64240-30 Combat Ant Bait F1 2 of 3

COMBAT

ANT BAIT F1

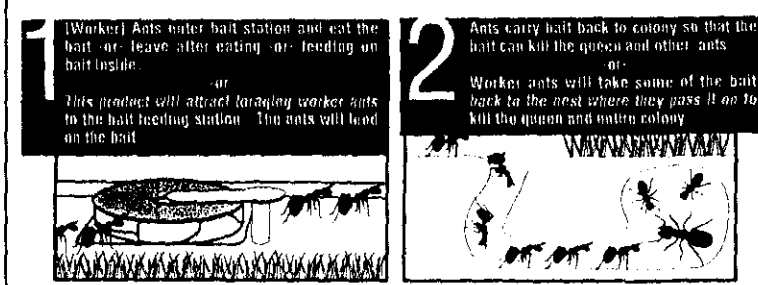

• NO VAPOR, FUMES OR ODOR • EASY TO USE • NOTHING TO ACTIVATE

• This product contains a totally unique insecticide ingredient which kills most ants commonly found in households -or- homes. This product is effective because ants carry bait back to where they live (the colony) to destroy queen and entire colony. It even kills ants [you don't see] outside (adjacent to) your home to prevent more ants from coming inside.

• This product kills the following ants which feed on sweet and greasy materials: Fire, Argentine, Black Carpenter, Cornfield Ants, Little Black, Odorous House, and Pavement Ants.

THIS IS HOW THE COMBAT® ANT BAIT F1 WORKS:

For more information, call the Combat Labs Information Helpline at 1-800-426-6228 -or- [For questions or comments, please call the Combat Labs Information Helpline at 1-800-426-6228 [for more information].

EFFECTIVENESS GUARANTEED:

COMBAT® stands behind this insect killing system with a full Satisfaction Guarantee. Should you have any questions regarding Combat®, please call 1-800-426-6228.

DIRECTIONS FOR USE:

IT IS A VIOLATION OF FEDERAL LAW TO USE THIS PRODUCT IN A MANNER INCONSISTENT WITH ITS LABELING.

- [To activate] [remove cellophane wrapper.] Break bait station[s] apart [from plastic frame]. [Tear along perforation lines.] [Do not remove or puncture label[s] on bait stations.] [Now the baits are ready to use.] **Use all 6 -or- 12 -or- 18 -or- 20 bait[s] [stations at the same time for thorough control].** [Do not remove or puncture white label on bait stations.]
- [Simply] place [each] bait[s] [station] by -or- near ant trails -or- close to areas where ants are numerous -or- where you frequently see ants. [Inside, COMBAT can be placed in cabinets, next to dishes, or anywhere your ant problem occurs. **Do not spray the bait stations.** Sprays will contaminate the baits and reduce their effectiveness.] Place additional bait[s] [stations] [near cracks, along sills or] anywhere that ants might -or- may enter your home.

-or-

[For general control of ants outdoors and to prevent them from coming indoors, place a bait station every 15-20 feet around the perimeter of your home. Place additional COMBAT bait stations near cracks or crevices, along sills, or anywhere ants may gain entry indoors -or- that ants might enter your home. **Do not spray insecticide on or around the bait stations.**]

- [Outside (adjacent to) your home, place additional COMBAT bait stations near cracks and crevices, along sills, or anywhere ants may gain entry.]

-or-

[Place the stations adjacent to your home: Stations may be secured to the ground by pushing the stake through the hole in the corner of the station.] The stake may be hammered in place -or- hammer the stake if necessary. [The station will be held more securely if the stake is pushed all the way in with the arm across the top of the station.]

- [Increased ant activity may be seen near the bait stations for short periods, but you can expect to see less activity within a day -or- a few days -or- a week. **[TIP:]** For best results, do not interfere with the ants or the bait stations during [its] use because ants must carry bait back to the colony so that it can kill -or- destroy the queen and the other ants -or- the entire colony.]

- Replace all bait stations every -or- after 3 months of [indoor] [use] to keep ants from reappearing -or- returning.
 -or-
 [For continuous control of ants, replace all bait stations after 6 weeks of use outdoors.]

DATE PLACED (Month/Year)	LOCATION	REPLACEMENT DATE (After 3 Months)

PRECAUTIONARY STATEMENTS

Hazard to Humans and Domestic Animals

CAUTION

Wash thoroughly [hands] with soap and water after handling bait stations.
