UNITED STATES ENVIRONMENTAL PROTECTION AGENCY

U.S. ENVIRONMENTAL PROTECTION AGENCY
Office of Pesticide Programs
Registration Division (7505C)
401 "M" St., S.W.
Washington, D.C. 20460

EPA Reg. Number:

64240-30

Date of Issuance:

MAR 13 1997

Term of Issuance:

Conditional

Name of Pesticide Product:

Combat

Ant Bait Fl

NOTICE OF PESTICIDE:

 X Registration
 Reregistration

(under FIFRA, as amended)

Name and Address of Registrant (include ZIP Code):

J. Evelyn Lawson
Combat Insect Control Systems
c/o PS&RC
P.O. Box 493
Pleasanton, CA 94566-0803

Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered/reregistered under the Federal Insecticide, Fungicide and Rodenticide Act.

Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA sec. 3(c)(7)(A) provided that you:

1. Submit and/or cite all data required for registration of your product under FIFRA sec. 3(c)(5) when the Agency requires all registrants of similar products to submit such data; and submit acceptable responses required for reregistration of your product under FIFRA section 4.

2. Make the following label changes:

- a. Revise the EPA Registration Number to read, "EPA Reg. No. 64240-30".
- b. You must add Precautionary Statements to the package label as follows:
Precautionary Statements
Hazard to Humans and Domestic Animals
CAUTION
Wash thoroughly with soap and water after handling bait stations.

Signature of Approving Official:

RPK

Date:

MAR 13 1997

EPA Form 8570-6

- c. Delete or justify the following claims:
Claims relating to egg-killing or egg-stopping;
Claims relating to killing or starting to kill faster than 77 hours or seeing results sooner than 77 hours;
Claims relating to killing 10,000 or more ants.
- d. Clarify claims that outdoor use means outdoors adjacent to the home.
- e. Delete all comparative claims , such as "kills ants faster," "faster acting."
- f. Claims that the product is "new" may be used up to 6 months from the date of registration.
- e. You must modify the label as follows:
In connection with the acceptable Child Resistant Packaging (CRP) study which you submitted or cited, the following specifications must appear on the package labeling:
Contains 3 or 6 bait stations [and stakes]
Total net weight 0.15 oz (4.5 g.) or 0.3 oz. (9 g).
The directions for use must be revised to delete all references to use of more bait stations than the number of bait stations contained in the package.
- f. The Disposal Instructions must be modified as follows:
Disposal: Wrap bait stations in several layers of newspaper and discard in trash.
- g. Delete directions to place bait stations next to food.
- h. The bait station label must be modified as follows:
Disposal: Wrap used bait station in several layers of newspaper and discard in trash.

The Net wt. must read 0.05 oz. (1.5 g.)

The statement "See outer carton for complete directions must include the phrase "and additional precautionary statements."

3. Submit for the record a formulator's exemption revised so that the sources of active ingredient are consistent with the Confidential Statement of Formula.

4. Submit a revised child resistant packaging certification that specifies that the package does not comply with the senior and younger adult effectiveness specifications.

5. Submit two copies of the revised final printed label for the record.

Under 40 CFR 157.32(a) child resistant packaging for pesticides must meet the effectiveness specifications described in 16 CFR 1700.15(b) when tested by the protocol specified in 16 CFR 1700.20. The Agency has recently granted an exemption from the adult effectiveness specification as described in 16 CFR 1700.15(b)(2) ease of adult opening. The Agency will publish a Notice in the Federal Register of the granting of the exemption. This exemption applies only to prefilled, nonrefillable insecticide bait stations that are not designed or intended to be opened or activated in a manner that exposes the contents to human contact. This exemption is only from the adult effectiveness specifications as described in 16 CFR 1700.15(b)(2) ease of adult opening. The exemption will be for a five year time period and will apply to other products of substantially similar composition and intended uses.

Any changes to the packaging or contents must be approved by the Agency prior to market introduction. Any alterations to the bait station and/or its contents will require submission and review of appropriate data by the Agency prior to any institution of the package change.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.

COMBAT[®] ANT BAIT F1

- This product contains a totally unique insecticide ingredient which kills most ants commonly found in households. COMBAT[®] bait stations are effective because ants carry bait back to where they live to destroy queen and entire colony. It even kills ants you don't see outside of your home to prevent more ants from coming inside.
- This product kills the following ants which feed on sweet and greasy materials: Fire, Argentine, Black Carpenter, Cornfield Ants, Little Black, Odorous House, and Pavement Ants.
- This product is effective because ants carry bait back to the colony to kill the queen and entire colony.
- This product is easy to use and has no insecticide odor.

• OODORLESS • CHILD-RESISTANT • EASY-TO-USE • KILLS THE QUEEN AND THE ENTIRE COLONY • NO INSECTICIDE ODOR • KILLS COMMON OUTDOOR ANTS, INCLUDING FIRE ANTS • ATTRACTS WORKER ANTS TO THE BAIT STATIONS

THIS IS HOW THE COMBAT[®] ANT BAIT F1 WORKS:

To prevent ants from coming indoors, place bait station -or- stake every 15 to 20 feet around the perimeter of your home.

EFFECTIVENESS GUARANTEED:

COMBAT[®] stands behind this insect killing system with a full Satisfaction Guarantee. Should you have any questions regarding Combat[®], please call 1-800-426-6228.

Guaranteed to work or your money back!

DIRECTIONS FOR USE:

IT IS A VIOLATION OF FEDERAL LAW TO USE THIS PRODUCT IN A MANNER INCONSISTENT WITH ITS LABELING.

(Note: do not remove or puncture white label on bait stations)

1. Break COMBAT bait stations apart from plastic frame. Do not remove or puncture label on bait stations. Use all _____ bait stations at the same time for thorough control.
-or-
Break child-resistant bait feeding stations apart from the frame. Do not remove or puncture label on bait stations. For thorough ant control, use all _____ stations at the same time.
2. [Simply] place each bait station by ant trails or close to areas where ants are numerous. Inside, COMBAT can be placed in cabinets, next to food and dishes, or anywhere your ant problem occurs. Do not spray the bait stations.
-or-
For general control of ants outdoors and to prevent them from coming indoors, place a bait station every 15-20 feet around the perimeter of your home. Place additional COMBAT bait stations near cracks or crevices, along sills, or anywhere ants may gain entry indoors. Do not spray insecticide on or around the bait stations.
3. Outside your home, place additional COMBAT bait stations near cracks and crevices, along sills, or anywhere ants may gain entry.
-or-
Stations may be secured to the ground by pushing the stake through the hole in the corner of the station. The stake may be hammered in place if necessary. The station will be held more securely if the stake is pushed all the way in with the arm across the top of the station.
4. Increased ant activity may be seen near the bait stations for short periods, but you can expect to see less activity within one week -or- a few days. For best results, do not interfere with the ants or the bait stations during its use because ants must carry bait back to the colony to kill -or- destroy the queen and the other ants -or- the entire colony.
-or-
Increased ant activity may be seen near the bait stations for short periods, but you can expect to see less activity within one week. For best results, do not interfere with the ants or the bait stations during its use because ants must carry bait back to the nest to kill the queen and the entire colony.
5. Replace all bait stations after 3 months of indoor use to keep ants from reappearing.
-or-
For continuous control of ants, replace all bait stations after 8 weeks of use outdoors.

DISPOSAL: Wrap used bait stations and put in a garbage can.

-or-

STORAGE AND DISPOSAL: Do not contaminate water, food or feed by storage or disposal. Do not remove baits from [bait] station(s). Wrap used stations and put in a garbage can.
