U.S. ENVIRONMENTAL PROTECTION AGENCY
Office of Pesticide Programs
Registration Division (H7505C)
401 "M" St., S.W.
Washington, D.C. 20460

EPA Reg. Number:
64240-27

Date of Issuance:
APR 17 1996

NOTICE OF PESTICIDE:
 Registration
 Reregistration

Term of Issuance:
Conditional

Name of Pesticide Product:
Combat Regular Roach
Bait 0.5% HM

(under FIFRA, as amended)

Name and Address of Registrant (include ZIP Code):
Combat Insect Control Systems
c/o PS & RC
P.O. Box 493
Pleasanton, CA 94566-0803

Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered/reregistered under the Federal Insecticide, Fungicide and Rodenticide Act.

Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA sec. 3(c)(7)(A) provided that you:

1. Submit and/or cite all data required for registration/reregistration of your product under FIFRA sec. 3(c)(5) when the Agency requires all registrants of similar products to submit such data; and submit acceptable responses required for reregistration of your product under FIFRA section 4.
2. Make the following label changes:
 - a. Revise the EPA Registration Number to read, "EPA Reg. No. 64240-27".
 - b. In the ingredient statement correct the chemical name for Hydramethylnon to read: Tetrahydro-5, 5-dimethyl - 2(1H)-pyrimidinone, (3-(4-(trifluoromethyl) phenyl)-1-(2-(4-(trifluoromethyl) phenyl) ethenyl)-2-propenylidene) hydrazone.

Signature of Approving Official:

Date:

2/5

c. Kills roaches and the eggs they carry for three months" Although we approved this claim for smaller roaches, no data or information was submitted to support claims for larger roaches. Therefore, delete the following claims for large roaches:
.....Laboratory and home use tests prove Combat provides 3 months of effective control.
.....Controls your roach problem for 3 months.

d. Revise "immune to common insecticides" to read
....."Resistant to pyrethroids and organophosphates"

e. The claims preceded with the term "New" are allowed to be incorporated on new labeling produced for a period not to exceed six months following approval.

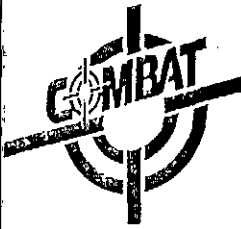

3. Submit two copies of the revised final printed label for the record.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.

FOR LARGE ROACHES, WATERBUGS AND PALMETTO BUGS

COMBAT® REGULAR ROACH BAIT 0.5% HM

ECONOMY PACK of
OUR ITEM XXXXX
INSTITUTIONAL
SIZE

FOR LARGE ROACHES, WATERBUGS & PALMETTO BUGS

This product is specially designed for large roaches, waterbugs & palmetto bugs. Select the right COMBAT® Regular Roach Bait 0.5% HM for your roach problem by using the pictures below to identify which type of pest you have.

Large, 1" to 1-1/2" Cockroach.
Habits: Primarily live and breed outdoors and enter homes in search of food. They placement near potential points of entry is key.

Small, 1/2" Cockroach.
Habits: Primarily live and breed in moist areas like kitchens and bathrooms. More bait stations are required for effective control.

If you have seen both types of cockroach in your home, it is strongly suggested that you purchase both sizes of COMBAT® Regular Roach Bait 0.5% HM for effective roach control.

COMBAT® bait stations contain a totally unique insecticide ingredient to kill roaches. Laboratory and home use tests prove COMBAT® provides 3 months of effective control.

THIS IS HOW THE COMBAT® Regular Roach Bait 0.5% HM WORKS

- 1 ROACHES enter the bait station and eat the bait.
- 2 ROACHES return to their nest and die.
- 3 Other ROACHES eat them and die, creating a chain reaction.

- THREE MONTHS OF EFFECTIVE CONTROL - EASY TO USE - NOTHING TO ACTIVATE - NO VAPORS, FUMES OR ODOR

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

1. Open pouch and separate the bait stations from plastic frame. Do not remove or puncture the label on bait station.
2. For best results, use all 8 (or 12) bait stations at one time.
3. Place at least 6 (or 10) bait stations in the kitchen and 1 (or 2) in each bathroom (food storage and water sources are the most common roach areas.) Specific placement areas include under appliances and sinks, on floor along baseboards, near pet food storage and inside cabinets and drawers.
4. Place baits wherever you see roaches; severe roach problems may require 2 boxes or more. The more bait stations placed out, the more roaches find the bait. This means faster and more effective control of your roach problem.
5. Bait stations work best when touching walls or corners. Use enclosed stickers when placing them upside down. It is not necessary to use stickers on all baits.
6. Replace all _____ bait stations every 3 months, or sooner if they return, because roaches have probably eaten all of the bait.

Do not use sprays or foggers around bait stations: they can contaminate bait stations and reduce effectiveness. Bait stations work best on horizontal surfaces touching corners and next to walls. Use enclosed stickers for vertical surfaces.

STORAGE AND DISPOSAL: STORAGE: Store in cool, dry area. DISPOSAL: Wrap used bait stations and put in trash.

EFFECTIVENESS GUARANTEE: COMBAT® stands behind this COMBAT® Regular Roach Bait 0.5% HM with a full Satisfaction Guarantee. Should you have any questions regarding COMBAT®, please call 1-800-426-6228.

- Controls your roach problem for 3 months.
- Kills roaches immune to common insecticides.
- A significant reduction in roaches will be apparent within 2 weeks.
- Guaranteed to work or your money back.
- Easy-to-use; nothing to activate. No vapors or fumes.

- Contains a totally unique insecticide ingredient to kill roaches.
- Kills roaches faster than the old Combat formula.
