end of claims for front or back:

Now with this product you can kill ants -and/or- crickets outdoors before they become indoor pests. Foraging ants bring the granules back to their nest so that the queen and the entire colony are killed.

Now with this product you can kill ants -and/or- crickets outdoors before they come indoors. This unique, delayed-action bait allows worker ants, looking for food and water, enough time to bring the granules back to their nest where the queen and the colony feed on it and die.

This product contains a patented delayed-action insecticide, hydramethylnon, that kills a wide variety of ants such as Fire, Argentine, Pharaoh, Carpenter, Pavement, Honey, Acrobat, Cornfield, Odorous House, Thief, Big-headed, Field and Harvester.

This product kills the queen(s), which is one of the most effective ways to control ants. The colony cannot survive without the queen(s).

One of the most effective ways to control ants is to eliminate the queen(s) back in the nest. The colony cannot survive without the queen. This product kills the queen and the entire colony.

[This package is sold by weight, not by volume. You can be assured of proper weight even though some settling of contents normally occurs during shipping and handling.]

This is how this product works:

GENERAL PRECAUTIONS AND RESTRICTIONS

Wear gloves when using the product and wash hands thoroughly after handling.

Do not apply this product in a way that will contact any person or pet, either directly or through drift. Keep people and pets out of the area during application.

EPA Reg. No. 64240-25 Combat Superbait Brand Granular Ant Killer 3 of 3

APPLICATION INSTRUCTIONS

One package will treat [up to] a half acre -or- 21,780 square feet -or- 2,420 yards.

1. For general control of ants - and/or - crickets outdoors - and/or - outdoor roaches around your home, garage or any other building.

Directions for use for the bottle with measuring cap:

Pour granules into the bottle cap to the 1/2 -or- 1 oz fill line. [Lightly apply one cap (about 1 1/2 table spoonfuls) (1/2 oz) of granules every 10 feet around the perimeter of your home.] -or- [Lightly apply around the perimeter of your home using 1 oz (about three tablespoonfuls) for every 20 feet.] Sprinkle granules sparingly so that they are barely visible.

Directions for use for the tip and measure dosing bottle:

Turn the container upside-down to fill 1/2 oz of granules into the doser. Apply granules from the doser around the perimeter of your home using one dose (1/2 oz) per 10 feet. Sprinkle granules sparingly so that they are barely visible. One container is sufficient to treat an average sized home. For best results, apply granules in shaded areas (i.e. under overhangs, next to foundations).

2. For localized activity such as ant hills, mounds, and/or trails, [fill the (cap/dose) to 1 oz and apply] -or- [measure or sprinkle approximately 1 oz of granules around each ant hill mound, or trail. For best results, do not put the granules directly in or on the mound. **Do not disturb the mound.** This will aggravate the ants and cause them to move their mound.

3. After application, you may see increased ant activity around granules. **Do not spray or interfere with their feeding.** The ants need time to take the granules back to the colony to kill the queen and the entire colony.

4. You should expect to see a significant reduction in ants - and/or - crickets - and/or - outdoor roaches within a week.

5. Repeat treatment after one week if infestation persists or if large colonies are involved.

6. For best results, apply late in the day when ants - and/or - crickets - and/or - outdoor roaches are more active. Avoid outdoor application if rain threatens.

7. BROADCAST TREATMENT: For general control of [Fire] Ants outdoors around your yard, sprinkle granules lightly in the yard.

STORAGE AND DISPOSAL

STORAGE: Keep in original container. Store in cool, dry, secure place. Do not rinse can.

DISPOSAL: If empty: Do not reuse this container. Place in trash.

If partly filled: Call your local solid waste agency or toll free number 1-800-CLEANUP for disposal instructions. Never place unused product down any indoor or outdoor drain.
