64240-30 Combat Ant Bait F1 2 of 3

# COMBAT

## ANT BAIT F1

• NO VAPOR, FUMES OR ODOR • EASY TO USE • NOTHING TO ACTIVATE

This product contains a totally unique insecticide ingredient which kills most ants commonly found in households -or- homes. This product is effective because ants carry bait back to where they live (the colony) to destroy queen and entire colony. It even kills ants [you don't see] outside (adjacent to) your home to prevent more ants from coming inside.

This product kills the following ants which feed on sweet and greasy materials: Fire, Argentine, Black Carpenter, Cornfield Ants, Little Black, Oorous House, and Pavement Ants.

### THIS IS HOW THE COMBAT® ANT BAIT F1 WORKS:

**1** [Worker] Ants enter bait station and eat the bait -or- leave after eating -or- feeding on bait inside.  
-or-  
This product will attract foraging worker ants to the bait feeding station. The ants will feed on the bait.

**2** Ants carry bait back to colony so that the bait can kill the queen and other ants.  
-or-  
Worker ants will take some of the bait back to the nest where they pass it on to kill the queen and entire colony.

For more information, call the Combat Labs Information Helpline at 1-800-426-6228. -or- [For questions or comments, please call the Combat Labs [Information] Helpline at 1-800-426-6228 [for more information].]

### EFFECTIVENESS GUARANTEED:

COMBAT® stands behind this insect killing system with a full Satisfaction Guarantee. Should you have any questions regarding Combat®, please call 1-800-426-6228.

### DIRECTIONS FOR USE:

IT IS A VIOLATION OF FEDERAL LAW TO USE THIS PRODUCT IN A MANNER INCONSISTENT WITH ITS LABELING.

- [To activate] [remove cellophane wrapper.] Break bait station[s] apart [from plastic frame]. [Tear along perforation lines.] [Do not remove or puncture label[s] on bait stations.] [Now the baits are ready to use.] Use all 6 -or- 12 -or- 18 -or- 20 bait[s] [stations at the same time for thorough control]. [Do not remove or puncture white label on bait stations.]
- [Simply] place [each] bait[s] [station] by -or- near ant trails -or- close to areas where ants are numerous -or- where you frequently see ants. [Inside, COMBAT can be placed in cabinets, next to dishes, or anywhere your ant problem occurs. **Do not spray the bait stations.** Sprays will contaminate the baits and reduce their effectiveness.] Place additional bait[s] [stations] [near cracks, along sills or] anywhere that ants might -or- may enter your home.

-or-  
[For general control of ants outdoors and to prevent them from coming indoors, place a bait station every 15-20 feet around the perimeter of your home. Place additional COMBAT bait stations near cracks or crevices, along sills, or anywhere ants may gain entry indoors -or- that ants might enter your home. **Do not spray insecticide on or around the bait stations.**]

- [Outside (adjacent to) your home, place additional COMBAT bait stations near cracks and crevices, along sills, or anywhere ants may gain entry.]  
-or-  
[Place the stations adjacent to your home: Stations may be secured to the ground by pushing the stake through the hole in the corner of the station.] The stake may be hammered in place -or- hammer the stake if necessary. [The station will be held more securely if the stake is pushed all the way in with the arm across the top of the station.]

- [Increased ant activity may be seen near the bait stations for short periods, but you can expect to see less activity within a day -or- a few days -or- a week. **[TIP:]** For best results, do not interfere with the ants or the bait stations during [its] use because ants must carry bait back to the colony so that it can kill -or- destroy the queen and the other ants -or- the entire colony.]

- Replace all bait stations every -or- after 3 months of [indoor] [use] to keep ants from reappearing -or- returning.  
-or-  
[For continuous control of ants, replace all bait stations after 6 weeks of use outdoors.]

DATE PLACED (Month/Year)	LOCATION	REPLACEMENT DATE (After 3 Months)

### PRECAUTIONARY STATEMENTS

Hazard to Humans and Domestic Animals

### CAUTION

Wash [hands] thoroughly with soap and water after handling bait stations.

### FIRST AID

[Fiproles]

- If swallowed
- Call poison control center or doctor immediately for treatment advice.
  - Have person sip a glass of water if able to swallow.
  - Do not induce vomiting unless told to do so by the poison control center or doctor.
  - Do not give anything by mouth to an unconscious person.

[HOT LINE NUMBER]  
[Fiproles]

Have the product container or label with you when calling a poison control center or doctor, or going for treatment. You may also contact 1-800-426-6228 for emergency medical treatment information -or- Questions? 1-800-426-6228.

**STORAGE AND DISPOSAL:** [Do not contaminate water, food or feed by storage or disposal.] [Do not remove baits from [bait] station[s].] **STORAGE:** Store in cool, dry area out of reach of children. **DISPOSAL:** Wrap [used] bait stations in several layers of newspaper and discard in trash.
