

U.S. ENVIRONMENTAL PROTECTION AGENCY
 Office of Pesticide Programs
 Registration Division (H7505C)
 401 "M" St., S.W.
 Washington, D.C. 20460

EPA Reg. Number:

64240-28

Date of Issuance:

OCT - 3 1996

Term of Issuance:

Conditional

Name of Pesticide Product:

Combat Ant Killer
 Granular Bait 0.65%

NOTICE OF PESTICIDE:
 Registration
 Reregistration

(under FIFRA, as amended)

Name and Address of Registrant (include ZIP Code):

COMBAT Insect Control Systems
 c/o PS&RC
 P.O. Box 493
 Pleasanton, CA 94566-0803

Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered/reregistered under the Federal Insecticide, Fungicide and Rodenticide Act.

Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA sec. 3(c)(7)(A) provided that you:

1. Submit and/or cite all data required for registration of your product under FIFRA sec. 3(c)(5) when the Agency requires all registrants of similar products to submit such data; and submit acceptable responses required for reregistration of your product under FIFRA section 4.

2. Make the following label changes:

a. Revise the EPA Registration Number to read, "EPA Reg. No. 64240-28".

b. The term "new" can be used on labeling produced for a period of six months from the date of this approval.

Signature of Approving Official:

RPK

Date:

OCT - 3 1996

3. Submit two copies of the revised final printed label for the record.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.

We note that the Product Chemistry data, MRID No. 440280-01 is acceptable.

COMBAT® ANT KILLER GRANULAR BAIT 0.65%

Now with COMBAT Ant Killer Granular Bait 0.65%* you can kill ants outdoors before they become indoor pests. Foraging ants bring the granules back to their nest so that the queen and the entire colony are killed.
Now with COMBAT Ant Killer Granular Bait 0.65% you can kill ants outdoors before they come indoors. This unique, delayed-action bait allows worker ants, looking for food and water, enough time to bring the granules back to their nest where the queen and the colony feeds on it and dies.
COMBAT Ant Killer Granular Bait 0.65 contains a patented delayed-action insecticide, hydramethylnon, that kills a wide variety of ants such as Fire, Argentine, Pharaoh, Carpenter, Pavement, Honey, Acrobat, Cornfield, False Honey, Odorous House, Thief, Big-headed, Field, Harvester and Pyramid ants.
COMBAT Ant Killer Granular Bait 0.65 kills the queen(s), which is one of the most effective ways to control ants. The colony cannot survive without the queen(s).
One of the most effective ways to control ants is to eliminate the queen(s) back in the nest. The colony cannot survive without the queen. COMBAT Ant Killer Granular Bait 0.65% kills the queen and the entire colony.

DIRECTIONS FOR USE:

IT IS A VIOLATION OF FEDERAL LAW TO USE THIS PRODUCT IN A MANNER INCONSISTENT WITH ITS LABELING.

Wear gloves when using the product and wash hands thoroughly after handling.

1. For general control of ants outdoors around your home, garage or any other building:
(Directions for use for the bottle with measuring cap)
Pour granules into the bottle cap to the 1/2 oz. fill line. Lightly apply one cap (1/2 oz) of granules every 10 feet around the perimeter of your home. Sprinkle granules sparingly so that they are barely visible.
(Directions for use for the tip and measure dosing bottle)
Turn the container upside-down to fill 1/2 oz. of granules into the doser. Apply granules from the doser around the perimeter of your home using one dose (1/2 oz) per 10 feet. Sprinkle granules sparingly so that they are barely visible. One container is sufficient to treat an average sized home. For best results, apply granules in shaded areas (i.e. under overhangs, next to foundations).
2. For localized activity such as ant hills, mounds, and/or trails, fill the (cap/dose) to 1 oz. and apply granules around each ant hill, mound, or trail. For best results, do not put the granules directly in or on the mound. Do not disturb the mound. This will aggravate the ants and cause them to move their mound.
3. After application, you may see increased ant activity around COMBAT granules. Do not spray or interfere with their feeding. The ants need time to take the granules back to the colony to kill the queen and the entire colony.
4. You should expect to see a significant reduction in ants within a week.
5. Repeat treatment after one week if infestation persists or if large colonies are involved.
6. For best results, apply late in the day when ants are more active. Avoid outdoor application if rain threatens.

STORAGE AND DISPOSAL: Keep in original container. Store in cool, dry, secure place. Do not rinse can. Discard in trash.

Should you have any questions regarding COMBAT® Ant Killer Granular Bait 0.65%*, please call the COMBAT Ant Expert Hotline: 1-800-426-6228.
