- Kills roaches and eggs 24 ho
- 7 days a week.
- Destroys (or Kills) the egg m

For Small Roaches  
-or-  
For Large Roaches  
WATERBUGS & PALMETTO BUGS

**THIS IS HOW COMBAT® ROACH BAIT STATIONS WORK:**

- 1** Roaches enter the bait station and eat the bait.
- 2** Roaches return to their nest and die.
- 3** Other roaches eat them and die, creating a chain reaction.

For Small Roaches  
-or-  
For Large Roaches  
WATERBUGS & PALMETTO BUGS

- GUARANTEED**
- COMBAT® BAIT STATIONS CONTAIN A TOTALLY UNIQUE INSECTICIDE INGREDIENT TO KILL ROACHES. TO WORK or your money back!
  - LABORATORY AND HOME USE TESTS PROVE COMBAT® PROVIDES 3 MONTHS OF EFFECTIVE ROACH CONTROL.
  - EASY TO USE-NOTHING TO ACTIVATE
  - NO VAPOR, FUMES OR ODOR
  - CHILD-RESISTANT

**DIRECTIONS FOR USE**

IT IS A VIOLATION OF FEDERAL LAW TO USE THIS PRODUCT IN A MANNER INCONSISTENT WITH ITS LABELING

1. Open pouch and separate the bait stations from plastic frame. Do not remove or puncture the label on bait station.
2. For best results, use all 8 [or 12] bait stations at one time.
3. Place at least 6 [or 10] bait stations in the kitchen and 1 [or 2] in each bathroom (food storage and water sources are the most common roach areas). Specific placement areas include under appliances and sinks, on floor along baseboards, near pet food storage and inside cabinets and drawers.
4. Place baits wherever you see small -or- large roaches; severe roach problems may require 2 boxes or more. The more bait stations placed out, the more roaches find the bait. This means faster and more effective control of your small -or- large roach problem.
5. Bait stations work best when touching walls or corners. Use enclosed stickers when placing them upside down. It is not necessary to use stickers on all baits.
6. Replace all \_\_\_\_\_ bait stations every 3 months, or sooner if they return, because roaches have probably eaten all of the bait.

Do not use sprays or foggers around bait stations: they can contaminate bait stations and reduce effectiveness. Bait stations work best on horizontal surfaces touching corners and next to walls. Use enclosed stickers for vertical surfaces.

**STORAGE AND DISPOSAL**

**STORAGE:** Store in cool, dry area  
**DISPOSAL:** Wrap used bait stations and put in trash.

**PLACEMENT OF COMBAT® BAIT STATIONS**

The kitchen, bathroom and other points of entry (garage, basement, attic, doors, windows) are the most important locations.

- or -

The kitchen and bathrooms are the most important locations, but use COMBAT® bait stations wherever roaches have been found (laundry room, garage, bedrooms, attic, living room).

Normal infestation requires 1 box ( \_\_\_\_\_ bait stations).  
Heavy infestation may require 2 boxes [or more] ( \_\_\_\_\_ bait stations).

**FOR LARGE ROACHES, WATERBUGS & PALMETTO BUGS:**

This product is specially designed for large roaches, waterbugs & palmetto bugs. Select the right COMBAT® Roach Killing System 1 for your roach problem by using the pictures below to identify which type of pest you have:

**Large, 1" to 1-1/2" Cockroach**  
Habits: Primarily live and breed outdoors and enter homes in search of food. For effective control, bait stations should be put in places where roaches can enter your home.

**Small, 1/2" Cockroach**  
Habits: Primarily live and breed in moist areas like kitchens and bathrooms. For effective control, bait stations should be placed wherever roaches have been seen in your home.

If you have seen both types of cockroach in your home, it is strongly suggested that you purchase both sizes of COMBAT® Roach Killing System 1 for effective roach control

Handwritten initials or mark.

The artwork is shown below at 200% of actual size.
