Dens
- Dental offices
- Department store hard, non-porous surfaces
- Desks
- Desktops
- Dialysis centers
- Dialysis machines
- Diaper changing tables -or- pails
- [Dining] [Fast food] [Kitchen] [Picnic] [Play] [Restaurant] [Tray] tables
- Dining room hard, non-porous surfaces - and/or- tables -and/or- fast food restaurant tables
- Dishwashers
- [Door] [Cabinet] [Appliance] knobs
- Door[s] frames
- Dorms
- Drain boards
- Drawer pulls
- Dressing rooms
- Drinking fountains
- Eating establishment hard, non-porous surfaces
- Egg Hatcheries
- Egg processing/packing plants

- Elder care center hard, non-porous surfaces
- Elevator buttons
- Elevators
- Emergency rooms
- Emergency vehicles
- EMS & fire facilities
- Exam rooms
- Examination tables
- Exercise machines
- Exhaust fans
- External surfaces of [medical] equipment
- Factories
- Family area hard, non-porous surfaces
- Fast food operations
- Fast food restaurants
- Feed racks
- Fire trucks
- Fixtures
- Floors [around toilets]
- Food contact surfaces
- Food preparation [& storage] areas
- Food preparation [processing] surfaces
- Food processing - and/or- packing plants
- Food storage areas
- Foodservice operation hard, non-porous surfaces
- Footbath surfaces
- Freezers at room temperature
- Fruit, nut, or vegetable processing plants
- Garage hard, non-porous surfaces
- Garages
- Garbage cans
- Gas station
- Gift shops
- Glass
- Greenhouses
- Grills
- Grocery carts -and/or- stores
- Gurneys
- Gyms
- Hair/nail/pedicure salons
- Handrails
- Headboards
- Health clubs hard, non-porous surfaces
- Healthcare workers gloves -and/or- gowns -and/or- white coats
- Helicopters
- Highchairs
- Home healthcare institutions
- Homes
- Hospices
- Hospital beds
- Hospitals hard, non-porous surfaces
- Hotels hard, non-porous surfaces
- Households
- Ice chests at room temperature
- Infirmaries
- Institutions
- IV poles
- Kennels
- Keyboards
- [Kid's] play [structures] [equipment] [furniture] [tables]
- Kitchen countertops
- Kitchen floors
- Kitchen sink(s)
- Kitchen hard, non-porous surfaces
- Kitchen tables
- Kitchens
- Laboratories
- Laundry rooms
- Lavatories
- Light switches
- Litter boxes
- Livestock premises
- Locker rooms
- Lounges
- Lunch boxes
- Malls
- Manicure/pedicure tools
- Markets
- Meat, Poultry and Seafood Facilities
- Medicine cabinets
- Military installations
- Mobile homes
- Motels hard, non-porous surfaces
- Movie theaters [hard, non-porous surfaces]
- Nurseries
- Nursing homes hard, non-porous surfaces
- Office -or- bedroom - or- bedside furniture
- Offices
- Operating rooms hard, non-porous surfaces
- Ophthalmic/optometric facilities
- Outdoor grill exteriors (allow surface temperature to adjust to room temperature)
- Outdoor -or- patio furniture
- Ovens
- Pens
- Performance/theater centers
- Pet areas
- Pet areas -or- hard, non-porous surfaces
- Pet shops
- Pet toys
- Pharmacies
- Physical therapy rooms or areas
- Piano keys
- Picnic facilities
- [Plastic] cutting boards
- Plastic shower curtains
- Play areas -or- rooms
- [Play] [exercise] [gym] mats
- Playground [equipment]
- Playpens
- Playrooms hard, non-porous surfaces
- Police cars
- Portable and chemical toilets and latrine buckets
- Portable toilet exteriors
- Post offices [hard, non-porous surfaces]
- **Pots and pans**
- Poultry brooding houses

- Preschools
- Public facilities -or- restrooms
- Range hoods
- Razors
- Reception counters or desks or areas
- Recovery rooms
- Recreational centers
- Recycling bins [and center]
- Refrigerator shelves at room temperature
- Refrigerators
- Rental cars
- Respiratory therapy centers
- Rest stops
- Restaurants [hard, non-porous surfaces]
- Restroom fixtures
- Restrooms
- RV's
- Salons
- Scales
- School buses
- School cafeterias
- Schools
- Scissors
- Shelters
- Shelves and drawers
- Ships
- Shopping malls
- Shower [walls]
- Shower curtains
- Shower stalls
- Shower stalls – or- showers
- Sinks
- Smokers
- Spas
- Sports arenas
- Sports equipment [hard, non-porous surfaces]
- Stovetops -or- stoves (allow surface temperature to adjust to room temperature)
- Stretchers
- Strollers
- Subways
- Supermarkets
- Surgery rooms or operating rooms
- Tables
- Tanning beds
- Tanning salons
- Tasting rooms
- Taxis
- Telephone booths
- Telephones
- Toilet seats
- Toilets -and/or- urinal exterior[s] [surfaces]
- [Toilet] [toilet flush] handles
- [Telephone] [cabinet] [door] handles
- Tools
- Toy boxes
- Trains
- Trash cans
- Trash compactors
- Trolleys
- Troughs
- Tubs [and] -or- glazed [ceramic] tile
- TV remote controls
- Tweezers
- Urinals
- Vanity tops
- [Vinyl] linoleum
- Vehicle interiors
- Vet or veterinarian clinic surfaces
- Warehouses
- Washable kitchen hard, non-porous surfaces
- [Washable] floors [including linoleum, no-wax, vinyl, and glazed ceramic tile]
- [Washable] walls
- Washing machines
- Wastebaskets
- Zoos

### List 3: HARD NONPOROUS SURFACES/SURFACE MATERIALS

- Acrylic
- [Glazed] ceramic tile
- Chrome
- Corian®
- Fiberglass [sealed] surfaces
- Finished -and/or- painted wood
- Formica®
- Glass
- Glazed porcelain
- Glazed tile
- Laminated surfaces
- Linoleum
- Metal
- Painted wallboard
- Plastic
- Plexiglass®
- Rubber
- Sealed granite

- Textiles
- Towels
- Upholstered furniture
- Upholstery
- Window treatments

## PRECAUTIONARY STATEMENTS

### HAZARDS TO HUMANS AND DOMESTIC ANIMALS

**CAUTION:** Causes moderate eye irritation. Avoid contact with eyes or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, or using the toilet.

### PHYSICAL OR CHEMICAL HAZARDS

**Flammable.** Keep away from heat and open flame.

{Note to reviewer: For containers of 5 gallons or more, the following Environmental Hazards language will appear on the final product labels.}

### Environmental Hazards

Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans, or other waters unless in accordance with the requirements of a National Pollutant discharge Elimination System (NPDES) permit and permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

### DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

#### OPERATING SPRAYER

**[Refill only with this product] Alternate for refill bottle: To Refill [Spray Bottles]:**

#### **Remove**

Remove trigger sprayer or cap from empty bottle.

#### **Pour**

Unscrew cap on refill and pour contents directly into empty bottle.

#### **Use**

Replace trigger sprayer and use as you normally would. -or- [Remove trigger sprayer from empty bottle,] unscrew cap and transfer your sprayer to this bottle.

#### CLEANING

**General:** [Household/Kitchen/Floor] Cleaning; [Remove cooking ingredients and cooked food from areas to be cleaned.] Spray product straight onto soils and wipe clean [with a dry paper or lint-free cloth -or- sponge.] -or- [Spray soiled area, then wipe clean.] Repeat for visibly soiled areas.

**Alternate for Direct Application of Refill Bottle:** Apply this product full strength onto soils and wipe clean [with a dry paper towel -or- [lint free] cloth -or- sponge -or- mop -or- rag.] Repeat for visibly soiled areas.

**To Clean/Remove Soap Scum:** Spray product onto soils and wipe clean [with a dry paper towel or lint-free cloth or sponge]. -or- Just spray on and wipe off [with a dry paper towel or lint-free cloth or sponge]. No scrubbing or rinsing is necessary. For best results, use a dry paper towel or lint-free cloth. Repeat for visibly soiled areas. For stubborn stains or visibly soiled areas or tougher jobs, allow product to penetrate [dirt and/or soap scum] before wiping. For best results, use regularly to prevent soap scum build up.

**To Clean [Nonporous] Surfaces -and/or- Floors:** [Spray soiled area, then wipe clean. -or- For spot cleaning, spray straight from bottle and wipe clean with damp sponge -or- mop.]

**To Clean Toilets:** To clean and deodorize toilet bowl, squirt liberally (1/2 cup) on toilet sides and upper bowl toilet rim. Swab -or- brush all surfaces thoroughly and flush.

**See Use Sites/Surfaces under List 2**

## **SANITIZATION OF NON-FOOD CONTACT SURFACES**

**To Deodorize -and/or- To Sanitize Non-Food Contact Surfaces [such as (select from Hard, Nonporous Use Sites/Surfaces under List2)]:** Pre-clean surfaces prior to treatment. Spray [this ready to use product] 6-8 inches from hard, non-porous surface until visibly wet. Let stand and remain visibly wet for 10 seconds. Wiping or rinsing is optional.

### **Footwear Sanitizer**

This product may be used as a sanitizer for use on outside surfaces of non-porous waterproof footwear such as boots, and work boots. Preclean footwear prior to sanitizing. This product may be used to preclean. To sanitize, apply by spray, wipe, or immersion in a shoe trough to ensure exposure to sanitizer for at least 10 seconds. Allow surface to air dry.

**Sanitizing and Deodorizing of Animal Housing Facilities (Barns, Kennels, Hutches, Etc.):** Remove animals and feed from premises, vehicles, and enclosures. Remove litter, waste matter from floors, walls and surfaces of barns, pens, stalls, chutes, and other facilities and fixtures occupied or traversed by animals. Empty all troughs, racks and other feeding and watering equipment. Thoroughly clean all hard, non-porous surfaces such as feed racks, mangers, troughs, automatic feeders, fountains, and waterers with soap or detergent and rinse with water. Saturate hard, non-porous surfaces by spraying [this ready to use product] 6-8 inches from surface until visibly wet. Allow to remain visibly wet for 10 seconds. Immerse hard surface types of equipment used in handling and restraining animals such as forks, shovels and scrapers used for removing litter and manure. Ventilate buildings and other closed spaces. Do not house livestock or employ equipment until treatment has been absorbed, set, or dried. [A post application rinse is optional] - or- [A removal step is required (potable water rinse or wipe)].

**Organisms: Refer to Non-food Contact Sanitization Pathogens under List 1**

## **SANITIZATION OF SOFT SURFACES AS A SPOT TREATMENT**

**To Deodorize -and/or- To Sanitize Soft Surfaces [such as (select from Soft Surfaces under List 4)]:** Pre-clean surfaces prior to treatment. Spray this product 6-8 inches from soft surface until visibly wet. Do not saturate. Let stand for 40 seconds. Allow to air dry.

**Organisms: Refer to Non-food Contact Sanitization Pathogens (Soft Surface) under List 1**

## **SANITIZATION OF FOOD CONTACT NON-POROUS SURFACES**

**To Sanitize Hard, Non-porous Food Contact Surfaces [such as (select from Hard, Nonporous Use Sites/Surfaces under List 2)]:** Pre-clean surfaces prior to treatment. Spray 6-8 inches until visibly wet. Let stand and remain visibly wet for 60 seconds. Drain any excess solution. [A post application wipe or rinse is optional] -or- [A removal step is required (potable water rinse)].

**Sanitization of Conveyors and Equipment for Meat, Poultry, Seafood, Dairy, Fruit, Nuts and Vegetables:** This product is effective against [pick from Food-Contact Sanitization pathogens under List 1]. For use sanitizing, washing, or rinsing of conveyors, slicers, dicers, saws, deboners and other equipment. Pre-clean surfaces prior to treatment. Apply sanitizer solution to the return portion of the conveyor or equipment using spray at 6-8 inches from surface, so as to affect draining and prevent puddling. Let stand and remain visibly wet for a minimum 60 seconds. [A post application rinse is optional] -or- [A removal step is required (potable water rinse)].

### **Sanitizing Non-Porous Waterproof Gloves**

This product may be used as a sanitizer for use on non-porous and waterproof gloves. Preclean gloves prior to sanitizing. To sanitize, apply by spray, wipe, or total immersion to ensure exposure to sanitizer for at least 60 seconds. Allow surfaces to air dry. [A post application rinse is optional] -or- [A removal step is required (potable water rinse)].

**Organisms: Refer to Food Contact Sanitization Pathogens under List 1**

## **DISINFECTION**

**To Disinfect [surfaces] [such as (select from Hard, Nonporous Use Sites/Surfaces under List 2)]:** Pre-clean surfaces prior to treatment. Spray [this ready to use product] 6-8 inches from surface and wet completely. Let stand and remain visibly wet for 3 minutes. Wiping or rinsing is optional.

**Disinfection and Deodorizing of Animal Housing Facilities (Barns, Kennels, Hutches, Etc.):** Remove animals and feed from premises, vehicles, and enclosures. Remove litter, waste matter from floors, walls and surfaces of barns, pens, stalls, chutes, and other facilities and fixtures occupied or traversed by animals. Empty all troughs, racks and other feeding and watering equipment. Thoroughly clean all hard, non-porous surfaces with soap or detergent and rinse with water. Spray [this ready to use product] 6-8 inches from hard, non-porous surface and wet completely. Let remain visibly wet for 3 minutes. Immerse equipment used in handling and restraining animals, such as, forks, shovels and scrapers used for removing litter and manure. Do not house livestock or employ equipment until treatment has been absorbed, set, or dried. Thoroughly scrub all treated feed racks, mangers, troughs, automatic feeders, fountains and waterers with soap or detergent, and rinse with potable water before reuse.

**Organisms: Refer to Hard, Nonporous Surface Disinfection Pathogens and viruses under List 1**

## **STORAGE AND DISPOSAL**

Do not contaminate water or food or feed by Storage or Disposal.

**Pesticide Storage:** Store in the original container in a dry cool place below 75°F (23.9°C). Absorb spills with inert dry absorbent or sand, then place in a chemical waste container. Do not store near heat or open flame.

**Pesticide Disposal:** Wastes resulting from the use of this product must be disposed of on site or on an approved waste disposal facility.

**Container Handling and Disposal (For containers ≤ 5 gallons):** Non-refillable container. Do not reuse or refill this container. Triple rinse as follows: Empty the remaining contents into application equipment or a mix tank and drain for 10 seconds after the flow begins to drip. Fill the container ¼ full with water and recap. Shake for 10 seconds. Pour rinsate into application equipment or a mix tank or store rinsate for later use or disposal. Drain for 10 seconds after the flow begins to drip. Repeat this procedure two more times.

**Container Handling and Disposal (For containers >5-55 gallons):** Non-refillable container. Do not reuse or refill this container. Triple rinse as follows: Empty remaining contents into application equipment or a mix tank. Fill the container ¼ full with water. Replace and tighten closures. Tip container on its side and roll it back and forth, ensuring at least one complete revolution for 30 seconds. Stand the container on its end and tip it back and forth several times. Turn the container over onto its other end and tip it back and forth several times. Empty the rinsate into application equipment or a mix tank or store rinsate for later use or disposal. Repeat procedure two more times. Then offer for recycling or reconditioning if appropriate or puncture and dispose of in a sanitary landfill or by incineration.

**Container Handling and Disposal (For containers >55 gallons (totes)):** Verify that the tote is empty. Do not rinse or clean. Seal tote and contact your distributor for return.
