UNITED STATES ENVIRONMENTAL PROTECTION AGENCY
WASHINGTON, D.C. 20460

OFFICE OF CHEMICAL SAFETY
AND POLLUTION PREVENTION

FEB - 2 2011

Ms. Georgia Anastasiou, Agent
Combat Inset Control Systems
c/o Henkel Consumer Goods Inc.
1900 N. Scottsdale Road
Scottsdale, AZ 85255

Subject: Label Notification(s) for Pesticide Registration PR Notice 2007-4

Dear Ms. Anastasiou:

The Agency is in receipt of your Application(s) for Pesticide Notification under Pesticide Registration Notice (PRN) 2007-4 dated August 9, 2010 for:

EPA Registration Number: 64240-1 Combat Fire Ant Killer

The Registration Division (RD) has conducted a review of this request for applicability Under PRN 2007-4 and finds that the label change(s) requested falls within the scope of PRN-2007-4. The label has been date-stamped "Notification" and will be placed in our Records.

Please be reminded that 40 CFR Part 156.140(a)(4) requires that a batch code, lot number, or other code identifying the batch of the pesticide distributed and sold be placed on non-refillable containers. The code may appear either on the label (and can be added by non-notification/PR Notice 98-10) or durably marked on the container itself.

If you have any questions, please contact Melody Banks on 703 305-5413.

Sincerely,

A handwritten signature in black ink, appearing to read "Mark Suarez", written over a horizontal line.

Mark Suarez
Product Manager 13
Insecticide Branch
Registration Division (7504P)

20910

Please read instructions on reverse before completing form.

Form Approved, OMB No. 2070-0060, Approval expires 05-31-98

KEEP OUT OF REACH OF CHILDREN

CAUTION

See end – or – side – or bottom – or – back panel for additional precautionary statements.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION: Harmful if absorbed through skin. Avoid contact with eyes, skin or clothing. Prolonged or frequently repeated skin contact may cause allergic reaction in some individuals. Wash hands before eating, drinking, chewing gum, using tobacco or using the toilet.

FIRST AID: If on skin or clothing: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice. Have the product container or label with you when calling a poison control center or doctor or going for treatment. Combat [Information] Helpline: 1-800-426-6228.

HAZARDS TO DOMESTIC ANIMALS: Pest may be attracted to this product. Keep pets away from treated areas for at least 24 hours after application.

ENVIRONMENTAL HAZARDS: This product is toxic to fish. Do not apply directly to water. Do not contaminate water by cleaning of equipment or disposal of equipment washwaters.

EPA Reg. No. 64240-1

Combat Fire Ant Killer

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

GENERAL INFORMATION

Claims for front or back

- Kills native and imported fire ants
- Guaranteed to work or [your] money back (see back panel)
- Kills the queen and [destroys] the [entire] colony
- Easy to use
- Unique [delayed] action formula -or- bait allows ant to carry bait back to the nest where the entire colony is killed
- Kills [fire] ant colonies within one week
- Granules are easily carried back to the colony
- Gets to the source of infestation
- Destroys [fire] ant mounds
- The granules attract worker [fire] ants who carry the bait back to the nest where the entire colony, including the queen, is killed
- Concentrated formula
- Convenient, one-step process
- Prevents mounds from relocating
- Call the Combat® Labs [information] helpline at 1-800-426-6228
- Destroys [fire] any mounds 10 to 20 (11.2 oz) -or-
Destroys [fire] any mounds 30 to 60 (2 lb) -or-
Destroys [fire] any mounds 45 to 95 (3 lb)
- Granules
- No mixing
- Ready-to-use
- Limits new mound formation

Now with Combat® Fire Ant Killer you can destroy [fire] ant mounds. Combat® Fire Ant Killer is combination of (ant) food attractants -or- granules and a patented insecticide ingredient that is highlight effective against [fire] ants. [The insecticide is specially formulated to allow time for worker ants which find the bait to carry it back to the queen and other ants before dying. If the queen isn't killed, the mound will be quickly repopulated or relocated and require repeat treatment. This product kills the queen, so it destroys the colony.]

- The granules attract worker [fire] ants who carry the bait back to the nest where the entire colony, including the queen, is killed.
- The unique [delayed] action bait allows worker ants, looking for food and water, enough time to bring the granules back to their nest where the queen and the colony feed on it and die.

EFFECTIVENESS GUARANTEED: If this product fails to eliminate mound activity after 4 weeks, return the empty container for a full refund to _____.

[Bracketed information is optional text.]

Highlighted text is new

[This package is sold by weight, not by volume. You can be assured of proper weight even though some settling of contents normally occurs during shipping and handling.]

[For questions or comments, please call the Combat® Labs [Information] Helpline at 1-800-426-6228 [for more information].

This is how Combat® Fire Ant Killer granules work:

- 1. Combat will attract foraging worker [fire] ants to the bait granules. The [fire] ants will feed on the bait.
- 2. Worker [fire] ants will take some of the bait back to the nest where they pass it on to kill the queen and entire colony.

-or-

- 1. Sprinkle granules
- 2. The granules attract worker [fire] ants
- 3. Worker [fire] ants carry the bait back to the nest where the entire colony including the queen is killed

-or-

- 1. Sprinkle granules
- 2. [Fire] Ant take baits – return to nest – kill the queen & entire colony

The label may include illustrations of how the product works.

GENERAL PRECAUTIONS AND RESTRICTIONS

Wear gloves when using the product and wash hands thoroughly after handling.

APPLICATION INSTRUCTIONS

[Contents of this box will treat 6 -or- ___ average size (approximately 28 inches in diameter) [fire] ant mounds]

- 1. For localized activity of [fire] ants [mounds, hills and trails], measure or sprinkle [2 to 5 level teaspoons (0.5 to 1.0 oz) of Combat® Fire Ant Killer granules at the base of the ant mound or along ant trail. Do not use kitchen utensils for measuring. Do not put the granules directly in or on the mound. Do not disturb mound. This will aggravate the ants and may cause them to relocate their mound. One container is sufficient to destroy 10 to 20 (11.2 oz) [fire] ant mounds -or- 30 to 60 (2 lb) [fire] ant mounds -or- 45 to 95 (3lb) [fire] ant mounds.

-or-

(directions for tip and measure bottle) For localized activity of [fire] ants (mounds, hills and trails) turn the container upside-down to fill the dispensing chamber with Combat® Fire Ant Killer granules. Sprinkle granules (approximately 2 to 5 level teaspoons per mound) around the base of the fire ant mound or along trail. Do not put the granules directly in or on the mound. Do not disturb mound. This will aggravate the ants and may cause them to relocate their mound. Destroy [fire] ant mounds 10 to 20 (11.2 oz) -or- Destroys [fire] ant mounds 30 to 60 (2 lb) -or- Destroys [fire] ant mounds 45 to 95 (3lb).

70910

Note: ***Bold, Italicized text is information for the reader and is not part of the label.***

[Bracketed information is optional text.]

Highlighted text is new!

2. After application, you may see increased ant activity around Combat® Fire Ant Killer granules. **Do not spray or interfere with their feeding.** The [fire] ants need time to take the granules back to the colony -or- hill -or- mount to kill the queen and entire colony.
3. You should expect to see a significant reduction in [fire] ants within a week.
4. If large colonies are present, a repeat treatment after one week may be necessary.
5. For best results, apply Combat® Fire Ant Killer granules when ants are most active. This generally occurs during the early morning hours or at dusk. Avoid application during the heat of the day or if rain threatens.
6. Broadcast treatment: For general control of [fire] ants outdoors around your yard, sprinkle granules lightly in the yard. One package will treat (up to) a half acre -or- x square feet -or- yards.
7. For large, infested areas use a hand operated spreader and broadcast Combat® Fire Ant Killer granules at 2 to 4 oz per 5,000 square feet (1 to 2 lbs per acre).

Directions if sold in individual packets.

1. The amount of this product needed to treat an average size [fire] ant mound has been pre-measured into each single treatment packet. Using a pair of scissors, cut the packet along the dotted line and apply the entire contents of the packet uniformly around the base of the ant mound. Do not apply directly to the top of the mound and do not disturb the mound. (See illustration)
2. For best results, apply Combat® Fire Ant Killer granules when ants are most active. This generally occurs during the early morning hours or at dusk. Avoid application during the heat of the day or if rain threatens.
3. Worker ants will find this product, carry it back to the mound, and pass it along to the queen and other ants before dying. Typically, the queen and a number of ants will be dead within a week and mound activity will gradually decline afterwards as no new ants are produced.
4. For particularly large ant mounds containing extreme numbers of ants, it may be necessary to apply a second packet to the mound. Refer to the illustration after treating the mound to see if you have enough product coverage.
5. Broadcast treatment: For general control of [fire] ants outdoors around your yard, sprinkle granules lightly in the yard. One package will treat (up to) a half acre -or- x square feet -or- yards.

Should you have any questions regarding this product, see stamped code on back -or- bottom of container, then call the Combat® Labs Helpline for more information: 1-800-426-6228.

STORAGE AND DISPOSAL

STORAGE: Keep in original container. Store in cool, dry, secure place [Prolonged exposure to air may turn product rancid. **DISPOSAL: If empty:** Nonrefillable container. Do not reuse or refill this container. Offer for recycling if available. If recycling is not available, place in trash. If partially filled: Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

Storage and disposal for oil-based product:

STORAGE: This product is formulated in an oil bait that functions as an attractant to ants. Prolonged exposure to air may turn oil rancid and reduce the attractiveness of the bait. Therefore, do not store any packets -or- container which have been opened. Keep in original container. Store in cool, dry, secure place. **DISPOSAL: If empty:** Nonrefillable container. Do not reuse or refill this container. Offer for recycling if available. If recycling is not available, place in trash. If partially filled: Call your local solid waste agency for disposal instructions

Note to Reviewer: Per PR-Notice 2007-4, this product will receive a batch code. The number will be laser-coded on each primary package of the product after the container is sealed.
