# COMBAT

## ROACH KILLING SYSTEM

- for large roaches:*
- Greater Roach Control
  - Even Kills roaches resistant to pyrethroids and organophosphates.
  - Improved Formula
  - Better Roach Control
  - Improved Roach Control
  - vs. Combat Roach Baits F2

- COMBAT's formula offers greater roach control because it also kills roaches that are resistant to common insecticides made with pyrethroids, organophosphates and carbamates.

# COMBAT

## ROACH KILLING SYSTEM

Laboratory and home use tests prove COMBAT® provides 3 months of effective control (for small roaches).

Guaranteed to work or your money back!

### THIS IS HOW COMBAT® ROACH KILLING SYSTEM WORKS:

- 1** Roaches enter the bait station and eat the bait.
- 2** Roaches return to their nest and die.
- 3** Other roaches eat them and die, creating a chain reaction.

-or-

### THIS IS HOW COMBAT® WORKS:

- 1** Roaches enter the bait station and eat the bait.
- 2** Roaches take the bait back to the nest.
- 3** Roaches share the bait, killing other roaches and destroying the nest.

This product is specially designed for roaches -or- (large roaches, waterbugs & palmetto bugs.) Select the right COMBAT® Roach Killing System for your roach problem by using the pictures below to identify which type of pest you have.

Large, 1" to 1-1/2" Cockroach. Habits: Primarily live and breed outdoors and enter homes in search of food. Bait station placement near potential points of entry is key.

Small, 1/2" Cockroach. Habits: Primarily live and breed in moist areas like kitchens and bathrooms. More bait stations are required for effective control.

If you have seen both types of cockroach in your home, it is strongly suggested that you purchase both sizes of COMBAT® Roach Killing System for effective roach control.

- THREE MONTHS OF EFFECTIVE CONTROL - EASY TO USE - NOTHING TO ACTIVATE - NO VAPOR, FUMES OR ODOR

### DIRECTIONS FOR USE

IT IS A VIOLATION OF FEDERAL LAW TO USE THIS PRODUCT IN A MANNER INCONSISTENT WITH ITS LABELING.

1. [Remove wrapper.] Break COMBAT® bait stations apart [from plastic frame]. [Tear along perforation lines.] Use all 8 bait stations at the same time for thorough control.
- or-
1. Open pouch and separate the bait stations from plastic frame. Do not remove or puncture the label on bait station. [Now the baits are ready to use.]
2. Place bait stations wherever roaches are seen—near doors and windows at least 10 bait stations in the kitchen and 2 in each bathroom (under refrigerator and appliances, inside cabinets and drawers). (Refer to diagram for other placement locations). Do not use sprays or foggers around baits: they can contaminate bait stations and reduce effectiveness.
- or-
2. For best results, use all 8 [or 12] bait stations at one time.
3. Baits work best on horizontal surfaces touching corners and walls. Use enclosed stickers for vertical surfaces.
- or-
3. Place at least 6 [or 10] bait stations in the kitchen and 1 [or 2] in each bathroom (food storage and water sources are the most common roach areas). Specific placement areas include under appliances and sinks, on floor along baseboards, near pet food storage and inside cabinets and drawers.
4. Replace all bait stations after 3 months of use, sooner if infestation is heavy. Use enclosed replacement minder.
- or-
4. Place baits wherever you see [or have seen] roaches -or- signs of roaches; severe roach problems may require 2 boxes or more. [Then place additional baits about 1 1/2 feet away. The more bait stations placed out, the more roaches find the bait. This means faster and more effective control of your roach problem. Refer to diagram for placement locations.]
5. [Place properly.] Bait stations work best when touching walls or corners. [Place baits properly so that they are touching walls and corners.] Use -or- Only use enclosed stickers when placing them upside down [or on walls]. It is not necessary to use stickers on all baits.
6. Replace all \_\_\_ bait stations every 3 months, or sooner if they return, because roaches have probably eaten all of the bait [inside].

**STORAGE AND DISPOSAL:** STORAGE: Store in cool, dry area. DISPOSAL: Wrap used bait stations and put in trash.

**EFFECTIVENESS GUARANTEE:** COMBAT® stands behind this insect killing system with a full Satisfaction Guarantee. Should you have any questions regarding COMBAT®, please call 1-800-426-6228.
