COMBAT

SUPERBAIT[®] BRAND GRANULAR ANT KILLER

CONCENTRATED FORMULA **GUARANTEED TO WORK**

Also kills crickets and outdoor roaches

- Kills ants outdoors before they come indoors
- Kills the queen and kills the entire colony
- Guaranteed or your money back
- Child resistant top
- Protects your home from ant infestations
- Kills a wide variety of ants
- Kills many types of ants
- Kills sugar and grease-eating ants
- Kills most common varieties of ants
- Protects your home from many varieties of ants
- Easy to use / Ready-to-use
- No mixing
- Unique, delayed action formula allows ants to carry bait back to the nest where the entire colony is killed
- Kills ant colonies within one week
- Granules are easily carried back to the colony
- Granules are tiny and blend-in with dirt and sand
- Light brown coloring allows bait to blend-in with dirt and sand
- Not readily visible to children and pets
- Gets to the source of infestation
- Does not repel ants
- Kills Fire Ant mounds
- The granules attract worker ants who carry the bait back to the nest where the entire colony, including the queen, is killed
- Concentrated formula
- Will not clump or clog in container

Even kills Fire Ants

ACTIVE INGREDIENT: Hydramethylnon (Tetrahydro-5,5-dimethyl-2(1H)-pyrimidinone, (3-(4-(trifluoromethyl)phenyl)-1-(2-(4-trifluoromethyl)phenyl)-3-thenyl)-2-propenylidene)hydrazone] 1.0%

INGREDIENTS: 99.0%

KEEP OUT OF REACH OF CHILDREN AND PETS
CAUTION:
(See Directions & Cautions on Back)

TOTAL NET WT

Now with this product you can kill ants - and/or - crickets outdoors before they become indoor pests. Foraging ants bring the granules back to their nest so that the queen and the entire colony are killed.

Now with this product you can kill ants - and/or - crickets outdoors before they come indoors. This unique, delayed-action bait allows worker ants, looking for food and water, enough time to bring the granules back to their nest where the queen and the colony feeds on it and dies.

This product contains a patented delayed-action insecticide, hydramethylnon, that kills a wide variety of ants such as Fire, Argentine, Pharaoh, Carpenter, Pavement, Honey, Acrobat, Cornfield, Odorous House, Thief, Big-headed, Field and Harvester.

This product kills the queen(s), which is one of the most effective ways to control ants. The colony cannot survive without the queen(s).

One of the most effective ways to control ants is to eliminate the queen(s) back in the nest. The colony cannot survive without the queen. This product kills the queen and the entire colony.

COMBAT
SUPERBAIT[®]
BRAND GRANULAR
ANT KILLER

This is how this product works:

DIRECTIONS FOR USE:

- IT IS A VIOLATION OF FEDERAL LAW TO USE THIS PRODUCT IN A MANNER INCONSISTENT WITH ITS LABELING.
- Wear gloves when using this product and wash hands thoroughly after handling.
1. For general control of ants - and/or - crickets outdoors - and/or - outdoor roaches around your home, garage or any other building.
Directions for use for the bottle with measuring cap:
Pour granules into the bottle cap to the 1/2 - or - 1 oz fill line. (Lightly apply one cap (about 1 1/2 table spoonfuls) (1/2 oz) of granules every 10 feet around the perimeter of your home.) -or- (Lightly apply around the perimeter of your home using 1 oz (about three table spoonfuls) for every 20 feet.) Sprinkle granules sparingly so that they are barely visible.
Directions for use for the lip and measure dosing bottle:
Turn the container upside-down to fill 1/2 oz of granules into the doser. Apply granules from the doser around the perimeter of your home using one dose (1/2 oz) per 10 feet. Sprinkle granules sparingly so that they are barely visible.
One container is sufficient to treat an average sized home. For best results, apply granules in shaded areas (i.e. under overhangs, next to foundations).
 2. For localized activity such as ant hills, mounds, and/or trails. (Fill the cap/dose) to 1 oz and apply) -or- (measure or sprinkle approximately 1 oz of) granules around each ant hill, mound, or trail. For best results, do not pull the granules directly in or on the mound. **Do not disturb the mound.** This will aggravate the ants and cause them to move their mound.
 3. After application, you may see increased ant activity around granules. **Do not spray or interfere with their feeding.** The ants need time to take the granules back to the colony to kill the queen and the entire colony.
 4. You should expect to see a significant reduction in ants - and/or - crickets - and/or - outdoor roaches within a week.
 5. Repeat treatment after one week if infestation persists or if large colonies are involved.
 6. For best results, apply late in the day when ants - and/or - crickets - and/or - outdoor roaches are more active. Avoid outdoor application if rain threatens.
 7. **BROADCAST TREATMENT:** For general control of (fire) ants outdoors around your yard, sprinkle granules lightly in the yard. One package will treat (up to) a half acre -or- 21,780 square feet -or- 2,420 yards.

PRECAUTIONARY STATEMENTS:
CAUTION: HAZARDS TO HUMANS.
May be harmful if swallowed. Avoid contact with skin or eyes. Wash hands thoroughly after handling.
FIRST AID/STATEMENT OF PRACTICAL TREATMENT: If swallowed, drink one or two glasses of water and induce vomiting by touching back of throat with finger. Call physician or poison control center at once. Do not induce vomiting or give anything by mouth to an unconscious person.
HAZARDS TO DOMESTIC ANIMALS: Pets may be attracted to this product. Keep pets away from treated areas for at least 24 hours after application.
ENVIRONMENTAL HAZARDS: This product is toxic to fish. Do not apply directly to water. Do not contaminate water by cleaning of equipment or disposal of equipment washwaters.
STORAGE AND DISPOSAL: Keep in original container. Store in cool, dry, secure place. Do not rinse can. Discard in trash.

Should you have any questions regarding this product, please call the COMBAT Ant Expert Hotline: 1-800-426-6226.
