A Note to PUR Hiker Owners:

The PUR Voyager cartridge upgrades the PUR Hiker Microfilter to a microbiological water purifier. The Voyager cartridge utilizes PUR's patented Tritex Technology which combines iodinated resin with microfiltration to **eliminate all types of microorganisms from water.**

When upgrading the PUR Hiker Microfilter to a microbiological water purifier, attaching this sticker to the Hiker body pump housing will remind you of your safety upgrade.

To prevent recontamination, a small amount of residual iodine remains in the purified water. Persons with thyroid problems and pregnant women should consult their physician prior to use. Refer to product manual for detailed use and care instructions.
Keep out of Reach of Children

CAUTION:

Active Ingredient: Iodine* 54.6%,

Inert Ingredients: 45.4%.

Bound to quaternary ammonium polystyrene anion exchange resin.
