REGULAR ROACH BAIT 0.5% HM

## DIRECTIONS FOR USE:

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

### GENERAL INFORMATION

#### For Large Roaches *Waterbugs & Palmetto Bugs:*

This product is specially designed for large roaches, waterbugs & palmetto bugs. Select the right COMBAT® Regular Roach Bait 0.5% HM for your roach problem by using the pictures below to identify which type of pest you have.

Large, 1" to 1-1/2" cockroach.  
 Habits: Primarily live and breed outdoors and enter homes in search of food. Tray placement near potential points of entry is key.

Small, 1/2" cockroach.  
 Habits: Primarily live and breed in moist areas like kitchens and bathrooms. More bait stations are required for effective control.

If you have seen both types of cockroaches in your home, it is strongly suggested that you purchase both sizes of COMBAT® Regular Roach Bait 0.5% HM for effective roach control.

For more information, call the Combat® Labs Information Helpline at 1-800-426-6228 -or- (For questions or comments, please call the Combat® Labs [Information] Helpline at 1-800-426-6228 [for more information].)

[For questions or comments about COMBAT®, call toll free 1-800-426-6228.]

- Kills more roaches than the old Combat formula.
- More effective roach killing than the old Combat formula.

*for small roaches:* Controls your roach problem for 3 months.

#### end of claims for front or back

### GENERAL PRECAUTIONS AND RESTRICTIONS

Do not use sprays or foggers around bait stations: They can contaminate bait stations and reduce effectiveness. Bait stations work best on horizontal surfaces touching corners and next to walls. Use enclosed stickers for vertical surfaces.

Note: ***Bold, italicized text is information for the reader and is not part of the label.***  
 [Bracketed information is optional text.] Underlined text is new.

### APPLICATION INSTRUCTIONS

1. Open pouch and separate the bait stations from plastic frame. Do not remove or puncture the label on bait station.
2. For best results, use all 8 -or- 12 bait stations at one time.
3. Place at least 6 -or- 10 bait stations in the kitchen and 1 -or- 2 in each bathroom [food storage and water sources are the most common roach areas.] Specific placement areas include under appliances and sinks, on floor along baseboards, near pet food storage and inside cabinets and drawers.
4. Place baits wherever you see roaches; severe roach problems may require 2 boxes or more. The more bait stations placed out, the more roaches find the bait. This means faster and more effective control of your roach problem.
5. Bait stations work best when touching walls or corners. Use enclosed stickers when placing them upside down. It is not necessary to use stickers on all baits.
6. Replace all \_\_\_\_\_ bait stations every 3 months, or sooner if roaches return, because they have probably eaten all of the bait.

#### **OTHER LOCATIONS:**

Kitchen, bathroom, bedroom, living room, laundry room and other points of entry (garage, basement, attic, & outside doors). Normal infestation requires 1 box (\_\_\_\_ stations). Heavy infestation may require 2 boxes (\_\_\_\_ stations).

### **STORAGE AND DISPOSAL**

**STORAGE:** Store in cool, dry area [out of reach of children].

**DISPOSAL:** If empty: Do not reuse this container. Place in trash. If partly filled: Call your local solid waste agency or toll free number 1-800-CLEANUP for disposal instructions. Never place unused product down any indoor or outdoor drain.

Note: ***Bold, italicized text is information for the reader and is not part of the label.***
