## DIRECTIONS FOR USE:

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

### GENERAL INFORMATION

#### HERE'S HOW THIS PRODUCT WORKS:

Ants enter

Eat the bait

Carry bait back to kill queen and colony.

This product contains a unique patented insecticide formulation. COMBAT bait stations are effective because ants carry bait back to destroy queen and entire colony. And COMBAT has no insecticide odor, is child-resistant and easy to use. It even kills the ants you don't see, back in the colonies where they live. COMBAT kills common household ants, including grease and sweet eating ants, such as: Argentine, Black Carpenter, Cornfield, Little Black, Odorous House, Pavement and Fire Ants.

### APPLICATION INSTRUCTIONS

1. Simply place each bait station indoors or outdoors right by ant trails or close to areas where ants are numerous. For heavy infestations, you may need more than one box of this product. COMBAT can be placed in cabinets, next to food and dishes, or anywhere your ant problem occurs.
2. Increased ant activity may be seen near the bait stations for short periods and you can expect to see less activity within one week. For best results, do not interfere with the ants or the station during its use because ants must carry the bait back to destroy the queen and colony.
3. Replace **all stations every 3 months** to keep ants from reappearing.

### GENERAL PRECAUTIONS AND RESTRICTIONS

Do not remove or puncture white label on bait stations.
