## COMBAT® SUPERBAIT® BRAND GRANULAR ANT KILLER

Now with COMBAT® SuperBait® Brand Granular Ant Killer you can kill ants - and/or - crickets outdoors before they become indoor pests. Foraging ants bring the granules back to their nest so that the queen and the entire colony are killed.

Now with COMBAT® SuperBait® Brand Granular Ant Killer you can kill ants - and/or - crickets outdoors before they come indoors. This unique, delayed-action bait allows worker ants, looking for food and water, enough time to bring the granules back to their nest where the queen and the colony feeds on it and dies.

COMBAT® SuperBait® Brand Granular Ant Killer contains a patented delayed-action insecticide, hydramethylnon, that kills a wide variety of ants such as Fire, Argentine, Pharaoh, Carpenter, Pavement, Honey, Acrobat, Cornfield, False Honey, Odorous House, Thief, Big-headed, Field, Harvester and Pyramid ants.

COMBAT® SuperBait® Brand Granular Ant Killer kills the queen(s), which is one of the most effective ways to control ants. The colony cannot survive without the queen(s).

One of the most effective ways to control ants is to eliminate the queen(s) back in the nest. The colony cannot survive without the queen. COMBAT® SuperBait® Brand Granular Ant Killer kills the queen and the entire colony.

This is how COMBAT SuperBait Brand Granular Ant Killer works:

### DIRECTIONS FOR USE:

IT IS A VIOLATION OF FEDERAL LAW TO USE THIS PRODUCT IN A MANNER INCONSISTENT WITH ITS LABELING.

Wear gloves when using the product and wash hands thoroughly after handling.

- For general control of ants - and/or - crickets outdoors - and/or - outdoor roaches around your home, garage or any other building.  
*Directions for use for the bottle with measuring cap:*  
Pour granules into the bottle cap to the 1/2 -or- 1 oz fill line. (Lightly apply one cap (about 1 1/2 table spoonfuls) (1/2 oz) of granules every 10 feet around the perimeter of your home.) -or- (Lightly apply around the perimeter of your home using 1 oz (about three tablespoonfuls) for every 20 feet.) Sprinkle granules sparingly so that they are barely visible.  
*Directions for use for the tip and measure dosing bottle:*  
Turn the container upside-down to fill 1/2 oz of granules into the doser. Apply granules from the doser around the perimeter of your home using one dose (1/2 oz) per 10 feet. Sprinkle granules sparingly so that they are barely visible.  
One container is sufficient to treat an average sized home. For best results, apply granules in shaded areas (i.e. under overhangs, next to foundations).
- For localized activity such as ant hills, mounds, and/or trails, (fill the cap/dose) to 1 oz and apply) -or- (measure or sprinkle approximately 1 oz of granules around each ant hill, mound, or trail. For best results, do not put the granules directly in or on the mound. Do not disturb the mound. This will aggravate the ants and cause them to move their mound.
- After application, you may see increased ant activity around COMBAT SuperBait Brand Granular Ant Killer granules. Do not spray or interfere with their feeding. The ants need time to take the granules back to the colony to kill the queen and the entire colony.
- You should expect to see a significant reduction in ants - and/or - crickets - and/or - outdoor roaches within a week.
- Repeat treatment after one week if infestation persists or if large colonies are involved.
- For best results, apply late in the day when ants - and/or - crickets - and/or - outdoor roaches are more active. Avoid outdoor application if rain threatens.

### PRECAUTIONARY STATEMENTS:

#### CAUTION: HAZARDS TO HUMANS.

May be harmful if swallowed. Avoid contact with skin or eyes. Wash hands thoroughly after handling.

**STATEMENT OF PRACTICAL TREATMENT:** If swallowed, drink one or two glasses of water and induce vomiting by touching back of throat with finger. Call physician or poison control center at once. Do not induce vomiting or give anything by mouth to an unconscious person.

**HAZARDS TO DOMESTIC ANIMALS:** Pets may be attracted to this product. Keep pets away from treated areas for at least 24 hours after application.

**ENVIRONMENTAL HAZARDS:** This product is toxic to fish. Do not apply directly to water. Do not contaminate water by cleaning of equipment or disposal of equipment washwaters.

**STORAGE AND DISPOSAL:** Keep in original container. Store in cool, dry, secure place. Do not rinse can. Discard in trash.
